OPEN AT LAST
After being blocked for four weeks by snow the Kent Northern Railway was opened up last Thursday.

Every Member of the Family

has benefitted from Zam-Buk some time or another," writes Mrs. W. Campbell, of Bonny River Station, N.B. "My little daughter had watery eruptions on her face and arms which afterwards broke into nasty sores. We used everything we could think of and at last heard about Zam-Buk. This effected complete healing where ointments and all other homey remedies had completely failed."

Sometime or Another

"Since Zam-Buk removed the child's skin disease," continues Mrs. Campbell, "my brother-in-law has come to realize Zam-Buk's wonderful power. He has a hip trouble that periodically causes a gathering which breaks open. For healing this sore he finds Zam-Buk most effective."

"My husband (a railroad man), often needs Zam-Buk. Last summer his thumb was bad through getting it caught in the metal fastener of a box-car door. When the thumb and was almost severed Zam-Buk prevented complications and healed in a week. We would not be without Zam-Buk at any price, and every family should know of its value."

NEEDS Zam-Buk

Enamel-clad flues insure the life of the Kootenay

ONCE the flues of a steel range are attacked by rust, its days are numbered.

The Kootenay resists rust and corrosion at every vital point by being built of Armco Iron further protected at vital points by porcelain enamel. This exclusive McClary's feature prolongs the life of the Kootenay.

This protection makes the Kootenay a sensible investment for the housewife.

See it at the McClary's dealer's.

White Nickeled Oven Heats Quickly

Of white nickeled Armco Iron, the oven of the Kootenay is a joy to work with—heats quickly and evenly—easy to keep clean. Best of all it takes only a small fire to hold baking heat.

Backache—Rheumatism

For over 30 years Minard's Liniment has been a household name in thousands of homes all over Canada. It quickly relieves rheumatism, backache, neuralgia, headache, sprains or bruises and pain of any kind. Shows good better satisfaction than any other liniment.

Minard's Liniment

WOULD COME TO DOMINION
Many Willing to Leave Britain If They Are Guaranteed Employment

A Canadian merchant who has spent the past few months in England, Scotland and Ireland, arrived home last week on the steamship, Montcalm. The merchant said that the unemployment situation in England was at the present time most serious and that there was a great number of men out of work, especially in various districts in the coal fields of Durham.

In the cotton centre at Manchester and through the lace district, there is considerable distress, there not being a sufficient demand for the product, and especially in Nottingham, a place which depends on the lace industry, the situation is rather keen.

The great industry of knitting hosiery and gloves is in Leicester and surrounding towns and here there is apparently considerable employment and conditions look quite favorable.

In Belfast, Ireland, the linen trade is suffering and is not very buoyant. The merchant said that he found a great desire on the part of thousands to emigrate from the Home Land. Great Britain is greatly over-populated. A leading topic in England at the present time, is the effort of Lady Astor, who is trying to get a bill through, to prevent the sale of spirits to boys. He explained that the boys go to school until the age of fourteen and then when they must enter the higher grades it is so expensive that they cannot afford it and are obliged to stop. Thousands of these boys are unable to obtain employment and are roaming around without anything to do. This is why Lady Astor is trying to prevent them from being frequenters of public houses.

Speaking of the dole to the unemployed, the merchant said that the persons who had been in great dis-

CRIPPLED BY RHEUMATISM
Began to Improve After Taking "Fruit-a-lives"

The Medicine Made From Fruit
You can get rid of Rheumatism. You can be free of pain—of swollen hands and feet—of aching arms, legs and back.

"Fruit-a-lives" will drive the cause of Rheumatism out of the system and give you permanent relief.

"For over three years, I was confined to bed with Rheumatism. Finally I decided to try 'Fruit-a-lives'. Before using half a box, I noticed improvement. I continued taking 'Fruit-a-lives' improving all the time. I can now walk about two miles and do chores around the place."

stress had been benefited. On the other hand the dole system had worked evil as there were undoubtedly men who were taking advantage of it and living from the amount they receive without looking for employment.

In closing his interview the merchant stated that undoubtedly the government could obtain an endless number of people to emigrate to Canada, if there was some financial assistance and a guarantee that there would be work for the men to do. Canada could obtain a very fine class of people from England, Scotland, Ireland and Wales, providing experienced farm laborers and mechanics could obtain an opportunity to cross the ocean.

COMPLIMENTARY DINNER TO PREMIER VENIOT

Hon. P. J. Veniot was tendered a complimentary banquet by Fredericton Council No. 1942, Knights of Columbus, at the Barker House, Wednesday night, in honor of his recent elevation to the premiership. Covers were laid for one hundred, Grand Knight Hugh O'Neill acting as toast master. An address was presented to Premier Veniot.

NO SERIOUS FOREST FIRES IN N. B. LAST YEAR

In the annual report of the Crown Land Department, submitted to the Legislature recently by Hon. C. W. Robinson, Minister of Lands and Mines, Mr. T.G. Loggie, Deputy Minister, refers to the fire problem in New Brunswick as follows:

"There were no serious forest fires during the past year owing to the generally wet season. At times during the summer season when the country was becoming dry the Province was favored with welcome showers and this together with a well directed fire fighting force enabled fires that might have been serious to be controlled and eventually put out. The Fire Law, as amended, was favorably regarded by the public and worked out to the satisfaction of the Department. The Law provides that where fires are burning on private lands there is no onus on the part of the Government to put these fires out. The responsibility of suppressing fires of this kind is now placed on the County Councilors who are authorized by the Act to call out the necessary force from time to time as may be required. There were very few complaints received that the new Act would be a hardship to the settler who had to turn out without pay but when it is taken into consideration, however, that the settler was fighting to save his own home and property there is very little argument left that he should be paid as well. The Act has been well received all over the Dominion and is supposed to be the most advanced fire law in the land.

"The construction of more fire towers was carried on during the season of 1932 as recommended by the Advisory Board. All towers have telephone connections and cabins for watchman. These towers

are of incalculable value and my recommendation is that more of them be constructed until the whole province is covered. In my judgment money spent on towers and woods telephones is giving the best value of any form of expenditure of the kind in suppression of forest fires.

By having these towers manned by experienced men during the dry season provided with binoculars and alidades as a means of determining the size and location of the fire, speedy communication can be had with this Department where fire fighting crews can be organized so that those crews can arrive at the scene of the conflagration a comparatively short time after the fire is spotted. There never was a time perhaps, in the life of our forests when greater danger existed than at present and when more was at stake in the preservation of the largest source of the provincial revenue

BRITISH FARM LABORERS' STRIKE

LONDON, April 4.—Stories about the farmers of Norfolk county arming themselves against the striking farm laborers are exaggerated, yet the strike is assuming an ugly aspect and certain districts are being intimidated against the importation of non-unionist labor. The strikers as a body discountenance violence.

What has really happened is that farmers' sons and farm pupils in isolated instances have been cudgelled by casual bands of strikers. In one instance a boy was dragged through a river.

The police force has not been augmented since the strike began and few arrests have been made. There is not much prospect of a settlement of the strike taking place.

One expert states that nothing will appease the laborers but increased wages, which, he says is a very natural attitude, considering the present low figure. The small farmers however are unable to pay increased wages, and even the larger farmers would find it a distant strain to do so. Expert attributes the unrest to the effect of foreign and colonial competition and says while this continues there seems to be no way in which the agricultural distress in the east section of England can be permanently remedied.

Farm laborers in Norfolk are receiving sixpence an hour for a fifty hour week. They went on strike when the farmers proposed to pay only 51-2 pence an hour for a 54 hour week. The farmers admitted that the pay was small but said they could not do any better under present conditions.

Rangers Value Cash Awards

The effect of offering cash prizes to the rangers of New Brunswick who kept their districts free from timber fires last year was to greatly reduce the provincial losses.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Food is specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

6 CYLINDERS

Studebaker

The performance of the Studebaker Light-Six is smooth and instantly responsive to the touch of the throttle. Its powerful six-cylinder motor, with its overlapping power impulses, will pick up from a walking gait to top speed in a few seconds.

Vibration, so common to many cars, is practically eliminated in the Light-Six through machining the crankshaft and connecting rods on all surfaces. In no other car in Canada selling for less than \$3000, are these engine parts completely machined.

The Light-Six is a proven product of a 71-year-old concern. One hundred thousand Light-Six owners vouch for its dependability and complete satisfaction. Twenty-seven world-wide tests, in which an average of 26.9 miles to the gallon of gasoline was established, offer conclusive proof of its economy.
