## PLAINFIELD DAY PLEASES CROWDS

Harvest Home Picnic Arranged by Rev. Mr. Sharpe Turns Out Well

**SPORTS, MUSIC, RACES**  
But Most Important of All Perhaps the Eats—Some Fine Speeches

PLAINFIELD, Sept. 5. — The Harvest Home Picnic held on the Driving Park here last Wednesday was very gratifying to all concerned. The dinner was served in the A. O. U. W. Hall just across the street from the ground and comprised such assortment and abundance as only the harvest season in Ontario can bring forth. After having satisfied the noonday appetites of about five hundred people, (tables surrounded to the full three times) the afternoon programme was announced.

A baseball match between the Zion Hill and Plainfield Juniors was begun as soon as the first tables had been served and was almost finished before dinner was completed. This proved a very interesting game as some of the boys showed some really good play indeed. The score showed a good margin in favor of the visiting team.

The crowd was next invited to the beautiful hillside overlooking the bandstand and the track and the pastor of the circuit, Rev. L. M. Sharpe, who was the chairman of the day's proceedings called upon the Rednersville band, who had given a number of very pretty selections during the dinner hour, to assist in attracting the people to the "grand stand" so well provided by Nature. He then made a few remarks expressing his thankfulness at the spirit of co-operation and unanimity shown by the four appointments of his charge, Mt. Pleasant, Bethel, Zion's Hill and Plainfield, toward making this first Harvest Home Picnic such a success and expressing the hope that many other efforts for general good might follow in the same spirit. Another band selection and Rev. Mr. MacDonald, Presbyterian minister of Roslin followed with a splendid address. Bits of humour prepared the way for a really good talk on "Cheerful Service" in behalf of the church and community and urging that "we seek daily and persistently to develop the habit of cheerfulness even though it require hard effort." Rev. Mr. Day, rector of the Roslin Anglican Church next proved his ability as a leader by wit and a well chosen subject on Patriotism and Real Canadian Citizenship. His fondness for and appreciation of our beloved country with its many resources and advantages drew forth applause from the hundreds of the audience. Music again and Rev. F. G. Joblin of Bay-side in congratulatory terms complimented the people upon the enterprise which had made a park possible; the co-operation and the ambition which had conceived of such a gathering and predicted much if this rural movement were encouraged. He claimed that herein lies the solution of the problem of rural depopulation for which we are hearing so much. Mr. D. T. Stafford, of Rednersville next gave some account of what the Community Club had meant to the people "over the Bay" and stated that they purpose to re-open for the fall and winter in October.

The list of races for which prizes in cash had been donated by the merchants, business men and several leaders in different church activities of the circuit were next run-off before the "grand stand," including kiddies' races, foot and shoe races, fat men's, fat women's, relays for boys, also for girls of Trail Rangers and C. G. I. T. ages, married women's, official races for church and Sunday school officers, etc.

The half-mile race (once around the track) was won by Mr. Ralph Sills with Harry Harrison a good second and W. Marshall, third.

The baseball match between Moira Taxis and Plainfield Seniors was a hard fought test and received much attention. The score showed 13-8 in favour of the home team.

The Rednersville band was very generous with their assistance and played numerous selections, adding much to the enlivening of the day. They drew forth very general praise from the audience for their willingness and cordiality throughout.

Owing to the fact that baskets and boxes of eatables had been untouched at dinner, the ladies very kindly arranged to serve supper which was called at 5 p.m., making it impossible to finish a part of the list of races.

The proceeds of the day amounted to nearly \$250 and will be used in procuring an individual communion set for the circuit and parsonage improvements.

Many have been heard to say, "Wasn't the friendliness of the day

Belleville Fair Off to Good Start;  
Rain Fails to Spoil Day of Pleasure;  
Prize-Winners in Many Sections Here

Early morning showers on Labor Day failed to dampen the spirits of the directorate of the Belleville Fair, and far beyond expectations were the the crowds that paid admittance yesterday to the grounds for the opening of the annual exhibition.

"The best opening day you have had yet," was the expression of one of the visitors to the grounds.

The crowds were entertained for the afternoon and even the evening, the management having excelled themselves in putting on a program that has never been excelled and perhaps never equalled at an autumn exhibition here. There were large purses hung up for the trials of speed on the track, and the inevitable result was good racing. Semi-professional baseball was staged here for the first time in many years and although the score was not close, the crowd that hung around the diamond were entertained thoroughly. There were other events which proved excellent drawing cards, among them the saddle race, in which a young girl, Miss Potter, ran away easily from her two male rivals, whom she left to fight it out for the second and third places. A collic dog ran against a horse in the absence of pony competitors and put the equine on his mettle to keep ahead of the little fellow, who was attached to a go-cart.

**Exhibits.**  
Best of all at a fair is the exhibit of the season's produce and the wealth of the animal life of the district. This year's exhibition took a step forward improvement of the prize-lists by increasing of the awards, has resulted in the showing of the best in everything in the immediate counties. Many of this year's exhibitors are from a distance, a sign that the fame of the show is growing.

Although the rules did not call for the entrance of horses, cattle, sheep, and swine, until this morning, and in their fairness the management had advertised the fact, yet the greater part of the entries in these classes were on the grounds. The horse show was the finest of the fair for years. There were many of the driving type of equines, and the display of the draught class was never equalled.

Cattle beautiful to look upon were there in plenty, in herds and as individuals. And all classes were shown, from the heavier to the light Jersey. Cock-a-doodle-do was in his element yesterday and today. Over four hundred entries of the domestic feathered race made the poultry show the biggest of the fair's history. Poultry is more than holding its own here, thanks to the impetus given the fowl industry by the Belleville Poultry Association. Barnyard fowls were housed next to geese and ducks, the whole feathered creation being represented.

**Main Building.**  
The main building was very interesting to the visitor for there he or she saw many samples of the fine handwork of the matrons and young women of the district who have not yet in these modern days forgotten their skill with the needle and the brush. The show of ladies' work was very fine, as also the samples of the fine art as practised by the people of the district. Many busy hands had labored over these things of beauty and utility.

For the agriculturist who liked the sight of good roots, there was enough to cheer. The late rains have brought along this portion of the harvest wonderfully, as President H. K. Denyes, M.P.P. for East Hastings, stated to the people at the opening of the fair. There were peppers galore, apples, cucumbers, squash, melons, pumpkins, corn, mangolds, beets of very good proportions. The floral and the fruit displays were a credit to the ladies of this county and the contiguous counties. The cheese and butter shows were good.

Quite a number of hogs and sheep arrived at the grounds early today, in accordance with the rules of the Fair Board. A good many cattle and horses came in late yesterday or early today.

**Midway's Charms**  
The midway this year is quite large, with all the paraphernalia associated with this style of exhibition. The police kept an eye upon the operators with their games of skill. Chance games were not permitted. One of the worthiest of the exhibits on the midway is the graded Shorthorn steer, owned by Messrs. Blain and Martin, of Huron County. This mammoth animal is only five years old and now weighs 2,570 pounds. There is no fake about this.

"The best I have been at" and "why not make it an annual."

as all farmers who saw it, know. It is an education. It is of course a freak, but a freak on the score of size, not of peculiarities, of build. The animal is normal except in its dimensions.

In the same tent is the horse that never had any hair. The animal's hide resembles rubber and it is a real freak.

Across the way is a palmist; farther up, the merry-go-round. Booths in plenty ply their trade.

The Argyll Light Infantry Band and the Rednersville Band furnished the music on Monday afternoon.

**Fair Declared Open.**  
President H. K. Denyes officially declared the fair open at two o'clock, and referred to the attractions of the show this year.

"I am glad," he said, "for the harvest that we have. The latter rains have brought on a bountiful harvest. We rejoice for these late crops. I am sure they will tide the farmers over who were distressed on account of the early prospect of a shortage of fodder and feed." Mr. Denyes pointed out that the fair was "a great social event."
