

A. That is a point of land butting into what is called the big lake. That is a lake about 10 miles wide and about 15 miles in length.

Q. Is any use made of that reserve?

A. It is just a camping ground.

Q. Is there any fishing there?

A. Not much if any.

Q. Any houses.

A. One house and a kind of stable

Q. Anything planted there?

A. Not that I know of.

Q. Any trapping done there

A. No.

Q. No. 6. AIN, 164 acres at the mouth of the AIN River. Have you been there?

A. Yes.

Q. What is the quality of the land.

A. There is quite a lot of agricultural land there.

THE CHAIRMAN: Of what character.

A. Fairly good.

MR. YOUNG: What is the soil like.

A. It is a deposit brought in by the Sea and the River.

Q. Is it not so sandy then

A. Not so sandy as this one.

Q. Any gravel?

A. I think so

Q. Is it timbered

A. There is some timber on both sides of the River

Q. What portion of it is timbered?

A. I should think about 100 acres.

Q. And is there as much as 100 acres of good arable land?

A. Yes if cleared?

Q. What use is made of this Reserve?

A. It is a fishing ground.

Q. Anything planted there?

A. Some potatoes.

THE CHAIRMAN: These houses you speak of on these other reserves are only for temporary occupation?
