Cuts the Fuel Costs

Economical tractor operation demands the full utilization of every ounce of power. By keeping the cylinder walls glassy smooth, piston rings fitting snug, all the power behind the pistons, Imperial Polarine conserves the power and lowers fuel consumption.

Imperial Polarine holds its body at highest engine heat and burns clean. It leaves no grit or heavy carbon deposit to score the cylinder walls. Keeps a protecting oil film between all moving parts. Reduces the friction load to the minimum.

Standardize on Imperial Polarine and insure perfect lubrication for your tractor. Imperial Polarine (*light medium body*) Imperial Polarine Heavy (*medium heavy body*) Imperial Polarine A (*extra heavy body*). For transmission and differential lubrication, use Imperial Polarine Oils and Greases.

Sold in one and four gallon sealed cans, half-barrels and barrels, also in 12½ gallon steel drums, by reliable dealers everywhere.

The correct grade of Imperial Polarine for your motor car and motor truck is shown by the Imperial Polarine Chart of Recommendations which is on display wherever Imperial Polarine is sold. There is an Imperial Lubricant for every farm lubricating requirement.

The Imperial Oil man will be glad to advise you on any lubrication problem.

DE LAVAL CREAM SEPARATORS

**MAKE FALL AND WINTER
DAIRYING MORE PROFITABLE**
There is surely no reason to delay the purchase of a separator or to continue the use of an inferior one. A De Laval Machine will save its cost by spring, and may be bought on such liberal terms, if desired, as to actually pay for itself meanwhile.
