IMPLEMENTS.

The Little Giant Thresher. Warranted. \$100 Cash. \$105 on time, with 7 per cent. interest. The same Complete, with improved horse-power and band wheel, \$190.

This Machine cannot throw Grain over, cleans well and threshes well. We have not heard a single complaint from any one that has been supplied by us. We supply from reliable makers only. It is just the Machine good farmers require for their own use. They are cheap and efficient. They are set on wheels, and can be moved through the country.

McIntosh's Horse Power Drain Tile Machine, \$200.

Increased in power and generally improved. It will make more tiles than any other Machine in Canada.

Carter's Patent Ditching Machine, Price

This Machine is warranted to do its work satisfactorily in sand, or hardest clay, gravelly, and even on stony and rocky land. It will throw out stones as large as a man's head, and roll over rocks uninjured. Every one approves of its working who has ever yet given it a trial.

Sells' Cider Mills. Single Geared, \$30; Double Geared, \$35. It took the First Prize at the Provincial Exhibitions of 1866, '67, '68, '69; also the First Prize at the U.S. International Exhibition, and a Diploma at the New England Fair, 1869.

These Machines first grind the apples, then mash them to a perfect pulp, and then press the pulp. Do not waste your apples, but make cider and vinegar. One person made \$90 per month by purchasing apples from farmers that had no mill. They can be worked either by hand or horse power.

Walmsley's Patent Potato Digger, \$16.

Grant's Patent Horse Hay Fork, \$12. First Prize.

Some parties that purchased other kinds of Hay Forks that have been carried to their door, have laid them aside and purchased from our stock.

Frazer's Hay and Grain Car, \$9. The best made.

This is the most complete attachment we have seen for taking hay in or out of a mow.

Each of the above named Implements are giving entire satisfaction to all that we have supplied with them. We believe them to be the best procurable in the Dominion for their several uses. There are other kinds, and some imitations; and even some manufacturers are making inferior implements. We supply any of the above Implements, and the manufacturers of each will guarantee their efficiency. We have not had a single complaint from any one using either of the above Implements.

Steer's Adjustable Patent Gate, \$4. These Gates are the most easily constructed we have yet seen, are strong, cheap and efficient, can be made for \$2, and can be raised to open over a snow drift, or to allow sheep and hogs to pass under. They merely require to be seen, to be appreciated.

Worthen's Patent Hand Loom, \$100. A child can work it.

Slade's Patent Hand Loom, \$41.

Lamb's Knitting Machine, \$65.

Send your orders, in early. Do not wait, as some did last year, and were disappointed because they could not be immediately supplied. State at what time you wish the Implement shipped. You should always allow time enough, as often manufacturers are sold completely out, and orders have to remain until they can be made. It will cost you no more to order your implements early.
