

DRIVING HIM TO THE GRAVE

"Fruit-a-lives" Saved my Life.

Niagara Falls, Ont., July 26th, 1911.
"For thirteen years, I was a terrible sufferer from the tortures of Sick Headache, indigestion, constipation and vomiting. I could not retain much food, and this, together with the pain and headaches, was driving me to the grave."

Then I used "Fruit-a-lives" and almost at once I got relief.
"Fruit-a-lives" stopped the vomiting, relieved the constipation, toned up the stomach, and gave me the first relief in years. I feel that I owe my life to "Fruit-a-lives" and for the sake of other victims of indigestion and headaches, I will allow this statement to be published."

HARRY DICKINSON.
"Fruit-a-lives" is sold by all dealers at 10c a box, 6 for \$2.50, retail size, 25c, or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

SHOOT HIMSELF IN A WEST END HOTEL

Englishman, Recent Arrival in City, Suicides in Western House—No Inquest will be Held.

W. H. Wiles, an Englishman, killed himself in the Western House, on Rodney street, West End, yesterday by shooting himself through the temple with a revolver.

Wiles was a middle aged man, who leaves a family in England. He had been working in Derby, Northumberland county, until a couple of months ago, when he came to this city. During the exhibition he had a booth in the building where he sold birch bark articles, and is said to have done considerable business.

While at the exhibition it was noticed that the man had been acting rather strangely, but nothing serious was thought of it. He had been boarding at the Western House for some time, and it is stated that he had become temporarily insane which was the real cause of his taking his life.

He was about the hotel on Sunday conversing with the other boarders, and appeared to be in fairly good spirits. Yesterday morning he was called about 9 o'clock and answered from his room that he would get up soon, but he did not do so.

At 1 o'clock yesterday afternoon as Wiles did not put in an appearance, there was another call made to his room, but he did not answer repeated knocks at his door. A carpenter was working on the house, and on looking into the bedroom window he saw the lifeless body lying across the bed. The door was opened, and it was then discovered that the man had shot himself through the head.

Coroner F. L. Kenney was notified and after viewing the remains, gave permission for the removal of the body to Undertaker Beatty's rooms.

In the room near the body was found the following note:

"May God have mercy on my soul. I can't bear the agony of this place any longer. Bless and take care of my dear children and may their life be far smoother than my past has been. Good-bye to all."

(Signed) W. H. WILES.
P. S.: No person is to blame for this rash act but myself."

Coroner Kenney has decided that an inquest is not necessary.

TOOK NEGROES TO BRIARTOWN; THREE FARMERS WERE SHOT

Colored Folk Never Allowed to Remain in Town—Violation of Precedent May Cost Men Their Lives.

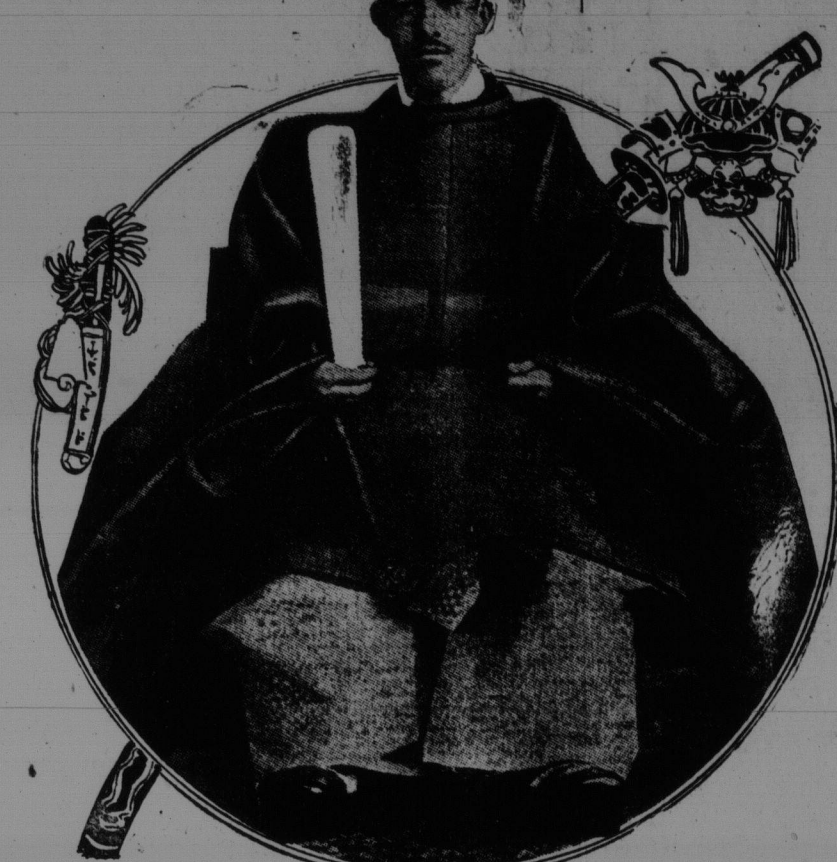

Muscogee, Okla., Sept. 23.—Because they imported negro cotton pickers to Briartown, three farmers have been shot. Sam Robinson, W. A. Larimer and John Hilton, were shot last night. It is said Robinson and Larimer probably will die. More trouble is feared and a large force of deputies has been sent to Briartown.

It is reported that citizens organized to drive the newly imported negroes out of the section and when some of them went to the place of the farmers, found them defending the blacks. Then the shooting began.

NEW EMPEROR OF JAPAN IN HIS ROYAL GARB

This is the first photo of young Harunomiya, Emperor of Japan, in the native royal costume, a fearful and wonderful garb worn by his ancestors for centuries. The new emperor had his picture taken in it to please those of his subjects who still

love the Japanese dress. Usually the mikado wears European clothes. Harunomiya has not the fear of the camera his late father had for the latter never had his photograph taken—all prints in existence being made from an oil painting.

HUNTSMEN FIND GAME PLENTIFUL

Moose, Deer and Partridge More Numerous than Last Year—Weather Has Been Favorable So Far.

The fall shooting season is on in earnest and it is estimated that the number of hunters who are tramping the woods this season, in search of game is larger than in previous years. Those who have spent the last couple of weeks in the woods report some excellent deer and moose being shot. Partridge are reported in abundance and with the excellent weather for hunting the sport is being thoroughly enjoyed. So far there have been some nice moose heads received in the city, but it is expected that the real large ones will soon put in an appearance.

One hunter who was out the latter part of last week was only a short distance from the city for a couple of days when he returned with a fine deer. He says that there are plenty of deer near St. John and in some places they may be seen in the fields grazing with the cattle.

WIDE INTEREST IN THE PREMIER'S MONTREAL SPEECH

British Newspapers Publish Lengthy Accounts of Premier's Address at Banquet on Saturday.

London, Sept. 23.—Premier Borden's speech at Montreal has aroused considerable interest, the newspapers are publishing long dispatches embodying its principal features.

The Pall Mall Gazette says that nothing is more significant than the fact that those demanding that the naval issue should be divorced from party politics are Dr. MacDonald of the Globe and Mr. Deane of the Manitoba Free Press, two leading organs of opinion.

Hon. Clifford Sifton sailed for Canada today by the St. Louis.

POTATO SITUATION.

The Montreal Star has the following regarding the potato situation at Montreal:

"Potatoes around Montreal seem to be undergoing a universal degeneration. Local conditions at the present time are such as to cause the local dealers extreme uneasiness. They state that the potato grown on the island of Montreal and in the immediate vicinity is practically ruined from the market. Their best customers, such as hotels and steamers, refuse to buy it owing to its diseased condition."

"The canker infection is held wholly accountable for the condition of the crops. The potato canker is a virulent fungus disease and has done tremendous destruction to the crops throughout Europe in the past few years. It has done so much harm in Europe that the Dominion Government deem it necessary to bar the importation of European potatoes to Canada."

CHINESE POLICE CHIEF OBJECTS TO BEING DISMISSED

Threatens to Destroy City of Foochow and Large Force is Despatched from Peking to Remove Him.

Washington, Sept. 23.—The American consul at Foochow, China, reports the situation as extremely critical. It is reported that the Peking government is sending a large force to remove from office the chief of police at Foochow, who defying the authority of the central government threatens to destroy the city in case he is attacked. The consul reports unrest in the country districts around Foochow.

VICTIM OF ACCIDENT IN FREDERICTON ON SATURDAY IS DEAD

Special to The Standard.
Fredericton, Sept. 23.—Clarence Grace, the young son of William Grace died this afternoon as the result of the accident on Saturday. He had been a cripple since he was a small boy and broke his leg in a fall while playing on Saturday.

A benefit entertainment for the Fredericton Baseball Club at the Opera House tonight was largely patronized. Pictures of the members of the Champion Pets were thrown upon the canvas and the crowd applauded their favorites with much enthusiasm.

ANOTHER ANTI-HOME RULE DEMONSTRATION

Belfast, Sept. 23.—The Ulster campaign against Home Rule was continuing tonight by a demonstration at Balmoney. Frederick E. Smith, Unionist M. P. for the Walton District of Liverpool, and the Right Hon. J. H. M. Campbell, M. P. for Dublin University and ex-Solicitor General for Ireland, were the speakers. The customary anti-Home Rule resolutions were carried with enthusiasm. Outside the restaurant Hall many thousands who had not been able to gain admission held a meeting around a huge bonfire.

Ottawa, Sept. 23.—Sir George Doughty, M. P. for Grimsby, England, is in Ottawa to interview Hon. J. D. Hazen, minister of marine, in behalf of a scheme to establish a colony of old country fishermen on the Pacific coast. The idea was originated by Earl Grey, former governor general of Canada, the intention being to have the colony form the nucleus of a naval reserve as well as following the fishing industry.

Paris, Sept. 23.—The eighteen balloons which started yesterday in a competition for the Aero Club grand prize have all landed. The Aero Club announces that the Escapee is the probable winner of the prize. The Escapee descended in Pinetere, Brittany, making a safe landing near the sea.

Ontario's License Revenue.
Toronto, Sept. 23.—Ontario's revenue last year from the sale of licenses for motor vehicles totalled \$64,812.22. Double the sum received for 1910, which was \$32,406.

CANADIAN Y. M. C. A. TO BE INDEPENDENT

General Secretary of National Council Says Organization in Dominion will be Self-governing Next Year.

Charles W. Bishop, general secretary of the National Council of Young Men's Christian Associations of Canada, arrived in the city last evening and when seen by a Standard representative said that the work was in a flourishing condition and that good results were being obtained.

When asked of the new national council, Mr. Bishop said that last June it was decided to partially separate the Canadian associations from the international association. This separation goes into full effect on the first of January, 1913, thus making the Canadian association a self governing body.

At the meeting held at Toronto at which this step was decided upon, Mr. Bishop was elected president of the new council, and Mr. Hunter White being the representative in St. John.

Mr. Bishop came to the city from Montreal last evening where he has been looking over the association and will spend the next few days getting in touch with the existing conditions here. Although this is his first trip east from Toronto, Mr. Bishop is very enthusiastic over the work from which he expects excellent results.

Health and Beauty Advice

BY MRS. MAE MARTIN.

R. M. S.: Sallow complexion, liver blotches, pimples and other eruptions of the skin indicate the need of a good blood-tonic and liver-regulator. Dissolve one ounce of karnide in one-half pint of alcohol (not whiskey), add one-half cup of sugar and enough hot water to make a full quart. Take one tablespoonful five minutes before each meal. Karnide purifies the blood, arouses the liver, cleans the skin, restores lost appetite and tends to strengthen and build up the entire system.

Mrs. D.: Those ugly hairs can be quickly banished from your face with a paste made with powdered delatone and water. This paste should remain on the hairy surface two or three minutes, then rub off and wash the skin and every trace of hair has vanished. The delatone treatment never fails and leaves the skin free from spot or blemish.

Annette: The affliction of over-fatness is to be deplored at any age, but it is a positive calamity to a young and pretty woman to become too fat in these days when fashion decrees the slender figure the only correct one. You can reduce your weight almost at the rate of a pound a day until you reach normal if you will dissolve four ounces of parrotin in 1-1/2 pints of hot water and take a tablespoonful before each meal. You can buy parrotin from any first-class druggist. It is a harmless, fat-dissolver, and those who take it marvel at its wonderful effect. It makes one look and feel younger, brighter, more buoyant and energetic.

Fannie R.: To be sure a face-lotion is far better than face powder, but you will have to be careful what you use as most "liquid face powders" contain injurious ingredients that are likely to ruin your complexion. Try this inexpensive one which is all right: Dissolve four ounces of epurmax in a half-pint of witch hazel or hot water and add two teaspoonfuls glycerine. Rub this on your face, neck and arms, and it will give your skin a very pleasing, delicate tone. This lotion does not show or rub off like powder and will remove that shiny, sallow look from your skin. This preparation is a wonderful skin-beautifier and I find it excellent for rough, red or sallow skins, freckles and skin-pimples.

Mrs. David O.: The only reason why many hair and scalp-specialists advise against frequent shampooing is the danger that comes through the use of soap and inferior shampoos which contain "free" alkali or other ingredients injurious to the hair. If your hair is thin, very dry or oily and looks so dull, "stringy" and unkempt

a few days after shampooing, try these: Dissolve one ounce of canthar in a cup of hot water, then dissolve in a cup of clear water. You can use this shampooing often as you like, as it will benefit your hair and scalp wonderfully. It will relieve that itching, burning, stinging, and itching which is so annoying. It will make your hair beautiful, fluffy and appear twice as thick. This shampoo dries quickly without any danger of streaking or discoloration.

Mrs. H. L.: If you only knew what you have been smearing on your face, you would never use them again, as they are really harmful to the skin. Anything but a greaseless cream if you don't want hair on your face. At a small expense you can prepare an excellent complexion cream, jelly or stirring together and allowing to stand over night in a glass jar. One-half pint cold water. Use this regularly and it will clear up your complexion wonderfully by removing all dirt and oil. It will also remove quickly those blackheads and other effects of hot weather such as freckles, tan and roughness of the skin of which you speak. This is the only reliable cream I have ever found for removing wrinkles without leaving the skin rough and flabby after massaging and for reducing the size of large, dirt-collecting pores.

Victoria: Your scalp needs a good, stimulating quinine hair-tonic to remove the dandruff, stop irritation and falling hair. Get from any drug store one-half pint alcohol (not whiskey), and one ounce quinine and mix it with one-half pint water and you will have a much better tonic than any of those ready-prepared tonics you have been buying. Brush your hair daily and twice a week apply this tonic to the scalp, rubbing it in gently. This will do wonders for your dull, lifeless falling hair, and put your scalp in a healthy condition. This tonic will make your hair soft, silky and lustrous. Keep the scalp clean by frequent shampooing with castile soap and you will not have further trouble with your hair.

Enid S.: Your headaches and generally despondent feeling very likely come from your over-fatigued eyes. You should attend to the matter immediately or you may have to wear glasses permanently. Get an ounce of crystaline and dissolve it in a pint of water. Put a few drops in each eye two or three times a day and I am sure it will strengthen your eyes wonderfully and remove your eye troubles generally. I find this a splendid remedy. It does not smart the eyes and is fine for dry, tired, sore eyes that have that over-worked feeling.

POSILAM STOPS ALL ITCHING AT ONCE

Removes or any skin affection treated with Posilam immediately becomes responsive. Itching stops and the trouble grows less annoying, less extensive, until it finally disappears.

All skin diseases including acne, tetter, psoriasis, piles, skin-scabs, salt rheum, barber's and all other forms of itch are quickly eradicated by Posilam. Minor troubles, such as pimples, red and inflamed noses, rashes, dandruff, complexion blemishes, etc., respond so readily that overnight treatment is often sufficient.

POSILAM SOAP, used daily for toilet and bath, will keep the skin in healthy condition, and improve its color and texture. It offers the healing medication of Posilam in a form particularly beneficial for tender skin.

Chas. R. Wason, Clinton Brown, P. W. Monroe and all druggists sell Posilam (price, 50 cents) and Posilam Soap (price, 25 cents). For free samples, write to the Emergency Laboratories, 32 West 20th Street, New York City.

System Service

The Burroughs is the only organization which maintains a regular department of System Research and Service for the purpose of finding the right way to get figures and facts, and then furnishes the machinery to handle them at a price for the machine alone.

Fifteen minutes talking to our representative will show you a lot of new things—Free of course.
