the National agreement.

BILLIARDS.

A curious thing, of interest to all billiard players, happened recently in the all-in match that W. J. Peall, champion at the unlimited English game, played with W. Mitchell, in London, for \$1,000.

The players agreed to play 15,000 up all-in on even terms, between Monday, Feb. 2, and Saturday, Feb. 7. All through the week Peall, who was palpably unwell, was unable to do himself justice, except for a brief period on Tuesday, and consequently Mitchell, without doing anything sensational, took the lead at the outset, and, improving as he went on, scored more than twice as fast as his rival, so that on Friday night he was actually nearly 7,000 points in front at 12,501 to 5,613.

On Saturday, however, Peall recovered form in startling fashion, and in the evening had matters all his own way, for after scoring 123 he made 89, 281 (90 spets), 284 (84 spots), and wound up with a wonderful run of 1,043, which was still unfinished at 11:30 o'clock, and this contained sequences of 127, 83 and 173 spots. It was thus absolutely certain that the game could not be finished before midnight, as Peall was still in good position, and Mitchell wanted 741 to win. As, therefore, one of the conditions—that the match should start and finish within the week—could not be complied with, the game was declared drawn, and Peall, very luckily, will save his stake, final scores were: Mitchell, 14,259; Peall, 7,902. During the week Mitchell made 34 three-figure breaks, of which the best were 843, 801, 645, 705 and 650. Peall, apart from his unfinished run of 1,043, only made sixteen runs exceeding 100.

Macdonald Administration.

St. Johns, Nild., March 5.—Newfoundland is taking a deep interest in the Dominion elections. There is intense feeling against the Macdonald-Tupper Administration. The members of the Newfoundland Government confidently assert that a convention with the United States will be ratified after the Dominion election, whether Canada is included or not, but the Bait Act will be rigidly inforced during the coming fishing season. The Government here is so incensed against the Macdonald Government that the loudly declare they will not permit Canadian vessels to obtain bait on the Newfoundland coast. There is strong sympathy with the Liberal party, and in the case of their victory Newfoundland will make overtures for trade relations with the United States and the Dominion, giving free excess for bait. OTTAWA, March 5.—The fancy skating OTTAWA, March 3.—The landy saking contest here last night for the championship of the world resulted in a flasco. The entries only numbered two—Messrs. Louis Rubinstein and Geo. Meagher, both of Montreal. Rubinstein refused to compete for certain private reasons. The Governor-General, Lord Stanley, accordingly awarded the prize to Meagher. the prize to Meagher.

Australian Federation.

SIDNEY, N. S. W., March 5.—At the Australian Federation Convention yesterday, Sir Henry Parkes moved that a Federal Parliament be established, composed of a Schate and House of Representatives; that free trade be adopted throughout the federation; that authority to impose customs duties be vested in the Federal Government and in Parliament, and that the military and naval defenses be intrusted to Federal forces under one command. He appealed to the delegates to treat the Federal question in a broad spirit, losing sight of local interests.

Paid \$200 Aplece for Three Kisses. the Dominion, giving free excess for bait.

Sutcide Averted.

Buffalo, March 4.—Dr. George E. Fell has snatched another victim of poisoning from the grave by means of his apparatus for forcing respiration. Clara Bowen, a handsome woman of 30, and a student of medicine, residing with the family of Dr. F. A. Harrington, took fifteen grains of morphine in a fit of melancholy. Dr. Fell was called in, and after thirteen hours hard work restored her to consciousness, and she is now believed to be out of danger. Dr. Harrington performed tracheo tomy to facilitate the keeping up of artificial respiration. Hypodermic injections were also used to stimulate the heart's action, and natural breathing was finally restored. Miss Bowen has received a number of insulting letters from a woman who is said to be jealous of her for some reason. She has said since her restoration that she was mpelled to attempt suicide because she hought she had no friends.

Lived Nearly a Contury Without Water. The remains of Mrs. Katie Stuff, the oldest resident of Greencastle, Pa., were recently consigned to their last resting place. Mrs. Stuff, called "Aunt Katie," was almost 98 years of age, and up to within a few days of that event had not tasted water since she was a little girl. Aunt Katie, insisted that water wasn't, healtful, and drank tea and coflee only.

Fishing used to be one of her passions. Getting up early in the morning in summer time, she would fill the pocket of her dress with grasshoppers, fill it to keep them secure, and then, rod in hand, she would fill the pocket of her dress with grasshoppers, fill it to keep them secure, and then, rod in hand, she would fill the pocket of her dress with grasshoppers, fill it to keep them she would fill the pocket of her dress with grasshoppers, fill it to keep them she would fill the pocket of her dress with grasshoppers, fill it to keep them she would fill the pocket of her dress with grasshoppers, fill it to keep them she would fill the pocket of her dress with grasshoppers, fill it to keep them she would fill the pocket of her dress with grasshoppers, fill it to keep them she would fill the pocket of her dress with grasshoppers, fill it to keep them she would fill the pocket of her dress with grasshoppers, fill it to keep them she would fill the pocket of her dress with grasshoppers, fill it to keep them she would be she wi

A Startling Discovery.

LONDON, March 5.—It is reported in official circles that the British Government has conclusive proof that Gen. Boulanger which the standard with the standard standard with the standard standard with the standard s has conclusive proof that Gen. Boulanger and his supporters concocted a plot which resulted in the explosion of public opinion manifested against the Empress Frederick on the occasion of her recent sojourn in Paris. Lord Salisbury is said to be greatly incensed at the discoveries made.

Paris. Lord Sailsbury is said to be gested incensed at the discoveries made.

M. C. Conductors Discharged.

Detroit, March 5.—Six Michigan Central conductors were discharged on Tuesday. They are Nic. Hawley, who has been in the company's employ for 21 years; L. S. Rogers, 20 years; Charles Chambers, 19 years; E. A. Grosvenor, 25 years, and Charles Sperry and Abner Dyale for shorter periods. General Superintendent Miller said: "These men are as good conductors agever stood up in a railway train, so far as their professional ability is concerned. The men themselves know why they were discharged. They were given good and sufficient reasons."

Deluded and Destitute.

Gainesville, Tex., March 4.—During

Deluded and Destitute.

GAINESVILE, Tex., March 4.—During the past ten days some 300 negroes passed through this city en route to Oklahoma to settle there. Nearly all come from Eastern Texas and are a most distressed and hard-looking set, destitute of money, clothing, provisions, farming implements and everything necessary to prevent starvation and suffering in a new country. A white man from Oklahoma has been representing to them that they could secure a good farm at very little cost and has also sold to nearly every one of these migrating negroes a town lot for \$1 each. These lots were represented to be located in the heart of large towns and to be worth \$100. Every negro had a deed to some imaginary town lot.

Mrs. John McLean writes from Barrie Island, Ont., March 4, 1889, as follows: "I have been a great sufferer from neuralgia for the last nine years, but, being advised to try St. Jacobs Oil, can now heartily indorse it as being a most excellent remedy for this complaint, as I have been greatly benefited by its use."
