THE DUNDAS BANNER.—That staunch old Reform organ of Wentworth county, the Dundas Banner, last week appeared enlarged to an eight-page paper, with seven columns to the page, printed from new type, and looking as bright as a silver dollar. The Banner was always a good newspaper, and it is evidently improving and growing better as the years roll by.

MORE DUTY.—The duty recently put upon printing paper by the Dominion Government, most of the finer grades of which are imported from the Old Country has increased the cost of envelopes. We will however, continue to sell them printed or unprinted, by the box or thousand, at the same low prices as before. Call and see our stock at THE SIGNAL.

IMPORTATION OF GLASS.—R. W. McKenzie of the cheap hardware house, Goderich, has just received a large import order of glass direct from Germany, at a very low price, and is prepared to supply the trade at better prices than were ever made in Goderich before. It will pay every person using his goods not only to buy glass from him, but everything else if he likes.

Balcher has removed from his old stand to the new and commodious brick building just erected on Hamilton Street by George Sutton, where he will be prepared to supply all old customers and new ones also with first class values on bread, cakes, biscuits, and confectionery. The new premises are so arranged that he will be able to better attend to the requirements of his customers than heretofore.

ANOTHER CHANGE.—A partnership has been formed between Frazer & Porter and A. M. Kay, the post office deputy, and the new firm has bought out the lurie stock from Berry & Sheppard, and will carry on the book and stationery business in connection. The old members of the firm are well known, and we can heartily recommend the new partner as a thoroughly reliable young man, and a business pusher. See their large announcement.

BENEFIT OF ADVERTISING.—A couple of weeks ago Thos. Healey, of Quebec St. lost a cow and spent about a week in a fruitless search. Friday last an advertisement for the strayed animal was inserted in THE SIGNAL, and the same afternoon information was given by the advertiser, by a person who had read the advt. If Thos. Healey loses another cow he will make an early visit to the newspaper office instead of going on a fruitless hunt.

BY LAND TO THE POINT FARM.—The choir of Knox church took Swart's big band van Wednesday afternoon last, and drove to the Point Farm, where an impromptu program was arranged which was filled to the letter. At the close an address was given by Mr. McWilliams, which was much appreciated. The meeting was brought to a close by a vote of thanks to Mr. Wright, the proprietor, neatly replied to by that gentleman—and the singing of "Auld Lang Syne."

LACROSSE.—A match game of lacrosse, one of the Western District championship series, will be played on the grounds, Goderich, next Wednesday, July 6th, between the Stratfords of Stratford and the Huron's of Goderich. The ball will be faged for at 2:30 o'clock, and an exciting game is looked for as both clubs claim they have it on the other. There will doubtless be a large attendance at the grounds on the occasion, as a Stratford excursion is coming up to encourage their boys. Admission to grounds 10c, children 5c.

GRANITE AND MARBLE WORKS.—Wilson Bros. have opened out a new granite and marble works two doors east of the old building on the corner of the shortest possible notice, in their line at the highest style of the art. In addition to the regular business in monuments, they are prepared to furnish mantelpieces and all kinds of house trimmings such as window sills, door sills, &c. Already they have turned out some creditable work in this section, and seem determined to hold their own and make a name amongst the best in the marble trade.

FROM THE OLD COUNTRY.—Mr and Mrs S. H. Anstey, of Keynsham, Bristol, Eng., are the guests of Mr E. Downing, Angles-ast. They arrived by the steamship Vancouver, of the Dominion line, in company with Miss Downing, who returned home after about a year's residence with friends in the old country. The voyage was a good one, and but little rough sailing was experienced. The steamer reached Quebec Saturday evening, and the party took train for Montreal where they stayed over on Sunday, and then took train for Goderich, where they arrived safely at 3 p. m. Tuesday.

A TRUE BILL.—The following from an extensive and reliable source, who has been reading his evenings at home reading newspapers, the local news of his own town and country and general news of the day, or in reading some useful book, will certainly make a better man than the boy who spends his evenings on the streets and loafing places where the town gossip is dished out in the most vulgar and profane manner. The tastes of our boys may and should be so directed and cultivated as to lead them by choice to engage their evenings in this profitable way, and fewer criminals and drunkards would be the natural result.

REGULAR BOARD OF TRADE MEETING.—The council of the board of trade met in the council chamber on Friday evening Joseph Williams, president, in the chair. The committee consisted of Messrs. Radcliffe, Sager, and Campbell was appointed to strike the following committees, viz: Manufacturers, agriculture, finance, statistics, local improvements and correspondence. The executive and the committee on correspondence, were appointed a committee to report on the constitution and by-laws at the next general meeting of the board—July 13th. After the transaction of routine business the council adjourned at the call of the president.

OBIT.—Last week one of the newspapers of Huron passed away, after a long illness, in the person of S. W. Galbraith, for some years back editor and proprietor of the Wingham Times. Steve will be missed by the brethren of the quill who happens to stay over at the Junction Town, for he was a good-hearted, reliable young fellow, and a thorough-paced newspaper man. He will be missed by the Reformers of the section, for a more conscientious or vigorous exponent of Liberal principles never controlled the utterances of the quill than his widow's child have our sympathy. Peace to his ashes!

"HARPER'S" FOR JULY.—A new series of Spectator articles has been published with the heading, "Here and There in the South." The writer, Rebecca Harding Davis, weaves into a bright story form the narrative of a recent trip from Washington through the Gulf States into the Acadian country. Special attention is given to the prominent aspects of industry, thought, and life which characterize the "New South." This first instalment, in which the party journeys to Montgomery, Alabama, graphically depicts the violent contrasts between the old condition of things and the present. The entire series is so beautifully illustrated by William Hamilton Gibson from material collected on a special tour for this purpose, and the engravings in this part demonstrate that the value of the text will be greatly enhanced by the artistic illustrations.

THE ASHFIELD CHEESE FACTORY CASE.—Some two years ago Thomas Frazer put up a cheese factory near Kintail, under an alleged agreement with a number of farmers in the vicinity that they would support him with 250 standards of milk for three years, each of them to contribute a certain number to make up the required amount. The factory was put up, but some dispute arose, and a number of the farmers refused to contribute the delivery of milk. Mr. Frazer claims that he was put to a very heavy loss, and he brought an action for specific performance at the spring assizes, when Mr. Justice Gait dismissed the action on the ground that it was of a trivial nature. This decision has recently been reversed by the full chancery court, which held that the case was a perfectly proper one to be brought in that court and should have been tried on its merits.

John Bain, of Clarke's fishing fleet, was in town during the week. He looked well, and said the boys were all doing finely.

TO THE "POINT FARM"—The choir of North-st. church and a number of their friends, on Tuesday evening, July 1st, Tuesday evening, Tenor-was took the crowd up, and there was a heap of melody on the waters. It took a long pull and a strong pull, and a mighty late pull and haul to get home, but they had a jolly good time, all the same. Wednesday morning the lake had calmed down sufficiently to allow the United Empire to enter the harbor.

HE IS EVIDENTLY LOADED.—The following is reported from Clinton as the result of an interview with Robert Porter, of Simcoe, by the railway committee of Clinton, and may prove of interest to our readers.—He stated that he had placed himself in the hands of the contractor and had been willing to forward the interests of any line they might advise him of. His own opinion was that the Guelph Junction Railway would be built to Lake Huron, the charter putting the terminus at or within ten miles of Goderich. As Goderich was the best harbor within that limit he doubt it was now going on for the purpose of deepening the approach to the harbor and extending and deepening the basin. Measures devised by the government engineers are to be at once carried out which will permanently prevent any accumulation of sand at the harbor mouth. The government engineer was here last week, laying out the work and gave orders to clean up the approach so as to give 18 feet of water in all directions. This is now being done, and within two or three weeks, vessels approaching, in any course, may count on 18 feet of water. C. SEAGER, Mayor.

A FREE TREAT.—Our citizens will be given a free literary and musical treat on Monday next at the Grand Opera House, it being one of the Caribbe Smoke Ball Company's series of entertainments. From the fact that the tickets of admission are free by applying to their representative at the British Exchange Hotel parlors, a large and select attendance may be anticipated. Children will not be admitted unless accompanied by parents. The programme will be confined to musical and dramatic literature without reference whatever to the caribbe smoke ball, "Dunbar," (Mr. S. T. Church), whose name is prominent in the programme is guarantee enough that the entertainment will be strictly first class. Dr. O. Olsen, of Brooklyn, New York, the boys representative will contribute largely to the evening's enjoyment by his dramatic readings, and delightful piano selections. The number of tickets are limited and those wishing to attend must see at once, as tickets cannot be obtained at the door.

THEY KNEW HIM BY THE STRAWBERRY MARK.—We wonder if the following, from the Mitchell Recorder, refers to Robert Fort, who was the subject of our Irish orator?—THE SAME BROWN:—We visited last week that there was some doubt as to whether the Brown who paid the town a visit last week, was the same Brown that exhibited so hard a physiognomy on the platform in behalf of the Tory party here in Goderich. The doubt arose because the fellow who was here last week was said to be sober. The doubt was on Saturday, however, completely, substantially and without reservation removed. The Brown that was here on Saturday was the same Brown that was here last winter, only it wasn't the same drunk. The Brown here last week was bigger by large odds than last winter's drunk. They both left town on Saturday night—both Brown and the drunk. They may both return again when they get the \$10,000 out of the Goderich SIGNAL.

KING SOLOMON'S DIAMOND MINES.—Julian Hawthorn, who ought to be a good judge, says of H. Rider Haggard's story of "King Solomon's Mines," "There is no story of adventure by Haggard that seems to be the popular verdict. Everybody is reading it or talking about it. Of course there are no end of editions published, from cloth bound at \$1.50 to the SEASIDE LIBRARY edition at 20c. And, as might be expected, the cheap edition of the "Library" series is the one which is being sold in abundance, and note the literary echoes to be secured almost "for a song." If you have never seen a catalogue, or have seen none recently, it is worth while to write a postal card and get it. Some extraordinary bargains are offered during the summer months. Address JOHN B. ALDEN, Publisher, 393 Pearl St., New York or Lakeside Building, Chicago.

KNOX CHURCH'S S.S. STRAWBERRY FESTIVAL.—A very pleasing entertainment was held in Knox church lecture room Tuesday evening last, the occasion being the annual strawberry festival in connection with the Sabbath school. A very pleasing program was rendered on the occasion, with strawberries and sandwiches in the forenoon. The choir was conducted by Mr. McWilliams in a most acceptable manner. Following is the program:—Chorus, "God Save the Queen," song; solo, "I'm O'er Young to Marry Yet," Miss Crabb; duet, "Lift to the Convent Bells," Misses McKay and Meldrum; reading, "The Polish Boy," Theo. Heidle; solo, "The Blind Girl to her Harp," Miss Bailey; recitation, "The Dying Street Arab," Miss Trueman; chorus, "All Among the Bar-

ley, choir reading, "No Sect in Heaven," Mr. Wilson; solo, "The King of the Land and the Sea," Mr. T. Heddie; recitation, "Praise ye the Lord," choir; reading, "George Washington," Mr. Straun; remarks or address, Dr. Ure; anthem, "O, Praise God in His Holiness," choir. The net proceeds amounted to \$23.90.

SOMETHING ABOUT OUR FISHERMEN.—The following, from the Warton Echo, refers to the business done in that section by the Messrs. Clark & Co., of Goderich.—The following figures will show something of the business done here in the fish trade by Messrs. Clark & Co., who started a business here a few years ago that has increased until they are now the largest shippers in the Dominion, and which is all centred at this point. The amount shipped each week is at present 100,000 pounds which will be increased in a few weeks to about 150,000, as a quantity of fish that has heretofore gone by the way of Collingwood will now be handled by this company and shipped from here. They keep at present five steam boats employed, four of their own and one chartered. One hundred and twenty five men are employed to do their work. Their expenses each week, including wages are about \$1200. A greater portion of this amount is spent here as the majority of their men have families who get their supplies at this place. The most of the fish are salmon trout with a small percentage of white fish.

JOHN IS A WRESTLER, TOO.—John Macpherson, formerly of Kintail, and lately of Winnipeg, the champion shot-putter, arrived in town Wednesday morning last on the United Empire from Sarnia. He is going to be present at the Caledonian games today (Friday), but having met with a severe accident at Marquette, does not think he will do more than hold his own. His trouble occurred this way: He was on his way to Ontario from Winnipeg, and at Marquette some of the friends of Harry James, the famous Cornish wrestler having got in tow with Macpherson, got on a match between him and James for \$200 a side and gate-money. When the men stripped, James tipped the beam at 202 lbs and Macpherson at 185 lbs. Notwithstanding the disparity in weight Mac. succeeded in taking the first two falls. In the next bout James got what is known as the "back hammer lock" on Mac, and the latter, to avoid the fall, turned on his right shoulder. His adversary fell with his whole weight upon Macpherson's left shoulder and injured the shoulder blade. It was eighteen minutes before Macpherson was able to face the music for the fourth bout, but at the end of that time he came up gamely, and although suffering from the disabled shoulder, succeeded in "downing" his adversary, thus winning the match by best three out of five falls. Mac. still wears a strengthening plaster on his neck and shoulder, but those of our readers who will see him on the ground today will discover that he is a witty cripple, all the same.

FAST TIME.—The steamer Belle Wilton unloaded lumber from the Saginaw River twice last week for Secord & Co., and then took on a full load of hay and arrived in Goderich harbor at 12 o'clock Wednesday night. This time can't be beaten. A. Bogie, the commodore, thinks he would make more money if he could burn fog for fuel.

Auction Sales.—All parties getting their sale bills printed at this office will get a free notice inserted in this list up to the time of sale.

Auction sale of lot No. 1807, Goderich, at Martin's hotel, by John Knox, auctioneer, at 11 o'clock a.m., on Tuesday the 24 day of August, 1887. For further particulars see posters.

Ben Miller.

Mrs. T. Slattery is visiting friends in Detroit.

J. Roissier returned home from London last Saturday, after making a stay of two or three days. He says the crops in that quarter, though good, are not equal to those in this section.

The strawberry festival which was held here on the Queen's jubilee day, was very well attended. It was served from half past four till all were satisfied after which the young folks amused themselves by playing games. There was also a program of suitable choruses, duets and solos, which were very creditably rendered by the scholars and ex-pupils of the Ben Miller Sabbath school.

Goderich Township.

Holmesville, June 20, 1887.

Council met to-day pursuant to adjournment, members all present, except the reeve. The minutes of last meeting and special meeting were read and passed.

Mr. Wm. Herbierson, presented a petition from G. Elliott and others, asking a grant of money to assist in erecting a wire fence near Mr. Herbierson's, where the road becomes badly drifted. Moved by T. Churchill, seconded by J. McClellan, that the aforesaid petition be laid over to the next regular meeting of council.—carried.

The members of the council endeavored to come to an understanding, so as to establish a uniform basis for the inspection of trees under the tree planting act. After a long discussion the result was that the strict letter of the law must govern the inspector in all cases, owing to the absence of the reeve, several matters of importance were laid over. The council adjourned to meet again on the second Monday in August. School trustees are requested to send in their applications for local school tax by that date, as the trustees' several sections are generally late.

A special meeting of the council was called by the reeve for June 11th, respecting the roadway to Holmesville bridge. The council were to have given \$125 towards the old road.

This motion was cancelled, and a grant of \$185 made: this is all the township has to pay in connection with the new road, Messrs. Baer and Foster binding themselves to all incidental expenses that may arise, or that have been already incurred, beyond the sale of the old road and the above sum and the grant from the town of Clinton.

JAMES PATTON CLERK, 102-4

The farmers throughout this county seem favorably impressed with the prospects of an abundant harvest. The apple crop is not so large as last year, but there will be a good supply of plums. Peas promise to be plentiful.
