New System is Begun

Vancouver, B. C., June 3 .- The broken carload lots of freight into Vancouver by the Great Northern railway was inaugurated today by the establishment of a regular freight ferry between this city and Liverpool, opposite Westminster, on the Fraser river. Hereafter, all Great Northern freight for Vancouver will be run in cars on barges specially built for the purpose, at Liverpool, and will be towed around to Vancouver, where they are to be run ashore again and unloaded. The local system is in charge of Capt. S. F. McKenzie, who represented the Great Northern railway in connec tion with recent deals with the Bri tish Columbia government. Freight is being handled in the same way to Victoria, giving the capital city i very much improved service. It is expected that the new arrangement will very decidedly stimulate business by the American line to and from this city,
