### WALT WHITMAN.

His Leaves of Grass Declared Indecent and

(From the New York Sun.) Attorney-General Marston has decided that Walt Whitman's "Leaves of Grass" is an indecent publication, and that he has compelled Osgood & Co., the publishers, to give it up. Their edition first made its Husband—"Oh no, my love, I'll rap you appearance in November last, and more up well before you come down." than two thousand copies have already been sold, netting to Mr. Whitman about \$400. Mr. Marston informed Osgood & Co. that he proposed to commence a suit against them for printing the book, and they applied to the author to know if he would concent to the latest the control of the co don on June 14 or 15 next, in aid of the fund for the distressed Irish ladies. It should be said that, while the objections of Mr. Marston are undoubtedly well founded, there is nothing in the "Leaves of Grass" which is intended by its author to be indecent. He has a certain theory of realism in literature, and this theory he pursues with uncompromising resolution. much beyond the boundaries of ordinary ideas of decorum. But he is a man of genius, nevertheless. Some of his canticles are magnificent, peerless.

GENTLEMEN, -At the general election the helplessness of the Mackenzie adminis tration during the trying days between 1874 and 1878, and their refusal, on theoretical grounds, to give to Canadian interests that measure of protection which, as every practical business man saw, had become absolutely necessary, led me, preferring country to party, to abandon old political associations and support the statesmen who stood pledged to a protective
