

THE WEATHER.

Maritime—Moderate southerly to westerly winds; mostly fair and warm, but some local showers at night.

Toronto, Sept. 16.—Reasonably warm weather has prevailed today in Alberta, where maximum temperatures exceeding 80 degrees have been reported in all parts of the Province. Showers have occurred in the Lake Superior district. Elsewhere in Canada the weather has been fine.

The Ouagondy. The Ouagondy, which was towed around to Wellington Slip on Wednesday, will not be offered for sale until certain parts required by the city have been removed.

The Governor Cobb Arrives. The Governor Cobb arrived from Boston, via Maine ports, at 6.30 o'clock last evening with eighty passengers on board. Good weather was reported during the trip.

Investigation Starts Today. Surveyor General Grimmer went to Grand Falls yesterday to hold an investigation into the charges made by Mr. J. P. Tweedie, M.P., at the last session of the Legislature against the officials of the Crown Land Department in Victoria county.

A Five Pound Trout. A large trout, weighing nearly five pounds, is on exhibition in the window of McNeill & Beattie's store on Mill street. The fish was caught by Mr. Caleb Bolyea at Robin Hood Lake, and he is a specimen of the New Brunswick lake variety.

E. D. C. Bazaar Oct. 19. At a largely attended meeting at the Every Day Club last evening it was decided that the bazaar would be held on October 19. It was the former intention of the club to hold it on October 12, but it was found that this date would conflict with the Orange fair.

Fredericton Exhibition the Best Yet. Mr. T. A. Hartt, M. P. P. for Charlotte county, accompanied by his wife, was in the city yesterday on his way to the exhibition, where he attended the display at the fair far surpasses former efforts. He was particularly impressed with the showing of cattle, of which there were so many entered that sixty new stalls had to be provided.

On the Spree. While their parents were scouring the town on Wednesday evening for any sign of their whereabouts and frantically appealed to the police for aid, two little residents of Harding street, Freddie Bedingham and Edward Dooey, were enjoying themselves as only boys can, around the big bonfire in Germain street in honor of the marriage of Mr. W. H. Harrison and Miss Inches. When the tired parents finally gave up the search as useless and returned home after 11 o'clock the wanderers were found both hard asleep.

Open Evening by York L. O. L. York No. 3, L. O. L., were hosts at an enjoyable open meeting in Orange Hall, Germain street, last evening. The following programme was carried out: Selection, by orchestra; song, Miss Hazel Gray; address on the Progress of World Wide Protestantism, Mr. J. N. Harvey; a selection, by orchestra; song, Mr. James Sullivan; address by Mr. J. M. Harrison, grand secretary; song, Mr. R. H. McIntyre; recitation, Mr. George Gordon; recitation, Mrs. Heans; song, Mr. Joseph Hazelwood. Refreshments were served at the close.

A Scene in Union Street. Two young men who were somewhat under the influence of liquor, engaged in a heated argument in Union street last evening which finally ended in a fight. No place would suit the contestants but the middle of the street, where they stripped off their coats and prepared for the fray. Two other men, also somewhat inebriated, acted as seconds. After making several dives and wild swings at each other, the contestants agreed to call it a draw. The incident caused considerable amusement to the passers by.

A Narrow Escape. Mr. Albert Parlee had a narrow escape from serious injury, perhaps death, while at work on the Furness Line steamer Shenandoah at Long Wharf last evening. He was leaning over the edge of the hatch when he suddenly lost his balance and fell. By putting out his hands he managed to grasp the end of a rope, which happened to be hanging there. This stopped his fall and his shouts attracted the attention of the other men who were working. They pulled him back to safety. If he had fallen all the distance into the hold, about forty feet, the result would probably have been fatal.

The Jewish Feast Continued. The observance of the Jewish Feast of Rosh Hashana was continued yesterday. Services were held in the morning at 8 o'clock and again at 7 o'clock in the evening. In the evening Rabbi Amdur preached an eloquent sermon taking for his subject "Life as a Blank Document." The rabbi compared the entry upon the voyage of life to starting a diary or book. The book should be filled with good works, and should not have anything contrary to the law of God contained in it. He exhorted his hearers to have the books which God gave them, clean and have the pages for vice empty. At both services special music was sung by a male quartette composed of members of the synagogue.

Cannot Complete Repairs This Year. Mr. William Murdoch, city engineer, inspected the repair work being done on the water extension, No. 2 section, near Lake Latimer, yesterday afternoon. Speaking with The Standard last evening, Mr. Murdoch said the work was progressing favorably. The repairs on the Western end of No. 2 conduit had been completed some time ago, and work was now under way on the eastern end. About 200 feet of the conduit had been stripped of soil and a number of leaks found which will soon be repaired. Most of the leaks will be stopped by the end of the month, but all the repairs will not be completed this year, as was at first hoped.

DR. BOURQUE HOME FROM INSPECTION OF U. S. SANITARIA

Commissioner Speaks of Trip — Well Satisfied With Government Candidates in Restigouche.

A visitor in the city yesterday was Dr. T. J. Bourque, M. P. P., of Kent county, who has been travelling with the committee of four appointed by the anti-Tuberculosis Commission to inspect sanatoria in outside cities. The party left New Brunswick eight days ago, visiting Montreal, Saranac, New York, Boston, Mass., and Portland, Me. Dr. Bourque said he was particularly impressed with the beauty of the surroundings at the Saranac sanatorium.

The State institution at Rutland was also of a pretentious nature. Here, each patient paid not less than \$4 a week and the government bore the remainder of the cost. In New York the hospital visited accommodated 500 patients and was supported entirely by charitable means. In Boston, buildings were being erected at a cost of \$600,000 to be borne by the city.

Educating the People. Dr. Bourque says that all the money he spent on sanatoria but that considerable expenditure is incurred in educating the people. Literature is distributed and exhibits shown to the public, illustrating the ravages of consumption and the proper means to check the advance of the disease.

Dr. Bourque expressed himself as very well satisfied with the choice of candidates at the Restigouche county convention Wednesday. "Mr. Montgomery is a good man" said Dr. Bourque, "and will bring strength to the party, while Mr. Culligan was always looked upon as a strong candidate. It looks like a sure thing in Restigouche for the Government and if the candidates are placed in the field early in Gloucester, there is also a chance of redeeming that county."

Dr. Bourque left on the 6.40 p. m. train for Harcourt and intended to drive through to Richibucto in order to reach home this morning.

A FINE ADDITION TO AN ALREADY FINE BUSINESS

New Annex of M. R. A., Ltd. Will Be Centre of Attraction Today At Formal Opening.

The attention of passers-by on King street last evening was attracted to the beautiful display of goods in the large show window of Manchester, Robertson and Allison's new Annex. The window was very tastefully decorated with articles of luxury, while the interior was equally attractive, with its numerous electric lights, and was the object of general admiration. Today the window display and formal opening of the new Annex will be the chief centre of attraction down town. By the formal opening of their new Annex this morning, Manchester, Robertson and Allison, Ltd., the largest mercantile house in the Maritime Provinces, have made a splendid addition to their extensive establishment. Year by year the firm have been obliged to increase their accommodations and satisfactory goods, fair prices, courteous attention, honest dealings, and business like methods have resulted in the abbreviation "M. R. A." becoming a household word in lower Canada.

The New Annex. The new Annex is a building of four stories. The first and second floors are used by the retail department and the third and fourth by the wholesale department. They are splendidly lighted by means of large, beautifully finished windows and a large skylight in the interior. The retail departments of the Annex are handsomely fitted with hardwood floors, steel walls and ceilings, painted white, large glass show cases, potted palms and quarter-oak finishings.

The first floor is used as a business expansion department for the main building and is devoted to ribbons, ladies' neck wear, fancy work materials, millinery and hosiery. It is large and roomy and will be able to accommodate many purchasers without crowding. Large archways connect it with the main store and the men's furnishing department. The ladies' and children's white wear and corset department occupies the second floor and is one of the largest of its kind in Canada. It possesses fitting rooms and all the conveniences found in the leading stores of much larger cities.

The 1909 Annex, as it is called, is up to date in every respect, and will doubtless be largely patronized and appreciated by the steadily increasing number of ladies who do their shopping with this well known firm.

GOLF CHAMPIONSHIP WON BY DR. J. M. MAGEE ON LINKS YESTERDAY

Defeated Andrew Jack By 6 Up, 5 to Play—F. A. Peters Captures Mitchell Trophy.

Dr. J. M. Magee by defeating Mr. Andrew Jack on the golf links yesterday afternoon won the men's championship of the St. John Golf Club for the season of 1909-10. The match was one of four rounds and Dr. Magee came out ahead by 5 up and 5 to play.

MUST HONOR SICK MILLIONAIRES LIKE OTHER MEN

Dr. Thomas, Physician to Rockefeller Family, Here on Auto Trip Speaks of Wealthy Patients.

"Millionaires when they get sick are much like other men and have to be humored in the same fashion," was the remark Dr. R. N. Thomas, physician to the Rockefeller family, who arrived in St. John on an auto trip last evening, made to a Standard reporter who interviewed him at the Royal. He has a large metropolitan practice in New York and numbers among his patients men whose aggregate wealth would amount to an enormous sum.

Dr. Thomas is carrying out his usual custom of spending his vacation on a motoring trip, accompanied by his wife and little son. They came here by way of St. George and with the exception of a bit of road work about the town of St. George, Dr. Thomas reports the roads in excellent condition and fast time was made. On his return, he may go by way of Fredericton and McAdam.

When asked concerning his connection with the Rockefeller family, Dr. Thomas said that he had been present at the birth of John D. Rockefeller's three grand children, children of Mr. and Mrs. John D. Rockefeller, Jr. The youngest was born last summer at Bar Harbor, Me., where the family are at present spending the summer. The oldest boy in the family resembles his grandfather and is called John D. II. Dr. Thomas said the family are quiet and were much devoted to each other.

Last evening, the New York physician received a telegram from a wealthy New York magnate, asking for medical advice, but fortunately Dr. Thomas will not have to curtail his trip in order to respond. The party may cross to Digby this morning if the day proves fine.

THE HAVOC THAT WAS WROUGHT BY A BANANA PEEL

Two Gentlemen and One Lady Sat Down With Surprising Suddenness in Mill Street Last Evening.

An insignificant banana peel was the cause of the downfall of three of St. John's citizens last evening. The peel in question was lying at the corner of Mill and Union streets, and right in the track of pedestrians. The first to fall was a well dressed gentleman, who was hurrying along intent on catching a car, which was passing. He slipped on the fruit-cover and landed with a thump on his back. Needless to say he missed the car.

The next was a gentleman, who appeared to be somewhat under the weather. He slipped on the peel and fell on his back. The third was a young lady who had her arms full of parcels. When she fell one of the parcels fell on her head, and landed on the roadway. Judging by the sound, it must have contained crockery of some description. At this point in the proceedings, a gentleman who was passing kicked the offending banana peel into the road, much to the chagrin of a number of small boys who were enjoying the fun.

DIRECTORS WELL SATISFIED WITH INSPECTION TRIP

Calvin Austin and Other Officers of Eastern S. S. Co., Arrived Yesterday—Leave For Digby Today.

The Governor Cobb on the trip from Boston yesterday had on board a party of five officers and directors of the Eastern Steamship Company, including Mr. Calvin Austin, president; Mr. C. W. Barrow, Mr. G. L. Stone, Mr. E. N. F. Poes, and Mr. H. Raymond, who are now in St. John on a tour of inspection.

Speaking to a Standard reporter last evening, one of the directors said that all matters in connection with the business of the company had been found to be in a very satisfactory condition. This season the tourist travel had been heavy, and the placing of a third steamer on the route had been justified. The business of the company was confined largely, he said, to the St. John-Boston traffic and to the Maine coast service.

The distinguished party were met at the wharf by Mr. LeBaron Thompson, travelling auditor for the company, and during the evening were well entertained. After an auto ride with Mr. Paul R. Hansen, the party were registered at the Union Club. This morning a visit will be made to Digby, N. S.

This is the first time Dr. Magee has won the championship. For the last two years, the title has been held by Mr. Andrew Jack, of the Union Club. The victory a plate bearing Dr. Magee's name and the year will be set in the large table in the dining room of the club house in pursuance of the usual custom. Mr. F. A. Peters by making the best score in three out of four handicap matches, which he played against Magee, has won the Mitchell trophy.

Stuyler's MOIR'S IN SEALED PACKAGES. IN BULK. ALWAYS FRESH.

THE DRUG STORE, 100 KING STREET, Chas. R. Wasson.

THE FALL STYLES ARE PLEASING Especially to men who admire "distinctive" modes—something just a little out of the ordinary, and strictly correct. Our Fall suits possess this quality of "distinction." They are specially designed by the high-salaried designers of the Twentieth Century Company, who spare no expense to make their product perfect. Quality of fabric, linings, trimmings—excellence of tailoring—EVERYTHING about these superb suits shows the result of the infinite pains taken by the makers. Can we fit you? Certainly, for 20th Century suits are fitted to LIVE MODELS in the making. And the fit is permanent, for the honest inside work prevents shrinking, sagging or stretching at any point. Suits, \$10 to \$26. Overcoats, \$10 to \$27. GILMOUR'S, 68 KING STREET TAILORING AND CLOTHING.

Friday and Saturday BARGAINS SHAKER FLANNELS at 6 cts. yd., regular 8ct. SHAKER FLANNELS at 7 cts. yd., regular 9ct.; in all colors, Grey, Pink, Blues and Naturals.
