A Rare Opportunity,

A True Invigorator. Weakness and prostration of the pervous

Weakness and prostration of the nervous system surely follow that overwork and worry which brings sorrow and suffering to so many Canadian homes. The terrible results of nervous weakness, are seen an every hand. Pains in the back, poer and unrefreaking sleep lack of appetite dyspepsia, and lost of argy and strength, are the first symptoms of more serious and danger, ous trouble. This is the way that Paralysis, Paresis and Insanity begin. Do not delay a moment longer, for some time it will. be too late to regain your lost health and vitality. Use Paine's Celexy Compound now, and the dull eyes will regain their brilliancy, the che.ks will grow rony, the brain become clear, the nerves strong and steady, your sleep restruit and refreabling, appetite good, and health and happiness will take the place of misery and suffering.

A. Sabiston, the well known lithographer of Montreal, writes: "In the summer of 528 I had to work very hard, and was troubled considerably with insomina (sleep-leasness). I resolved to try your Paine's Celery Compound, and after taking the contents of two bottles, fell like a new man. Agood night's rest gave me strength for the duties of the day, and instead of starting out to business in the morning feeling as if I had completed a day's work instead of being about to commence one I started out in good spirits, feeling feels and strong. My wife and various friands, to whom I recommended the medicine, have been besettled greatly, and in fact "Paine's Celery Compound is a household word in our family." Tenders will be received by the Lady Tenders will be received by the Lady Superiores of the City Hospital for the purchase of the whole block only up till the 31st of December, 1890, reserving the right to accept or reject any tender.
