

MCKINLEY'S ASSASSIN

Met His Fate Without a Sign of Fear.

Stated He was Very Sorry He Could Not See His Father Before He Died—Seventeen Hundred Volts of Electricity Used.

AUBURN, N. Y., Oct. 28.—At 11:30 o'clock this morning Leon F. Czolgosz, murderer of President William McKinley paid the extreme penalty exacted by the law for his crime. He was shocked to death by 1,700 volts of electricity. He went to the chair in exactly the same manner as have the majority of all the other murderers in this state, showing no particular sign

of fear, but, in fact, doing what few of them have done, talking to the witnesses while he was being strapped in the chair. His head was erect and with his grey flannel shirt turned back at the neck, he looked quite boyish. He was intensely pale and as he tried to throw his head back and erect his chin quivered very perceptibly. As he was being strapped he looked about at the assembled witnesses with quite a steady stare and said: "I am awfully sorry I could not see my father."

He stumbled again on the little rubber covered platform upon which the chair rests. His head was erect and with his grey flannel shirt turned back at the neck, he looked quite boyish. He was intensely pale and as he tried to throw his head back and erect his chin quivered very perceptibly. As he was being strapped he looked about at the assembled witnesses with quite a steady stare and said: "I am awfully sorry I could not see my father."

Warden Meade gave the signal to have the prisoner brought in, and at 11:30 o'clock Chief Escaper Tupper swung open the big steel door leading to the condemned cells, and as the steel bars behind which Czolgosz had been kept were swung aside the two guards marched the prisoner out into the corridor, two others following behind, and the chief keeper walking in front. The guards on either side of Czolgosz had hold of his arms either as if to support him, or to keep him from making a demonstration. As he stepped over the threshold he stumbled, but they held him up and as they urged him forward toward the chair

York, took a position to the left of the chair, Warden Meade stood directly in front, and Electrician Davis retired to the little room containing the electrical switchboard. Thayer gave the signal and the current was turned through the electric lights, flooding the chamber with brilliant light and dramatic effect showing the power that was used to kill the prisoner.

BABY'S OWN TABLETS

Nothing in the world is such a comfort and joy as a healthy, hearty, rosy-cheeked, happy baby. Babies can be kept in perfect health only by having at hand and administering when needed some purely vegetable harmless remedy and of all this class of medicines Baby's Own Tablets are conceded to be the best.

FOR CONSTIPATION,

colic, diarrhoea, simple fevers, sour stomachs, teething babies, indigestion and sleeplessness these tablets are a really wonderful cure.

You can give them to the smallest baby without the slightest fear. Dissolved in water, they will be taken readily.

They contain absolutely not a particle of opiate or other injurious drugs. They are small, sweet lozenges that any baby will take without objection and their action is prompt and pleasant.

They will tone up the whole system and make the little one as hearty and free from infantile disorders as any mother could wish.

They cost 25 cents a box. All druggists sell them or they may be secured by sending the price direct and the tablets will be forwarded prepaid.

Good for all Babies; Try Them for Your Baby.

ATTACKING BULLER.

London National Review Returns to the Charge.

And Publishes Alleged Terms of His Famous Despatch to Gen. White.

LONDON, Oct. 31.—The National Review gives the essential terms of the "spatch-cooked" despatch of Sir Redvers Buller to Gen. Sir Geo. White, when in command of the beleaguered British garrison at Ladysmith. According to this authority, the message ran as follows: "I have been repulsed. You will burn your ciphers and destroy all your ammunition. You will then make the best terms you can with the Boers, after I have fortified myself on the Tugela."

Gen. Buller, in the speech which led to his dismissal from the first army corps, challenged the National Review to publish the complete despatch and to explain how it was obtained, declaring that he would then publish a certified copy of the original and allow the public to judge the matter.

The editor of the National Review now explains that he got the despatch from a civilian who was in Ladysmith at the time and who said there was nothing secret about it. He asserts also that he understands that both Gen. Buller and Gen. White have officially asked permission to publish the authorized version, and he cannot conceive why permission has been withheld.

The same informant, giving an alleged explanation of the fact that there was co-operation between Gen. Buller and Gen. White during the battle of Colenso, says Gen. White was informed that the attack was fixed for Dec. 11, but Gen. Buller commenced the attack Dec. 15, to the dismay of Gen. White, who had not completed his preparations.

LONDON, Oct. 31.—The Morning Leader characterizes the National Review's version of Gen. Buller's despatch to Sir George White as "imaginary and misleading."

TERRIBLE WRECK.

On the Baltimore and Ohio Railway.

Three Men Killed and Ten More Injured, Two of Whom May Die.

WASHINGTON, Pa., Oct. 30.—A wreck occurred today on the Baltimore & Ohio road east of Brady's tunnel, a short distance east of Washington, resulting in the death of three men and the injury of ten more, two of whom may die. It was caused by a head-on collision between an empty freight engine and the west-bound Wheeling accommodation train. The dead are: Michael Hahn of Pibberville, car inspector; James Beegan of Washington, supervisor of the Wheeling division; M. J. Padden of Honey's Point, clerk in the supervisor's office.

The injured: J. A. Spangler of Washington, bridge supervisor, bruised and injured internally; Robert S. Gore, Glenwood, engineer on the passenger train; James P. Fox, Washington, hostler; Charles Ball, Glenwood, conductor of passenger train; Geo. D. Vaughan, clerk, Washington, B. & O. office; M. D. Vaughn, Baltimore & Ohio agent here; Lewis N. Barto, Pittsburg, brakeman on passenger train; F. H. Cunningham, Glenwood, conductor on freight train; John Logue, Hazelwood, fireman on freight train.

J. A. Spangler and F. H. Cunningham are both at the Washington hospital in a precarious condition tonight and their recovery is doubtful. The stories of the cause of the wreck are conflicting, and it will take a coroner's jury to determine who is responsible for it.

OTTAWA, Oct. 30.—There has been a recurrence of smallpox during the past few days thirteen cases having developed since Sunday. Over fifty smallpox patients are in Porter's island hospital.

AN ENORMOUS FORTUNE.

MONTREAL, Oct. 29.—The Herald tonight publishes a story that David Jennings, a Montrealer, has been successful in obtaining from the English government a large quantity of groceries to him through his estate. Jennings is alleged to have cabled his family here that he had been successful. In spite of the assertion, the matter is open to doubt. The amount locked up in the chancery is only about \$30,000,000 in all, and the claim would have been outlawed long ago anyway.
