Sir,

As it is necessary to put up a house  
for Inst. McIntosh and the timber on the reserve  
is of a poor quality-

I beg to suggest that a suit-  
able frame house be erected which I think  
could be put up complete for \$500.-

We have a store house nearly  
finished and purpose putting up stable  
and implement house, These buildings  
will fully take up the time before the  
cold weather set in.-

I have the honor to be  
Sir-

Your Obedt Servant.

The Hon.  
The Indian Commissioner  
Regina.-
