#### ADVERTISER'S BOOK GIVES THE LATEST ABOUT EVERYTHING

That's One of the Excellent Features of The London Advertiser's Dictionary— The Last Is the Best.

The first is the worst,
The second the same,
The last the best

This may seem silly, but it is neverheless considered a serious matter to the youngsters who "count out" their games. Truly, the last is the best. Take it, for instance, in dictionaries. In inaugurating its educational campaign The London Advertiser sought far and wide for an accurate and authentic volume, containing something pesides the matter ordinarily confined to a dictionary. But an imporant consideration must be that the

volume be up-to-date.

The London Advertiser's search ended with Webster's New Illustrated Dictionary, because it is the very latest, beyond doubt.

It is not only the latest in words, out its illustrations include also many f the latest inventions, which heretofore have found place only in technical books and glossaries.

Two Pages on Aeronautics. Two pages of illustrations are devoted to aeronautics, and include biplanes and monoplanes, as well as the later types of dirigibles, clearly and ac-

curately portrayed. The color illustrations in The London Advertiser's Dictionary are all drawn by artists of repute, and as they are copyrighted they cannot be used in any other dictionary. Unusual features among colored plates are two pages of postage stamps from the most extensive collection in the world, of which the originals cost millions of dollars. These coprighted plates have never before appeared in a work of this kind, and it is safe to say that they cannot be duplicated.

The colored plates also include two full-page plates of wild and domestic food animals, plates of birds, fish, and an interesting page of kittens.

Comprises the Very Latest.
As heretofore stated, the last is the est, the main reason therefore being that the latest not only comprises all that has gone before, but additional acts, words and illustrations brought about by the progress of the world in
