Decrease in Contributions.

Eagle Lake, Ind., May 23 .- The Presbyterian General Assembly yesterday was opened with devotional exercises Samuel T. Studdiford, of Trenton N. J. Among the papers referred to appropriate committees were four on organization of Presbyterian churches north and south. The regular order of the morning was the report f the board of ministerial relief, which in outline was as follows:

The receipts last year were \$160,856, and the expenditures \$182,264. While the permanent fund is now large, amounting to \$1,551,783, it was still the udgment of the board that it should e very largely increased, and the conributions from churches and indiviluals should also be greatly increased from year to year, for there was a steady increase in the number of applications for aid, and the aid granted should in many cases be much larger amounts now given for support of those under the care of the board. It was painful to notice that since the centennial fund was raised in 1888 the collections from the churche and Sabbath schools had been gradually falling off. In 1887-88 they raised \$98,922, in in 1896-97 only \$74,091, a de-

crease of \$24,631. The showing was all the worse since in 1888 there reported but 722,671 communicants, and in 1896 there were 943,-716. While the church was more than one-fourth larger than nine years ago, the collections were more than onefourth less. And what made the showing appear still worse was that in 1888 but 564 families were under the care of the board, and last year they had 835. The average gifts of communicants had fallen from 13 cents each to about 7½ cents each. The entire cash receipts from all sources, including interest, were \$197,995, a little less than 4 per cent of the sum being used
