

SAUCE

is made in England, in the world's largest Malt Vinegar Brewery

It has a new and delicious flavour, different—quite different—from any other sauce or relish you have ever had before.

Stores are selling H.P. here.

Business People Complain.

Business people located in the extreme West End, between Job's St. and the Cross Roads, complain that they are put to great trouble and inconvenience by drunks and disorderly characters who wander into their stores, generally when they are very busy. One scamp visited a grocery in that vicinity Tuesday and conducted himself in a disgraceful manner before some female assistants, while his language was horrible to hear. A policeman is badly needed in that section of Water Street, and we believe that if the matter is brought to the notice of the Inspector General he will have it promptly attended to.

Wedding Bells.

Last evening at the R. C. Cathedral a pretty wedding took place, the contracting parties being Mr. John Donovan, turnkey, Water Dept., and Miss Johanna King, the ceremony being performed by Rev. Monsignor Roche. The bride, who was tastefully attired, was assisted by Miss Annie Toucher, whilst the groom was ably supported by Mr. William O'Brien. After the knot had been tied the wedding party drove to their future home, Gear Street, where refreshments were partaken of, and songs and other amusements indulged in until midnight. The Telegram wishes Mr. and Mrs. Donovan a happy wedded life.

Codfish \$7.

Monday and Tuesday at least three city fish dealers paid seven dollars per cwt. for No. 1 Merchantable fish which is excellently cured. Not often before has the staple gone up to this figure, certainly never in years gone by, though about 3 years ago when there was such a demand for cod small lots were sold at that figure. Men who watch the market keenly believe that this figure will be exceeded in the near future.

MET SERIOUS LOSS.—One of the men who recently joined the Naval Reserve yesterday lost \$50, money which he received from the fishery. Whether he lost it on the ship or on the street he is not certain, but the matter is one of great concern to him.

HARD TO LEARN
Takes Hard Experience to Teach People Some Truths.

Many people jeer at the idea that tea and coffee cause the aches and ails they suffer from and often such people will go on for years sticking steadfastly to tea and coffee and suffering month in and month out but maintaining "Tea and coffee don't hurt me."

Only an actual test will open their eyes to what they throw away when they cast aside the richness and power of health for a cup of tea or coffee now and then. A lady says:

"I did not learn the real truth until I made the change, but I can now positively state that the headaches I had for about seventeen years were caused by drinking coffee for when I changed and gave up coffee and used Postum in its place I experienced entire relief. I have not been troubled with headache since I began Postum."

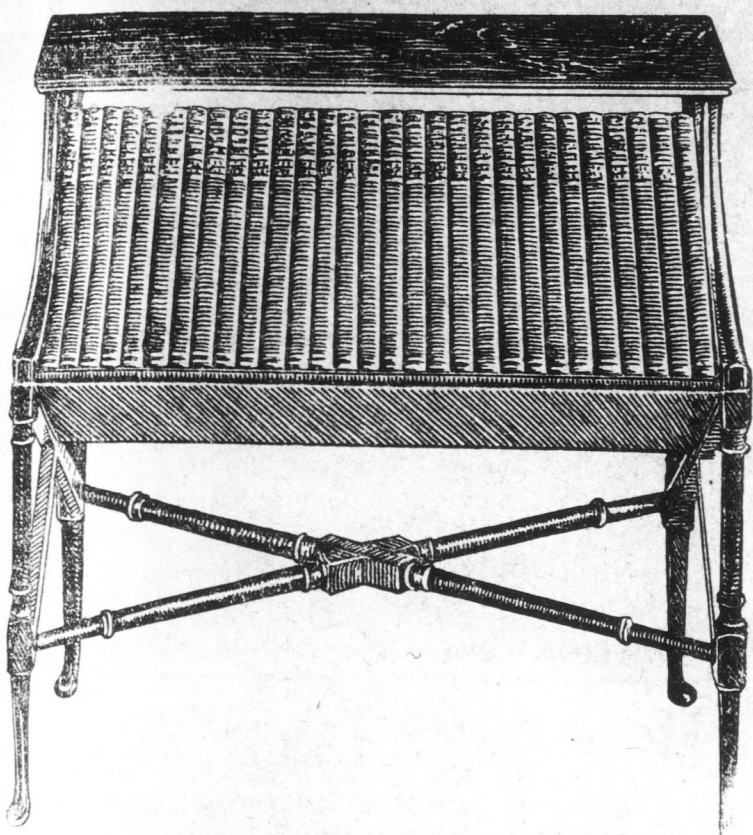

This, in brief, has been my experience on the coffee question. Among my friends I have seen many other wonderful instances of the power of this food-drink when used in place of the drug-drink coffee. Among my friends there are those who tell me of relief from kidney trouble, neuralgia and eczema by leaving off coffee and using Postum and I have even known it to ease rheumatic pains in limbs.

I readily believe these statements for since I cut out coffee and used Postum I never seem to have an ache or pain and I would not dare go back to coffee again. Not only myself but my family use Postum exclusively and we know there is no hot beverage that can take its place.

Nearly seven years steady use of Postum convinces me I know what I am talking about when I say it is a food as well as drink, and most valuable to build up the system. Name given by Canadian Postum Co., Windsor, Ont.

Windsor, Ontario, Canada.

The titles of only 56 out of 40,000 articles will give some slight idea of the infinite variety of subjects, great and small, contained in the new, 11th, edition of The Encyclopaedia Britannica.

The new edition, the 11th, of the Encyclopaedia Britannica, India paper impression, in a mahogany bookcase. The outside measurements of this bookcase are: 33 inches high, 15 inches deep, 36 inches wide, and the net weight is 18 lbs.

The special terms of subscription now offered in Newfoundland will be withdrawn shortly, and the prices charged for the new ENCYCLOPAEDIA BRITANNICA will be advanced by not less than \$10.00.

In announcing before publication the forthcoming issue of a new edition (the 11th) of the Encyclopaedia Britannica, the Cambridge University Press invited applications, in advance of publication, at specially low prices. These terms were withdrawn, and the price advanced in the United Kingdom, in Canada, in the United States and in India upon May 31st last, when the 28 volumes of text and 29th, or Index Volume, were published and in course of delivery.

The price now higher in the United Kingdom than in Newfoundland.

The advantage of the low prices, it was felt, should not, however, be withheld from other dominions of the British Empire, or, indeed, from any place inhabited by the English-speaking peoples, to whom the Encyclopaedia Britannica especially appeals. It is, therefore, with the purpose of placing the reading public of Newfoundland in the same advantageous position in regard to price that was enjoyed by others up to May 31st last that these special terms of subscription at low prices are now offered. They will only remain in force for a short period.

A cheap book at the present price.

The book is now, therefore, at its cheapest, and the present low price may be more easily afforded by all owing to the institution of serial payments. \$5.00 is all the immediate outlay that is required to obtain delivery of the 29 volumes, and after they have been received purchase may be completed in monthly payments of the same small amount.

Prospectus, 56 specimen pages, printed on India paper, 4 illustrations and full terms, post free on application. Tear off this coupon and post to:

The Cambridge University Press Board of Trade Building, Box 990, St. John's, N. F.

WASHINGTON, Nov. 1.
The independent republic set up at Canton, China, a few days ago, had a short life. Williams, American Ambassador at Pekin, informed the State Department to-day that the Viceroy and other Imperial officers absolutely refused to recognize the newly proclaimed republic and as the troops of Canton decided to remain loyal to the Throne, the new republic perished.

With a view to bringing the war with Turkey quickly to an end, the Italian Cabinet has decided that the Porte must accept peace or lose more territory. This means some of Turkey's valuable island possessions in the Mediterranean will be seized, unless Turkey submits to her fate.

Special to Evening Telegram.
ALEXANDRIA, Nov. 1.
Reports of Turkish victories in Tripoli resulted in a tumult here. At one time the disturbance threatened to be serious. The natives turned out in thousands and shots were exchanged. One native was killed and fourteen were wounded before the rioting ceased.

Notes on the Hr. Grace and Carbonear Districts Exhibition.

The Exhibition was opened at 3 o'clock yesterday afternoon by the Premier, Sir E. P. Morris.

A visit to the hall was a surprise to citizens and visitors alike. The hall had been beautifully decorated showing to advantage the many excellent specimens of vegetables, etc.

Mr. Norman Mann, who had general supervision over the whole Exhibition, made no mistake when he engaged Mr. Ron. Walsh, carpenter, to put up the stands, &c., so that the various exhibits could be seen to the very best advantage. A quick glance around the hall and Mr. Walsh had his plan made, and although his work is covered over with beautiful vegetables and other exhibits, it is plain to see that the right man was in the right place.

Mr. Mann and all his helpers did remarkably well, and although such a large amount of difficult work was before him and them, still we have yet to hear of even one person being dissatisfied.

The fancy work by the ladies of the districts is very much admired; even some of the most clumsy men, who could hardly be expected to give a passing thought to such excellent work, could not help stopping to admire it, while the ladies were just delighted to admire and speak about it.

The fruit, too, was excellent, and so good did it look that many people could scarcely believe that such could be raised in this country.

Poultry of all sorts could be seen, and the clatter of the different birds made quite a commotion.

Pigs, old and young, are on exhibition to-day in the grounds, as well as a large number of cows, calves, horses, &c. A very large number of people from the two districts are in town, as well as many from other districts.

We will endeavor to secure a full list of the prizes given for another issue of your paper.

Police Seek Woman.

Shortly after 7 p.m. yesterday Mrs. Jarvis, who lives at the Battery, came to the police station and reported that an old woman named Lowe, who is upwards of 70 years of age, was missing. She was homeless and people in that section gave

her shelter and sustenance at intervals. The woman has periods of mental trouble, and after spending a short while at Mrs. Jarvis's house she vanished and could be found nowhere about. Taking lanterns, Constables Stamp and Kelly went to the Battery and searched flakes, stages and wharves, but could find no trace of the woman. Some fear that in the

darkness she went overboard and was drowned.
