Land for the people; water for the land; government in the interest of all, and not merely for the interests of the individual engaged in business. That's Australia.

Two hundred miles out from Sydney, in a westerry direction, at a place in the mountains caned Burrinjuck, the Murrumblagee River, narrowed between two gigantic clitts, boils impatiently over blocks of granite, which, ages ago, lost hold on the mountainside and plunged to the bed of the rushing wa-

Here an irrigation dam, one of the hugest in the world, is in the building. It will impound the waters of the Murrumbidgee, drive the river back upon itself, and turn the mountain-nemmed vaiinto a vast lake surpassed in area by the reservoir of Assouan in Egypt only. In the parened summer time, these waters out of leash, will flood the plains two hundred miles to the westward and a million and a half of acres of desert land will become fertlie. And the government finances the enterprise.

The land is being divided into acre sections for mixed farming, ten acre sections for horticultural purposes, and two acre sections for home lots for farm and other workers. Assistance, beyond that which even the most expectant might look forward to, will be afforded to in-coming settlers. The state will erect necessary factories and buildings where the different products may be treated and prepared for market. Conditions are highly favorable to the growing of many varieties of fruit and to fruit drying. These factories will afterwards be harded over to co-operative societies at a fair valuation. A depronstration farm has already been established for the purpose of testing the suitability of various plants to the conditions of the local citmate and soil and also to afford instru

tion to settlers.
Additional assistance will be offered to homesteaders before entry by the proparation of a portion of the sections for irrigation purposes and by the erection of the nucleus of yards and buildings, the cost to be paid off in annual installments. There will be a water right of one acre foot-that is, a depth of one foot of water over one acre to be suppiled during the summer irrigating sea-son—to each acre of irrigable land disposed of. Further volumes will be sold f required. This charge for water will be five shillings—about \$1.25—per acre foot, but there is a probability that this rate may be reduced by one-half in the first year of occupation, the rate being increased until the fifth year, when the full charge must be paid.—From "What Australia Offers Farmers," January Technical World Magazine.

Shiloh's Cure STOPS COUCHS PRICE, 25 CENTS

WHY THE LEAVES TURN.

At this season of the year everyone admires the vast beauty of the variegat ed colors of the leaves which Jack Frost has spent night after night in painting. But what causes the foliage at this time of the year to change from green to such magnificent colors?

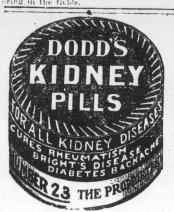

The common idea is that frost causes the brilliant colors of the leaves. This popular fallacy is without foundation in fact, for frost has nothing whatever to do with the delicate tinting of the leaves; it does, however, hasten their fall. You have only to go out in the frost to find a young maple in all its fall glory, or a sumae bush blazing forth its fiery leaves, to explode the theory that frost changes the leaves.

Autumn coloring is actually due to exidation, which is caused by the action light and heat, somewhat similar to the rust on iron or steel. With leaves it is due to the fact that in fulfilling their mission they become choked by their own excretions, and the acids thus formed are acted on by the oxygen. It is a peculiar fact that young trees are the first turn red is extremely acted to you, so you in remember on. First, you don't think any man is estimated to the first turn red is extremely acted to the first turn red is extremely acted to the first you don't think any man is estimated to the first turn red is extremely acted to the first you don't think any man is estimated the first turn red in autumn.

In extremely moist atmosphere the colors of the leaves are not usually very bright, as in England. And in very dry limates the leaves dry up suddenly, and their skin, which is very thick to prevent the escape of moisture, is not sufficiently transparent to allow the color to be seen beneath. In regions where the autumn foilage is most vivid, we find that an average season produces the most exquisite colors. Neither a very dry nor a very wet summer will result in much brilliancy.

extraordinary range of coloring in the autumn leaves of a single species ies very noticeable, particularly so with the sugar maple, and it is a remarkable fact that individual trees will continu the same colors for year after year, and not only that, but the same branch will the first tinge of color each season. But frost does not do this. physical make-up of the tree that causes the leaves to shine in iridescent beauty luring the autumn months.

A PRINCE AS A FARMER. Prince Eric, nephew of the King seamark, has just been aprenticed bree years to learn practical agric ure. He took up the vocation pur-form his own choice. He is to make berrough and scientific study of all t ect, and starts by

THEIR NAMES.

An Anecdote From Gabrielle E. Jack son's New Book About the South. Gabrielle E. Jackson tells the follow ing story in her recently published book for girls, "Peggy Stewart": Peggy's father has just returned from

an extended absence and his daughter is showing him over the estate. They come to one of the cabins in which lives the family of Joshua Jozadak Jubal

ones.
"I want you to see this family," "I want you to see this family," explained Peggy to her father. "They might all be of one age, but they are not —quite. Come here, boys, and see Master Captain," called Peggy to the three pickaninnies who were peoping around the corner of the cottage.

"Hello, boys. Whose sons are you? Miss Peggy tells me you are brothers?"

"Yas, sir, we is. We's Joshua Juzadak Jubal Jones' boys. I'se Gus, de ol'es.'

"And how old are you?"

"I'se 9. I reckons."

"And what is your name?"

"And what is your name?"
"My name? Gus, sah."
"That's only half a name. Your whole name is really Augustus, rememoer."
The "Massa Captain's" voice boomid with the sound of the sea.

"And your name?" continued the questioner, pointing at number two.
"Tee jist Jule, sah," was the sh reply. "That's a nickname, too. I can't have

such slipshod, no account names for my hands' children. It isn't dignified. It sn't respectful. It's a disgrace to Miss Peggy. Do you hear?"

"Yas, yas, sir; we, we hears," answered the little darkies in chorus.

"Please, sah, wha's his name of 'tain't Jule!" Augustus plucked up heart of

grace to ask. "He is Julius, Jul-i-us; do you under

"Yes, sir; yes, sir." Another dime "Yes, sir; yes, sir." Another dime helped the memory box.
"And your name?" asked the "Massa Captain" of the quaking number three, There was a long, significant pause, then contortions. At length, after two or three futile attempts, he blurted out: "I'se—I'se Billyus, sah!"
These was a long of lengther of lengther.

There was an explosion of laughter. Then Neil Stewart tossed the redoubt able Billyus a quarter, crying "You yin!" and walked away with Peggy, his laughter now and again borne back to his beneficiaries.

Minard's Liniment Cures Distemper

HIS FOUR PRINCIPLES.

Until some ten years ago it was an axiom in the big packing house circles of Chicago, says "Business and Book-keeper," that a salesman should be guid-ed by four rules as laid down by one ed by four rules as laid down by one of the famous heads of that industry. He was noted for his brusqueness, and also a democratic nature that scorned also a democratic nature that scorned the usual hedge of clerks that stands between a big man and his callers. A bright, manly-looking chap entered the office one day when he was very

"Good morning," he began politely.
"Well, what the blankety-blank-blank
you want?" he growled.

"I want civil treatment, and I wan t blankety-blank-blank quick," came the sharp answer.

"Oh!" The packer looked up in sur-prise. Modulating his voice a trifle, he asked: "What can I do you you?" "I want a job as a salesman, I have worked as a butcher, I have worked in the packing houses, and I have sold smaller lines to the meat trade. I have references to prove that I deliver the goods, and I have them with me. I want to get into a bigger field, and I am here to make good. Have you got a

"It we haven't, we'll make an opening for you. Report to the sales manage day morning."

"No sir." "Well, you have the three essentials that make a good salesman. I'll point them out to you, so you'll remember

THE POPE'S TRIPLE CROWN.

The tiara, or triple crown of the Pope was originally a plain high cap, much like those in which the Doges of Venice are so often represented in old pictures and medals. It was first introduced by Pope Nicholas I. in 860.

It is doubtful when the first coronet

was added, but the second was placed by Pope Boniface VIII, in 1295 and the third by Pope Urban V. about 1333. It has been held—that the three crowns refer to the Holy Trinity, a though that evidently could not have been the original idea or they would not have been added one after the oth-er, with an intervening interval in each

er, with an interest.

case of many years.

Others affirm that they denote the three-fold royalty of the Bishop of Rome, one being the symbol of the tem-poral power over the Roman States; another, the spiritual exercised over the souls of men; and the third the authority over all the kings and potentates of Caristendom. From the Ave Maria.

power to him for we believe he made
good polls—he certainly made good money
out of them and that seems to be all
that is necessary to get a title these
days.

We all yearn to do the impossible, even though it may only be to kick

ourselves.

Liquid Cough Mixtures Can't Cure Bronchitis

But the Healing Fumes of Catarrh-ozone, Which Are Breathed to the Furthest Recesses of the Bronchial Tubes, Being Quick Relief and Sure

Every sufferer from coughs, colds Every sufferer from coughs, colds. bronchitis and all throat and chest allments needs a soothing, healing medicine which goes direct to the breathing organs in the chest and lungs, attacks the trouble at the source, disperses the germs of disease, and cures the ailment thoroughly. And this medicine 'a Catarrhozone. tarrhozone

The germ-killing balsamic vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deeper air cells in the lungs. All parts are soothed with rich, pure, medicinal essences, whereas with a syrup the affected parts could not be reached, and harm would result through benumbing the stomech with through benumbing the stomach with

"I have been a chronic sufferer from Catarrh in the nose and throat for over eight years. I think I have spent four hundred dollars trying to get relief. I have spent but six dollars on Catarrhozone, and have been completely cired, and in fact have completely cured, and, in fact, have been well for some time. Catarrhozone is the only medicine I have been able to find that would not only give temporary relief, but will always cure permanently. Yours sincerely (Signed). WILLIAM RAGAN, Brockville, Ont."

For absolute, permanent cure, use Catarrhozone. Two months outfit costs \$1.00; smaller size, 50c., at all dealers, or the Catarrhozone Company, Buffalo, N. Y., and Kingston, Canada.

ONE ON PATRICK HENRY. After the capture of Richmond in the

"late unpleasantness," a party of English tourists were in that city chaperoned by an old darky.
"What is that building?" said one of the gentlemen to him, pointing in certain direction.

"Dat's a 'bacco warehouse," said the "And what is that one?" pointing

to another.
"Dat's a 'bacco warehouse, too." And then looking in the direction of a high hill, Church Hill, as it is called in Richmond, the touring party spied a church at the top.

"And what is that building? Is that a

tobacco warehouse also?"
"Oh, no, sir. Dat's de church whar
Patrick Henry made de speech. Give me
liberty or give me death, and, for Gawd,
dey done give him both."

RELIGION AND ADVERTISING. (Pittsburg Gazette-Times.)

Is it proper for a church to advertise." It is difficult to see how any other than an affirmative answer can be returned to the questich, which has been raised by local representatives of the nation-wide Men and Religion Movement. Pittsburg, a conservative community in many respects, seems to have been a bit backward in the publicity phase of the new evangelic enterprise now being engineered by aggressive laymen. In somy other cities the promoters of the movement wrom which such great results are anticipated have hastened to avail themselves of modern ideas in advertising, reasoning that the business work should have no monopoly of the effective devices that make for success. Thus fathey have no reason to regret their action. Advertisers to-day, many of whom have learned their lesson through bit for experience, realize that to make publicity permanently profitable the article advertised must possess solid world. This requirement fulfilled, there is no limit to the lestifunate profit; that make gained. The only things it doesn't ben't be advertise are those that are word-less. Religion surely does not be found in this category.

Minard's Liniment Cures Colds, Etc.

IN A DILEMMA.

Prominent among the smart set of Cincinnati is a young wife whose multifarious social duties occupy such a large part of her time that she has little to spare for her children.

Not long ago one of the young targets. the that is a young wife whose multi-farious social duties occupy such a large part of her time that she has little to spare for her children. Not long ago one of the youngsters became ill and the mother hastily summoned the family physician. The greeted him at the door thus:

"I am sure it is nothing serious, doctor; but really I wish you would find out what is the matter with Gladys. The French maid left this morning, and so there's not a soul in the house that can understand what she says."—New York Herald.

People with a pull generally pull to

A THOUSAND DOLLARS A

petitical are taxed and the steel in the vinets of the baby carriage have chipped in.

Added to six hundred and thirty-eight millions of dollars, running expense, there will be forty-seven millions more for Panama Canal work.

Of the six hundred and eighty millions of dollars about \$153,000,000 or about one-quarted will go to pay pensions—that is dad will have to pay about elghteen cents a week for the of long ago.

The army and navy departments will take about \$252,000,000 more or nearly a half of the whole and father's weekly contribution to that fund will be about thirty-five cents.

Thus the total cost of the war past, present and future, as paid in pensions and army and navy expense is about two-thirds the cost of the whole show. For, too. The house and Senate cost Uncle Sam about \$1,30,000 per day or \$30,000 an hour or pretty close to a thousand dollars a minute.

There are other things money is spent for, too. The house and Senate cost about thirteen million dollars a year. Unlocky figure. This isn't the money Congress spends, but the money it costs to pay the members and their hangerson, including dead-ducks and \$75,000 to \$35,000 a year to Aldrich's monetary commission.

395.000 a year to Aldrich's monetary com-mission.

The civic list also shows that spending money to protect human life in the pub-lic health, marine hospital and life sav-ing services and in special fights against epidemic diseases. The total spent thus is about four million two hundred thous-and dollars which, you see, is not quite one cent for life saving to each dollar for war. Also it is just about half as much as is spent in fees, mileage and expenses by the U. S. courts (not includ-ing salaries.)

Minard's Liniment Co., Limited:

Gentlemen,-I have used MINARD'S LINIMENT from time to time for the past twenty years. It was recommended to me by a prominent physician of Montreal, who called it the "great Nova Scotia Liniment." It does the doctor's work; it is particularly good in cases of Rheumatism and Sprains.

Yours truly, G. G. DUSTAN. Chartered Accountant. Halifax, N. S., Sept. 21, 1905.

DIDN'T SCREAM.

(Montreal Herald.) A young woman was suing her former sweetheart for breach of promise. "You say," remarked defendant's lawyer, "that the defendant frequently sat very close "Yes, sir," was the reply, with

"How close?"
"So close that one chair was all we reeded to sit on."
"And you say he put his arm around

ou""
"No, I didn't."
"What did you say, then?"
"I said he put both his arms around

"I said he par some me."
"What then?"
"He hugged me."
"Yery hard?"
"Yes, very hard; so hard that I very nearly had to scream out."
"Why didn't you scream?"
"Because—I didn't" (another blush.)
"Come, that's no reason. Be explicit. please. Because what?"
"Because I was afraid he'd stop."

ANNIHILATING TIME The authorized mileage of the Grand Trunk Pacific main line and branches is 1,500 miles, of which 1,745 miles are between Winnipeg and Prince Rupert, 1,-800 miles are under contract by Transcontinental Railway Commission be-tween Winnipeg and Moncton. At the completion of this national railway the trip around the world will be shortened by one week, as Europe will be brought closer to Asia, and as the maximum ade of the Grand Trunk Pacific is 1-5 of the next best transcontinental railways on the continent, time between the Atlantic and the Pacific will be annihilated when the service is in operation.

ENTIRELY INNOCENT.

On the front platform of the suburban trolley ca'r stood a pimply youth, strug-gling with a cigar several sizes too large for him. He was smiling and trying to attract the attention of somebody in

side the car.

Presently the elderly, sharp featured woman who was sitting in one of the seats turned a third of the way down the aisle turned to the freekled faced 14 year old girl by her side and said something in a whisper.

"I ain't, neither!" indignantly pro-

tested the girl. "Yes, you are, Elviry," said the dame; you're tryin' to flirt with the chap out there in front!'

"What are you talking about, maw? I ain't doin' nothin' of the kind!" "Well, it looks like it. You stop it

right now, or I'll give you a spankin' when we get home."
"The idea, maw! Why, he's uglier than a nud fence!" "There! You're looking at him, and he's grinnin' Everybody in the car will be rubberin' at you. Stop it, I say!

"I'm not doin' a thing, maw. Don't "You cant fool me, Elviry! I've got eyes in my head, I reckon. You can't set here and flirt with strange boys

ight under my nose I'll find a way to -say, conductor!"
"Well, ma'am." said that personage, who happened to be passing; "what is

"I want you to make that young

his voice, "it isn't your daughter he's looking at."

Following the glance of his eye, she turned and looked. In the seat just turned and looked. In the seat just behind her sat a blonde young woman with bright eyes and a picture hat.

The elderly dame subsided, and silence reigned in the ear.—Chicago Tribune.

Minard's Liniment Cures Diphtheria

But when he says that the man who marries a Canadian girl will have to help with the housework, he makes too sweeping a statement. As a rule, the hushand ceases to help much with the dishes after he has been married a shortime. One seldom sees a husband washing down the front steps—except with a liose in summer, and even then he can readily make it appear that he is watering the lawn. It is quite true that Canadian husbands are often seen wheeling babies in carriages on the streets. It is not considered an numanly ocupation, but a fatherly amusement. We believe that Canadian husbands, as a rule, are not ill-treated.

It is all in the point of view A few months ago we saw a letter in an English paper from a man who had recently come to Toronto, and was well pleased. "My wife," he wrote, has already got work, and so has my daughter, and they are keeping us all in more comfort than they ever did at home." (Toronto Star.)
