Iceland (16734) is a bay twelve-year-old stallion, weighing 2,000 pounds, sired by the noted horse, Hecla, dam Wallflower, by Reality. In England, Iceland sired very many winners at the leading shows; in fact, was considered one of their best sires, being for several years at the head of the stud of the Right Honorable Earl Spencer. SCOTT BROS'. SHORTHORNS.

A visit to the noted stock farms of Scott Bros., at Highgate, Ont., on the Pere Marquette and Michigan Central Railroads, west of St. Thomas, by lovers and admirers of the very thick, gooddoing kind of Shorthorn cattle, will be a revelation to those not acquainted with the high-class character and good-doing qualities of this herd. In spite of the dryness of the pasturage and shortness About two miles from the Grand of summer feed, these cattle are in extra good condition, a something that should be well considered by any one thinking of purchasing foundation stock for a future Shorthorn herd. On blood lines the herd is made up of a number of representatives of that grand old, easilyconditioned strain, the Miss Symes, a number of others being of the equally good strain, the Lady Chesterfields. Later additions are of the Bessie, Missie, Jealousy, Pansy Blossom and Cloris tribes, among which is the big, well-balanced cow, Imp. Cloris 4th, by Sir James. This cow is a phenomena is a one-year-old bull, out of her, and tenint (imp.). He is a very thick, low-Bessie, a Bessie, by Rustic Chief (imp.), Imp. Jessie.
