

TO SAVE THE DROWNING LEADING MARKETS SEARCH FOR THE VICTIMS

Surgeon Advocates Cutting Open the Chest and Working the Heart by Hand.

A despatch from Hartford, Conn., says: It is believed by Dr. D. F. Sullivan, who, while operating on Nuncio C. Chial at St. Francis' Hospital on Sunday, twice saved his patient from death by gently grasping the heart and squeezing it in time with its normal pulsations until it beat again of its own accord, that many lives might be saved by this method of artificial respiration. To all appearances the man was dead twice, and yet he lived again when the

heart was squeezed, sending the blood coursing through the arteries. Dr. Sullivan thinks that if a person could be operated upon immediately after being taken from the water in many drowning cases life might be conserved. He advocates opening the body and removing the ribs until the heart is visible and is accessible, in order that the fingers may be inserted to handle it. In many accidents life still lingers long after the person seems to have ceased to breathe.

TWO LADS DROWNED.

Their Canoe Caught in a Current in the Rideau River.

A despatch from Ottawa says: Chas. P. Gamble, aged 18, a junior reporter of the Ottawa Citizen, and Aubrey Monk, aged 11, both residents of Ottawa, South, were drowned at Black Rapids, on the Rideau River on Sunday morning while on their way home from a fishing trip. Two other lads, Geo. Monk, aged 17, and Addis Lewis, aged 14, composed the party which started out on Saturday afternoon on an expedition after musk-nong. They had good sport and tented for the night above the rapids. After fishing for a while on Sunday morning they packed up and started for home. Lewis, who had a presentiment that something was going to happen, would not enter the canoe, but started to walk home. The other three lads paddled down stream, intending to portage round the rapids, but their canoe was caught in the swift water and carried over the weir adjacent to the Black Rapids lock, a drop of about 13 feet. Geo. Monk swam to shore, but Gamble and the younger Monk were, it is thought, hurled against the heavy timbers and drowned. The bodies have been recovered.

OIL FUEL FOR THE NAVY.

British Experts Will Look For it in Canada.

A despatch from New York says: On the steamship St. Louis, which arrived from Southampton on Sunday were Major J. D. Graham, formerly of the British army, and Mr. J. D. Henry, an English oil expert, who are going to Canada to ascertain their capability of furnishing fuel for the British navy. "The British Admiralty," said Major Graham, "has used a great deal of American oil from the Texas fields, transporting it in its own tank steamers, and its marine experts, believing that oil is to be the naval fuel of the future, have determined to locate every supply that can be found in the British colonies. Our idea in seeking for our own supplies under our own control is the possibility that if war were to break out we might be declared contraband of war, and Great Britain's navy, without a supply of the new fuel controlled at home, would be in a serious plight."

TORNADO DESTROYS TOWN.

Number of Persons are Reported Killed in Louisiana.

A despatch from Atlanta, Georgia, says: According to information received in this city a tornado struck parts of Louisiana on Wednesday, causing loss of life in Gilliam, Oil City and Balinger. Telegraphic communication is interrupted, but reports say that the storm started north of Shreveport, swept along to Little Rock, Texas, and is central over Texas. It is reported that Gilliam, Louisiana, a town of 200 inhabitants, is wiped out and that a number of lives have been lost. Oil City is also reported destroyed with a loss of life, and a number of persons injured. Balinger, La., is reported seriously damaged, with three persons killed and ten injured.

PRISONERS SLAUGHTERED

Desperate Attempt to Break Out of a Russian Jail Frustrated.

A despatch from Yekaterinoslav, Russia, says: The attempt made on Tuesday by prisoners to break out of the Government jail here after making a breach in the wall of the guardroom with a bomb was a complete failure, but it brought about a horrible scene of slaughter in and around the jail building. Twenty-eight of the prisoners were shot to death by the guard, and another of them has since died of his wounds. Thirty others were wounded, and it is expected that several of these will succumb. As soon as the bomb was thrown one of the detachments of prisoners charged the guards in the court room and attempted to climb the wall. Twelve of these men were killed instantly, while others were wounded. At the

same time a second body of prisoners rushed into the kitchen and seizing knives and other weapons attempted to cut their way to liberty. They were surrounded and killed to a man by the soldiers, who were hastily summoned by the prison authorities. The explosion threw the whole prison into a state of panic. The inmates who took no part in the plot gathered in the windows overlooking the courtyard. They were ordered to draw back, but refused, whereupon the guards fired volleys into the open windows. Two prisoners were shot down while attempting to escape over the roof of the building. So far as is known, not one succeeded in getting away. The chief warden of the prison is among the wounded.

BREADSTUFFS.

Toronto, May 19.—Manitoba Wheat—No. 1 northern, \$1.19; No. 2, \$1.15; No. 3, \$1.10; Georgian Bay ports. Ontario Wheat—No. 2 white, 96c, outside; No. 2 red, 96c outside; No. 2 mixed, 96c; goose, 91c. Corn—No. 3 yellow, 78c to 79c, Toronto freight; No. 3 mixed, 3c less. Flour—Manitoba patents, special brands, \$6; seconds, \$5.40; strong bakers', \$5.30; winter wheat patents, \$3.55. Barley—No. 2, 55c; holders ask 60c. Peas—No. 2, 92c to 94c, outside. CATTLE MARKET.

Toronto, May 19.—No material change was noticeable in the live stock situation at the City Cattle Market. The trade in the commoner grades was, if anything, a trifle slower, as a large proportion of the offerings were of this class. Only a few cattle suitable for export were on sale, and these were not of any very fancy quality. The highest price paid was around \$6. Export bulls brought from \$4.50 to \$5. Good cattle for butchering are in demand, and bring as good prices as export cattle. Cows and bulls are steady. Very few stockers and feeders are being marketed now, as most of the farmers are able to put them on the grass. A load of short-keep feeders is to go to pasture for finishing up sold as high as \$5.65. There is a steady demand for good milk cows, which will fetch from \$40 to \$60. The heavy run of calves has caused a break of half a cent in the price, and the market for them was very slow. Sheep and lambs are firm, and the best

Work Is Continuing on the Laporte Murder Farm.

A despatch from Laporte, Indiana, says: The Guinness death farm on Thursday gave up more corroborative evidence as to the extent of the tragedies there. Two more watches were found in the debris of the ruined house, and these, taken in connection with nine previously discovered, show that at least one more person met death on the place. The bodies of nine male victims have been unearthed, but ten men's watches have been discovered. Sheriff Smutzer announced after the finding of Thursday that he will resume digging operations with the hope of uncovering additional skeletons. A number of globules of metal found in the mining operations are being examined by experts to see whether they are bits of gold used by dentists for fillings or crowns of teeth. The discovery of the supposed missing left hand of the body of Mrs. Guinness, with two rings that make its identity

clear still more conclusive, leaves little room for doubt that the proprietress of the murder farm paid for her crime in her own house of death. The initials engraved inside the rings show conclusively that they belonged to Mrs. Guinness. The attorneys for Lamphere are said to be looking for David Havens, who, it is reported, aided in uncovering the bodies of the persons whom Lamphere is accused of murdering. The attorneys claim that Havens has declared that when the bodies were found in the cellar of the Guinness home on April 28 they were lying on the floor, and that there was no debris under them. They assert that testimony to this effect at the trial will do much to clear their client of the charges against him, arguing that the circumstances show that the bodies had been placed in the cellar previous to the beginning of the fire which destroyed the farmhouse.

are bringing slightly higher prices. Although not many hogs are offering, they are not wanted, and the market for them is weak at \$6, fed and watered, off cars, Toronto.

FARM HANDS AND DOMESTICS.

Immigration Department Issues Notice Specifying Classes Wanted.

A despatch from Ottawa says: The superintendent of immigration issued a notice on Thursday that the only classes of immigrants wanted in Canada at the present time are experienced farm laborers, farmers financially able to take homesteads or purchase lands, and female domestic servants. The demand for railway labor is filled for this season. All concerned are requested to note that the regulation now in operation in Canada requiring every immigrant 18 years of age or over, to have in his possession at least \$25 cash at the time of landing, besides ticket to destination, will be enforced strictly and impartially in the case of all immigrants outside of the classes above mentioned.

PLAYED TOO NEAR BONFIRE.

Kingston Child Suffers Probable Fatal Burns.

A despatch from Kingston says: A six-year-old child named Edith Millard, of Pine street, was badly burned on Saturday afternoon while playing near a bonfire. Before neighbors could put out the blaze her body from legs to her hair was scorched severely. The doctors say there is little chance for her recovery.

CAPT. KINGSMILL PROMOTED.

Commander of Canadian Protective Services Now a Rear-Admiral.

A despatch from London says: Capt. Kingsmill, who commanded the Canada when she visited the Dominion, and who was recently appointed commander of the Canadian marine and fisheries protective services, has been promoted to be a rear-admiral.

BABY BURNED TO DEATH.

Mrs. Cook, Elm Creek, Manitoba, Left House for a Moment.

A despatch from Elm Creek, Man., says: The infant daughter of Thomas Cook was burned to death on Wednesday evening in a fire which caught from the cook stove during the absence of its mother, who stepped outside for a minute or two.

Twenty-six hundred cotton operatives in Montreal have accepted the 10 per cent. reduction and returned to work. The barge Resolute, wrecked off the western gap, Toronto, in November, 1906, has been raised and towed into the John street slip.

SERIES OF ROBBERIES.

Large Sums of Money Stolen in Winnipeg Post-Office.

A despatch from Winnipeg says: A series of robberies extending over several months has been going on in the Winnipeg post-office, and the sum stolen aggregates a very large amount; it is believed not less than \$12,000. Officials refuse to discuss the matter, and consequently it is impossible to ascertain the correct figures, but the sum cannot be less than stated. A number of packages, containing from \$800 to \$2,000 have disappeared as mysteriously within the building as though they had sunk into the ground, indicating that the thief is some person who has the handling of the money entrusted to him, and that he is clever and systematic in his operations.

BOMB IN CALCUTTA.

Exploded on One of the Main Streets of the Indian Quarter.

A despatch from Calcutta says: A bomb that had been placed on the car track of one of the principal streets in the Indian quarter was exploded on Friday morning by a cart passing over it. Four persons were injured, one of them critically. The cart was blown to smithereens. The miscreants who placed the bomb evidently intended that it should blow up a car containing white people. Pamphlets were circulated last week warning Bengalis not to ride in first-class or other carriages in which Europeans were travelling.

KING EDWARD WILL ATTEND.

Ward-Reid Wedding to be Held in the Chapel Royal.

A despatch from London says: Miss Jean Reid, daughter of the United States Ambassador to Great Britain, Whiteley Reid, and Mr. John Hubert Ward, brother of the Earl of Dudley and query-in-waiting to King Edward, will be married in the Chapel Royal of St. James' Palace, June 23. King Edward will be present at the ceremony, and Queen Alexandra will also probably attend. The wedding is being held in June to allow the Earl of Dudley to be present. The Earl will leave London early in June for Australia, where he is to take up the duties of Governor-General.

MINERS MUST NOT DRINK.

New Regulation by One of Steel Trust's Subsidiary Companies.

A despatch from Pittsburgh, Pa., says: The H. B. Frick Coke Company, a subsidiary of the United States Steel Corporation, has ordered into effect a new code of rules governing its mines and miners, the most remarkable provision of which is the prohibiting of the company's miners from drinking, whether on duty or off.

TEN THOUSAND DROWNED

Were Swept to Death By a Tidal Bore at Hankow, China.

A despatch from Victoria, B. C., says: News of one of the greatest disasters that China has known, a sudden tidal bore, in the Yangtsekiang, which involves the loss of nearly 10,000 lives at Hankow, was brought by the steamer Titan, which arrived on Tuesday night. A bore twenty-six feet in height flooded without warning down the river, overwhelming thousands of junks, sampans and small boats, and wrecking some large river steamers.

great typhoon at Hong Kong of eighteen months ago, when ten thousand lives were snuffed out. It is usual, said Mr. Bell, to send a telegram down the river when such a freshet occurs. The telegram was delayed, finally arriving about the same time as the wall of water, which swept down on the sleeping river people in the early morning, overturning thousands of craft, and sweeping away thousands of Chinese in the torrent that swept seaward. The scenes for many days after the disaster were horrible, the river side being strewn with dead and debris of wrecked craft for many miles.
