Farming One's Self Properly.

BY RUTH CAMERON.
tremendously suggestive.
Do you know what intensive cultivation is?
The other day I heard a man lecture on agriculture and he had a great deal to say about intensive cultivation. And this is what it means.
In days gone by there was so much spare land that men could just scratch the surface of the earth and get plenty to feed the world. But the world is growing very fast. The spare lands are rapidly being taken up and by and by, if we kept up the old-fashioned methods, there wouldn't be enough food to go around. This is where intensive cultivation comes in. It is the science of making the most of every inch of ground by a thorough study of its possibilities and by the use of modern methods. It is the opposite of extensive cultivation. Extensive cultivation means that when you want to produce more you cultivate another acre. Intensive cultivation means that when you want to produce more you make one acre do as much as two.
You have all heard of the efficiency movement in manufacturing. Well intensive cultivation is the country cousin of efficiency engineering.
And now, you are wondering what has all this to do with me?
Well, in the first place, I think it's a tremendously interesting movement in itself, and in the second place it is

TWENTY YEARS.
Makes a great difference in most women. They are troubled with "nerves"—they suffer from headache, dizziness, a sensation of irritability or twitching, hot flashes, dizzy spells, or many other symptoms of female weakness. The local disorder and inflammation should be treated with Dr. Pierce's Lotion Tablets and the irregularity and weakness of the female system corrected and strengthened with Dr. Pierce's Favorite Prescription. The strain upon the young woman or the woman of middle age—upon the nerve and blood forming structures—may be too great for her strength. This is the time to take this restorative tonic and strength-giving nervative and regulator. For over forty years sold by druggists for woman's peculiar weaknesses and distressing ailments. The one remedy so perfect in composition and so good in curative effects as to warrant its makers in printing its every ingredient on its outside wrapper. The one remedy which absolutely contains neither alcohol nor injurious or habit-forming drugs.
Following letter selected at random from a large number of similar ones and cited merely to illustrate these remarks:
"In the winter of 1908, I became greatly run down and haggard," writes Mrs. Henry Scott, of Swan Creek, Mich., Route 1, Box 46. "I slowly but surely grew worse, and at last, resolved to apply to the doctor for help. The doctor said I had inflammation, enlargement and laceration, and was in bad eleven weeks and got no better. The doctor said I would have to have an operation, but that I would not listen. My husband purchased two bottles of Dr. Pierce's Favorite Prescription. When I started to take this remedy I could not walk across the room, but after I had taken three bottles I could feel myself gaining, and I dropped the doctor and took Dr. Pierce's Favorite Prescription. Only for it I think I would have been dead—I really believe it saved my life. I feel better now than in twenty years."

Fashions and Fads.

Some of the new fur coats have collars and hoods—a concession to the constant use of the automobile.
The woman who chooses one-piece dresses and a long coat for her winter outfit cannot go wrong.
Taffeta evening dresses have simple draperies of chiffon caught on the skirt with clusters of flowers.
The flowing frill effect for long sleeves are as much liked as ever. Usually, they are of lace or net.
Chinchillas with plaid back are seen for long, straight street coats. Boucle cloths are also favorites.
Some of the new chiffon blouses have a basque effect, the basque formed of tabs of chiffon embroidered.
A French novelty called "wet cat" is a plush-like velvet, with a finish which gives a mottled effect to the pile.
A pretty double-faced tweed is being used for autumn top coats. Many of them are three-quarter length.
Small braid ornaments made of a satin loop and button effect are used for decoration of suits and serge street dresses.
For hair ornaments, half bands of velvet or jewels extend across the front, and are hidden in the hair at the side.
Heavy silk tassels are seen on some of the new suits, finishing a cuff point or a skirt drapery, even on draped revers.
Some of the new silk volles are interwoven with patterns in gold and silver thread, and bright color on a white ground.
For serge and cloth suits, shirt-like waists developed in satin are much worn. A color to match the suit should be chosen.
Some of the newest Paris coats are knee length, and actually show some fullness. The sleeves are apt to be bell-shaped and flowing.
Fur trimmings on evening coats are all the vogue. Fox, skunk and mole are much used; with marabout and mouflon for cheap grades.
In raincoats, mannish styles predominate, with raglan or regulation coat sleeves. Many made of homespun look like ordinary walking coats.
Capes, moires, fashines and damasses all on fallie grounds. All these effects are also seen on crepe de chine grounds.
Many beautiful silk fabrics are extremely oriental in character, showing Japanese, Chinese, Hindoo, Turkish and Persian effects. Metal threads, gold and silver, are introduced.
City of Sydney Sailed.
The S. S. City of Sydney, Capt. Fraser, sailed at 6 o'clock last evening for Montreal taking the following additional passengers:—Miss May Carroll, Mrs. Blackadar, Mr. and Mrs. Sloan, Mrs. Pope, Miss Pope, Mrs. McMeikle, J. Hoskinson, Mrs. A. Scott, Miss Scott, W. Springford and wife, J. B. Parvill, J. D. Nicholson and ten in steerage.

Lots of Beautiful, Glossy Hair, No Dandruff—25c. 'Danderine.'

HAIR COMING OUT!—IF DRY, BRITTLE, THIN OR YOUR SCALP ITCHES AND IS FULL OF DANDRUFF—USE "DANDERINE."
Within ten minutes after an application of Danderine you cannot find a single trace of Dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.
A little Danderine will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.
Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself, tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

Complains of the Glencoe

NOT CALLING AT LAPOLE.
Editor Evening Telegram.
Dear Sir—Kindly find space in your esteemed paper for a few remarks concerning the way we people are handled around here, by especially the mail steamer. When Capt. Drake and others were on this coast it was very seldom that LaPole was omitted, but now if any place is passed it is LaPole. Sunday, the 20th inst., the Glencoe passed here. It was foggy when she was off here, but when she was about 5 miles from here (to the west) it was as fine as possibly could be and the Glencoe was sighted from West Point, why did she not return? Here there were four passengers waiting four days who had to go home without doing their work. One man lost nearly \$10, another a similar amount owing to this.
It seems very strange to see that LaPole is always omitted if any LaPole is an important port as there are five or six small places trusting to LaPole for the shipping and receiving of their goods. On the 20th inst. when the Glencoe passed here we all knew that she had to get to Port aux Basques by midnight which she had plenty of time to do if she returned. I have been informed by the telegraph system that the Glencoe left Rose Blanche at 5 p.m. Sunday; being comparatively fine why did she not then return and deliver freight and take passengers who were waiting? She would have been in Port aux Basques then in time to coal, etc.
Hoping to see in future that regulations will be better and that the Government will try and help us a bit re these circumstances.
I am, on behalf of the people of LaPole and suburbs,
Yours truly,
OBSERVER.
P.S.—Tory times are tough times and we ought soon get a change.
LaPole, Oct. 26th, 1912.

In the Winter.

Grim winter is a time of dread to people who are shy of bread, who hear the wolf before their door, and have no credit at the store, whose children cry in vain for soothie to their painful stomach a ch e. Alas, that some must suffer thus! Alas, that some must groan and cuss, when from the North the winter blast goes screaming and rip-snorting past! For when the shack is well supplied with flour, and bacon on the side, when we have apple pies and mince, gooseberry jam and peach and quince, and coal and cordwood by the ton, and in the clock a roll of mon, then winter is a thing sublime, with all its snow and sleet and rime. To sit beside a cheerful fire, and read a book or puch a lyre, and hear above the household din the storm whooping past like sin,—that's solid comfort, such as Spring or Summer days can never bring. I hope that when the Winter comes, and old King Blizzard ups and hms, you all may know the peace and bliss of sitting by the fire like this! And if, while to the fire we tend, we think of hard up folks and send some pies or cordwood to the poor, our happiness will be more sure.

Woman Arrested.

—Last night the police arrested a woman who was under the influence of liquor. She was homeless and was taken in for safe keeping. This makes the third time within the past few weeks that this female inebriate appeared in Court.

IN THE YEAR 1932

how much will you have accumulated at your present rate of saving? Most men will have little or nothing saved if conditions are at all similar to those of to-day.
Every provident young man appreciates the wisdom of accumulating for his own benefit at least, and looks forward to an old age of comfort and enjoyment relieved from want and worry. And every thoughtful man endowed with manhood feels that a duty rests upon him to make some provision for others dependent upon him.
The safest, simplest and most profitable way to accomplish all this, and to be sure of a snug competency by the year 1932, is by investing in a Canada Life Endowment Policy for \$5,000 or \$10,000, according to your means and requirements. The policy can be bought on easy instalments and facilities are provided to assist in carrying and enjoying the insurance.
Send in your name and age and let us submit to you a good proposition.

Handsome Coats and Suits

Just received from the best of the present day makers. The Coats and Suits in the shipment just opened up are quite out of the ordinary.
Stroll through our Suit and Skirt Department; note the new Fall styles. The department is fairly sparkling with pretty new designs. The display is the most complete and quite the best we have ever shown.
U. S. PICTURE and PORTRAIT CO.

Drowning Accident Barely Averted.

At Bell Island, on Saturday evening, a drowning accident was averted by the prompt action of one of the residents. The steamer Othar was hauling into the wharf at the Beach when one of the passengers, an Irish pedler, attempted to jump ashore and in doing so missed his footing and fell into the water. As the steamer was mooring, the position became a very perilous one, and it seemed as though a fatality was imminent, when Mr. Patrick O'Brien, who was standing on the wharf, ran down the pier steps and succeeded in gripping the drowning man just as he was sinking for the third time. He was then hauled up on the wharf, stimulants administered, and although unconscious, he speedily revived. The incident caused quite a sensation.

Look at the Wheat!
There's a deal to know about wheat. If I didn't select the wheat I couldn't guarantee the flour. Cream of the West Flour comes from Cream of the West Wheat. And it certainly does make good bread!

Cream of the West Flour
the hard wheat flour guaranteed for bread
You just try it. If it doesn't give you right down satisfaction your grocer pays your money back. That's the guarantee with barrel.
