TWO PAGES.

This is what the great Edmund Burke says of the duty of a Representative. We want Mr. Snowball and his friends to read it:—

It is the duty of your Parliamentary representative to sacrifice his repose and his pleasures to yours, and above all, to PREFER IN ALL CASES OUR INTEREST TO HIS OWN.

A ROLAND FOR AN OLIVER.

A correspondent to day informs us that the Grits here are very angry, and pouty, and sullen, because the laugh they so indiscreetly and with such ill manners and wretched taste tried to turn against Sir Hector's reception, those who received Sir Hector, and the visitor himself, has now been turned against themselves. It is always the way. These who are the fondest of giving jokes, are the very poorest at taking jokes—while it is just as true that those who are themselves of all the most ridiculous, are the very first to throw ridicule upon others.

The Grits here ought to live at peace of this kind with their neighbours. Even though they see an opportunity they ought to let it go by—their own shields are so shaky. But courting issues, no one can pity them when they are visited with the consequences. They have sustained an organ which has been nothing short of a plague in the community. With this instrument of torment they have terrorized over private citizens without discrimination. The force they have employed to make their cause strong and to carry the day, has not been moral force. It has been brute force. They have followed private citizens who incurred their displeasure into their very fire-escapes, and printed what they saw there. For years sensitive men, and private citizens too have trembled to walk upon the streets on the morning the disgusting paper came out, lest he might bear from its pages on the lip of the public, some sacred and private family matter. They are as hounds who yelped and bit whom fancy pointed out as victims; but like the hounds they give out the most piteous cry when they feel the lash of the retaliating whip. Those whom they smote they would have turned to them the other cheek, and forget that they had been made the victims of a prostituted press.

It is the people who have supported such a paper, who have recognized such a paper, and fraternized with the writers on such a paper, who now cry out when in a lesser but legitimate way the tables are turned upon themselves. They make themselves laughable, and they expect us not to laugh. They pose as targets and they expect not to be shot at. Their role is comic, and they want us to do that regard it as solemn tragedy? Mayhap in this respect they are right. If they have emotions let them be of the tragic sort—let our amusement be the comedy.

DISREGARDED DUTY

The harbor master some weeks ago issued a number of notices to the proprietors of ballast wharves in the port of Chatham. Some of the proprietors were notified that they could continue to take ballast upon their wharves till the same were repaired according to requirement, but stating that they were obliged to have the indicated repairs made promptly. Other proprietors were informed that their wharves were not fit for the reception of ballast at all, and they were forbidden under penalties to receive ballast upon them till the conditions of repair had been complied with. Everyone said when they heard these orders had been issued, "Now that is something like. Navigation should on no account be imperilled; and Mr. Johnson has appreciation of his duty."

Well,—some of the parties notified went promptly to work and set their wharves in order; but two others whose wharves were declared by Mr. Johnson unfit for the reception of ballast folded their arms and let things stand. For a few days no ships went to these wharves, but ships are at them now discharging ballast. There is one at the Hutchinson wharf,—we can see her from our office window.

Will Mr. Johnson tell us what has happened that these wharves unfit for ballast some weeks ago are fit now, though in the meantime no repairs have been made upon them? Can Mr. Johnson complain, in view of these facts, when his friends do censure him? So far as the Star is concerned it would not, even it could, hurt a hair of his head, and would prefer at any time to say a good word rather than a bad word for him, but when he will continue to disregard his duty so openly, whatever our feelings, there is our duty.

We believe it was Palmerston who said "there is nothing so deceptive as facts, except figures." One St. John paper states there were "150 leading members" of the "party" present at the reception meeting, and another St. John paper states—though both accounts were written by the same person here—that there were 143 present. As a matter of fact, though it does not make a great deal of difference one way or the other, there were not 100 there, nor 50 there, nor, at the furthest above 40 there. A special representative who was at the Bazaar counted 31 coming down the stairs after the affair was ended up above, and we have a list with 34 names upon it. If there were 200 present it would not make much odds, but we point out the facts to show how anxious the poor enemy is to have it appear its cause is not a vanished one.

The St. John papers will insist on calling those present "leading members" of the party. This statement we have no disposition to contradict. On the contrary we endorse it. For it is well known that outside of a dozen men every other man at that meeting was an employe of Mr. Snowball's.

into a gang of section men six miles south of Lincoln, on the Atchison, Topeka & Santa Fe road. The section men were unharmed. The Atlantic Pacific Railway sent a train to the front with 50 armed men. Another train with 75 men has left Albuquerque for the scene.

Telegrams from private parties are fast coming in ordering firearms and ammunition. Latest reports say the Apaches are in full force 15 miles south of Acoma. Several ranches were destroyed, and a number of men killed. Others are missing. The Apaches are moving in two parties. A Pueblo, who came to El Rito, reported the Indians had massacred his wife and two children. The Mexicans and Pueblos have been scouring the country. It is supposed Tranquilo Lano, who left Los Unos with a company of men two days ago, is driving the Indians southward.

THE POPE.

The Times' Rome correspondent says the substance of the report that the Pope purposes going to Malta is true, but there is nothing immediate. Its fulfillment depends upon circumstances. In a recent circular to the Nuncios the Papal Secretary of State plainly foreboded the possibility that the Pope might feel himself obliged to leave Rome. He subsequently stated that the Pope neither enjoyed liberty nor security at Rome. There can be no doubt that the Pope is seriously preoccupied on the subject. Whether he will eventually leave Rome, or when, are questions not decided, but those who have known assert that he has distinctly made up his mind not to tolerate the slightest infringement of his dignity. Should any such thing happen it will determine his departure at once.

NEW LIGHT HOUSE.

A Lighthouse has been erected by the Government of Canada on the most north-easterly point of Pogequeddy Island, Bay de Chaleurs, County of Gloucester, in the Province of New Brunswick, and will be put in operation the 1st August next. The light will be fixed, white catoptric, elevated 41 feet from high water, and should be visible 11 miles from all points seaward, and the tower is a square wooden one, 34 feet high to its base to the vane on the lantern, and is painted white.

FLOODS.

On Monday and Tuesday nights the tides overflowed the dykes and flooded the marshes along the bay shore, St. John, injuring the hay crops considerably. Wednesday night's tides were still higher, breaking the dykes in many places, washing away hay which had been cut, and gullyng the railway track near Tantram Bridge.

LOSING A MEMBER.

The Toronto Globe maintains that notwithstanding the saving clauses in the North American Act, New Brunswick will be deprived of one member in the Commons. The decrease in population, relatively to that of the whole Dominion being nearly one-tenth.

DAVID IRVINE.

Hon. Judge Wetmore has granted an order, returnable on the 22nd inst., calling on David Irvine, M. P., to show cause why he should not be examined on the charges preferred against him in Dr. Nevers' protest.

COMMUNICATIONS.

LEX TALIONIS.

To the Editor of the Star,—Dear Sir,—Mr. Snowball and his hands, and a dozen or so of gentlemen had a meeting of the evening on the "loft" of the Masonic Hall. The Star stated the facts; but I understand the party take "their quizzing" with very "bad grace." They however set the example themselves, by pelting the first stones though the house they live in is made of glass. When Sir Hector Langview came here they flooded the town with low wit and ridicule; though their whole party is a standing joke, a perpetual absurdity. Now do they think any one will play such a laughable combination as they are because some writers poke fun at it? I know I don't pity them and I subscribe myself

THE LAWS.

To the Editor of the Star,—Dear Sir,—I thought the Hutchinson ballast wharf, and a certain other one were declared unfit for use by the Harbor Master. I likewise heard he forbade the owners to have them used till set in order under the penalties provided by the Act. He notified other wharf proprietors to make changes in their wharves; and I understand the changes in the least objectionable wharves have been made. But ships are now putting out ballast on the condemned wharves. Does the Harbor Master know this? Or has he taken the proper steps?

Yours,

HARBOR.
