**City Fathers Meet.**

Executive Report on Street Car Accident From Government Engineer Hall — Collection of Taxes Being Forced — Who Wouldn't be an Impounder!

The weekly session of the Municipal Board was held last night. Mayor Gosling presided and all the other members of the Board were present. Mr. T. A. Hall, Government Engineer, through the Official Secretary, submitted an exhaustive report in relation to the street car accident, which occurred on New Dover Street, on Sunday, September 17th, last. The report contained the evidence of nine witnesses also stating that the cause of the mishap was due to the car getting beyond the control of the driver coming over Theatre Hill. Two recommendations were made by the Council to prevent a recurrence of the accident, one being that the line be extended to Queen's Street, and the other that all cars be stopped on the top of Theatre Hill near Bailey Street.

The collecting of city arrears was then talked of. The Secretary-Treasurer stated that strenuous and effective efforts were being made by three law firms. The Bailiff put the "broad arrow" on several properties during the past week and the result was that arrears due were immediately forthcoming.

A cheque for \$508.12 was forwarded by the Horwood Lumber Company as settlement for installing water service by the Council, the Company having deducted \$18.01 from the bill sent them. The Office Committee, Councilors Ayre and Brownriggs, had already awarded the Company a rebate of \$69.12, but no more, and this decision was upheld by the Board last night.

The Public Works Department offered to contribute towards the extension of the sidewalk on Duckworth Street. The work will be continued next year.

The gravel and stones piled near the gate of Mr. G. Hutchings, on Portugal Cove Road will be removed.

Mr. J. J. Duff complained that he was excessively taxed on bowling alleys. He was charged \$10 an alley and asked that it be made \$5, as the falling off in the receipts warranted the reduction. Councilors Mully and Vinnicombe were ordered to enquire into the matter.

On behalf of Mrs. Macpherson, Mr. J. P. Blackwood stated that his client was satisfied to let the \$800 owed to her by the city and resulting from an arbitration remain at 7 per cent interest. This amount had been bearing interest at 3 per cent. The full amount will be paid off right away.

F. W. Bradshaw wrote asking that \$500, which was collected from Messrs Rhody and McDonald, Contractors, last year be refunded on the grounds that there was no Minute of Council authorizing the collection. Referred to Solicitor.

Monroe & Co. asked for repairs to a leaky hydrant, making the observation that the work would not cost the city more than "90 cents."

Mr. Stuart Pytzer, of Cabot Street, applied for water and sewerage under the Small-Homes' Act. Mr. Taylor impressed on the Board that he did not want his application treated as "a scrap of paper." The application was referred to the Plumbing Inspector.

J. Murphy, Pennywell Road, asked for directions re installing water and sewerage. There are no further directions.

H. Blatch's request to repair houses in College Square was referred to the Engineer.

Permission was also asked by a Mr. Hansen to install a welding and cutting machine, operated by acetylene. Applicant will have to communicate with the Chief of Police.

The Engineer was ordered to inquire into a complaint from Mr. J. Devolving of the condition of Temperance Street.

Applications from Conroy and Higgins to repair house corner of Brazil Square and Central Street, and from P. Mahar about embankment near dwelling on Circular Road were referred to the Engineer.

Before the meeting adjourned City Impounder Dessert presented a report of the results of his nocturnal operations. He had been asked for a report of all the animals captured by him from the first day of June last up to yesterday, but in his report the assidue impounder only stated what he had caught from the 1st of July, namely, eighty head of cattle for which he was paid \$160 in addition to his standing monthly salary of \$35 a month from the Council. He made no mention at all in his report about horses and goats. About these he will be asked next week.

**Turkeys, Ducks and Chicken at ELLIS.**

Potato soup makes a good and economical dish for lunch. Slice the potatoes as you would for frying; put them in a pan, cover with water and cook until tender; add milk and seasoning and the soup is made.
