THE D. A. JONES CO., Ld., BEETON, ONT

We are the owners of the patent on this hive in Canada, and we are in a position to make and sell the hive gotten up in any shape to suit the purchaser-either in flat or nailed up.

A complete working hive consists of bottomstand, bottom-board, entrance-blocks, two broodcases, one honey-board, two surplus cases (in good seasons we often use three surplus cases on the hive at one time) and cover. So that if you order these hives in the flat this is just what will be sent you.

Sample hives we make with the broodframes wired and the surplus cases supplied with fifty-six  $4\frac{1}{4} \times 4\frac{1}{4}$  7 to the foot sections. These are designed for testing the complete working hive.

In quoting prices of brood-cases and surplus cases, the set-screws, brood-frames and wide frames with their tin separators are always included, both in flat and made up. We quote the prices of sample hives made up, and of the various parts made up, so that should there be any should there be any portions of the hive you not wish you are not wish you can easily ascertain what deductions to make tions to make. Sample hive, made up...... Add ten per cent if you wish the hive painted

### PRICES OF PARTS.

Bottom-boards..... Entrance blocks (two)..... Brood case, invertible, including set screws and frames wired when made up or punched for wiring in flat..... 60 Honey Board (wooden) slotted, invert-Honey board, metal and wood, invertible 30 Surplus case, invertible, including wide frames and separators..... # Circular. Heddon's

NOW READY.

Canadians who wish my circular to know about the mental the company, should send to the D. A. JONES company, should send to the D. A. JONES theirs, as I have sold the patent for all the American self tish possessions to them, and have no more right to the hive in their territory than have they to sell them to the United States.

Address.

JAMES HEDDON DOWAGIAC, MICE
