

ADDITIONAL NOTE - 2

Substantial developments of an important nature in all three branches of the service are projected on Vancouver Island.

I feel certain that my friends on Vancouver Island who, living as they do on Canada's western frontier take a keen interest in defence matters, will improve the program which has been prepared in the Department during the past nine months.

It is for the purpose of making first hand observation on certain details of this program that I am here today. Details of the program will, of course, be submitted to Parliament at the coming session.
