#### **FINE POLICY**

Chairman (Smith, of License Board Sends for a Splendid Inaugural.

"Not the slightest objection," was the resones "in fact I am sather

license business?"

"Not the slightest objection," was the response, "in fact. I am rather pleased to put myself on record. In the first place, politics will cut no figure. If a licensee lives up to the law he is sure of his license; if he wjolates the law, be he Liberal or Conservative, he must suffer the consequences. Justice will be meted out to all alike. Another thing I wish to emphasize is this: The sword will not be dangling over the heads of hotel keepers to whip them into line to vote and work against their convictions. I believe a man's franchise is too sacred to be made a football of. Another thing to be considered is this: If a hotel keeper is living up to the law and is sure of his license he will not be atraid to spend money to improve his property, thereby benefitting himself and the public. I also thank that every licensee should be provided with the Liquor License Act in its entirety, so that they could make themselves conversant with all the laws governing that they could make themselves conversant with all the laws governing their business.
"Now, Mir. Soribe, you will have to

excuse me from going into this mat ter any further, as my time is worth at least a dollar a minute, and I do not wish to bankrupt The Planet. So long. Keep your eye open and you will see better hotels and the law lived up to."
