

**"Nasal Respiration."**  
We should always breathe through the nostrils and not by the mouth, as the latter tends to weaken the lungs and produce inflammation of the throat and bronchial tubes. If you have already contracted any disease of the respiratory tract such as laryngitis, bronchitis, catarrh, asthma, consumption or catarrhal deafness which is produced by these organs, you should at once consult the surgeons of the International Throat and Lung Institute who make a specialty of these diseases and who use the syringe method invented by Dr. M. Souville of Paris, ex-adjutant surgeon of the French army, the only instrument by which medicated air can be conveyed to the lungs through the nasal passages and without the aid of heat. Handicrafts suffering from diseases of the lungs and throat are being cured monthly by these surgeons, who without the aid of this new and wonderful instrument the operation would certainly die.

This great institution which is daily increasing its magnitude now has 73 physicians and surgeons connected therewith and offices in London, Eng., Montreal, P. Q., Toronto, Ont., Detroit, Mich., and Winnipeg, Man.  
Physicians and sufferers are invited to try the instruments at the office free of charge. Persons unable to visit the Institute can be successfully treated by letter, addressed to the International Throat and Lung Institute, 13 Phillips square, Montreal, or 173 Church street, Toronto, where French and English specialists are in charge.

**The Bear Stories Begin.**  
North Hastings Place, Malco.  
A correspondent sends us the following from Millbridge: "Mr. James N. Clarke of Millbridge shot a bear last Sunday which was one of the largest ever killed in this place. His body was six feet long, and he measured one foot seven inches around the thick part of the front leg, two feet two inches across the breast, two feet six inches around the neck, one foot five inches from tip of nose to top of forehead, three feet four inches around the body, and weighed 308 pounds without the entrails. He was in the act of killing a cow when he was hit by a bullet when Mr. Clarke shot him. The bear was so badly hurt—having both shoulders broken—he had to be killed."

**Fashion in Ladies' Furs.**  
The large shoulder cape worn so much this year is again in demand this season. Dimeson, corner King and Yonge streets, show a great variety in different kinds, from the rich and costly seal skin down to the lower grades of fur. Ladies should look through their show rooms.

**"The Positive Cure."**  
Devlin's Astringent Anti-bilious mixture for biliousness, sick headache, constipation, etc.

—Scenes on entering drawing room: Lively visitor—What a beautiful suite of furniture you have got, and how nicely upholstered, it does credit to your house both as regards style and finish. Lady of the house—Yes, I am very well pleased with my suite; last week I had occasion to pass the upholstering warehouses of T. F. Cummings & Co., 349 Yonge street, I saw this suite in their window, the price only being \$75. I was convinced at once I could not do better elsewhere.

—At the Toronto exhibition, 1888, Mrs. Smith of Toronto took first prize for best shirt, made on a Wanzel "C" sewing machine. She took first prize for same work in 1880 and 1881 made on same machine. Another verification and corroboration of the light-running Wanzel "C" is ahead of all other makes. The public institutions of Toronto prefer the Wanzel to any other.

**Cataract—A New Treatment.**  
From the Weekly (Toronto) Mail, Aug. 25.  
Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the latest treatment of cataract. Out of thousands of patients treated during the past six months the fully cured cases number in the hundreds. This is not the case of the old treatment, when it is remembered that the disease is due to the presence of living parasites in the tissue. Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the cataract is radically cured and the penetrating is unquestioned, as cures effected by him two years ago are still so. No one else has ever accomplished cures in this manner, and no other treatment has ever cured cataract. The application of the remedy is simple and can be done at home, and the present season of the year is most favorable for a speedy and permanent cure. The majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 305 and 307 King street west, Toronto, Canada, and enclose stamp for his treatise on Cataract.

**AYER'S Sarsaparilla**

A highly concentrated extract of Sarsaparilla and other blood-purifying roots, combined with Iodide of Potassium and Iron, and is the safest, most reliable, and most economical blood-purifier that can be used. It invariably expels all blood poisons from the system, enriches and renews the blood, and restores its vitalizing power. It is the best known remedy for Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Itches, Sores, Boils, Tumors, and Eruptions of the Skin, as also for all disorders caused by a thin and impoverished, or corrupted, condition of the blood, such as Rheumatism, Neuralgia, Rheumatic Gout, General Debility, and Scrofulous Catarrh.

**Inflammatory Rheumatism Cured.**  
"AYER'S SARSAPARILLA has cured me the Inflammatory Rheumatism, with which I have suffered for many years."
