

Ottawa, November 9, 1915.

Sir,-

In a recent report on the Peigan Church of England Boarding School, Inspector J. A. Markle states that five girls and two boys are under treatment in the hospital near that institution. He also states that some of these patients had been under treatment for a long period.

Kindly report to the Department from what complaint these pupils are suffering, how long you consider it will be before they recover and also if you consider they should be discharged from the school.

Your obedient servant

Assistant Deputy and Secretary
