Bad looking races are passed over, because an investigation would mean a scandal, and it is feared that a scandal would kill the game in Toronto, and for that matter in Canada.

It is not scandals that kill racing or anything else. It is the ignoring of conditions that produce scandals that will hurt the turf, and these conditions have been persistently ignored. Then again the sport has had the ill-luck to be mixed up with a number of other questions, such as liquor traffic and the gambling element of the city. It now appears that the Jockey Club has for years been violating the license act. It is argued that taken together these facts show bad luck in identifying the running turf with an industry concerning which the public is divided, and on which many thousands of sport-loving citizens look with disapproval.

## SALE OF HOLSTEIN CATTLE IN ONTARIO.

The consignment sale at Brockville, on May 24th, of Holstein-Friesian cattle from the well-known herd of G. A. Gilroy of Glen Buell, and G. H. Manhard of Manhard, Ont., drew a large attendance of dairy farmers and breeders, principally from Quebec and Eastern Ontario, and while no sensational prices were realized, the sale was regarded as quite successful. Col. B. V. Kelly, of Syracuse, officiated as auctioneer, and made a good impression, keeping up the interest from start to finish, and disposing of the whole consignment of thirty-five head in short order, at an average price of \$150. Following is the sale list, excepting a few young calves, sold for an average of about \$40 each.

## TO THE IMPORTER OF PIGS.

The well-known breeder of high-class Yorkshires, D. C. Platt, gives the following very pertinent advice to those importing hogs, the advice being of especial value to beginners.

"When a pig is received by express, remember that he is tired from a long and exciting journey, during which he has been a close prisoner, and frightened to death by the strange appearance of strange people, strange words and sounds. He probably feels half-starved and as thirsty as he is hungry. Give him a drink of water and if he is weak, dash a little water over him at intervals. Take him home as quietly as possible, and if your wagon has no springs, put some hay in the bottom to stop the jolting. When you get home give him a quiet water and very light feed, and in a few hours repeat same feed and exercise till hog has filled out and is ready for full meal. It is easy to over-feed a pig for weeks. Keep him hungry and he will know his capacity, and then feed him."
