A PANACEA FOR IRELAND. Lord Lorne Formulates a Home Rule Scheme—A. M. Sullivan's Opinion.

LONDON, March 31.—The marquis of Lorne is treading in his father's footsteps as a sensational doctrinaire. He has come out as an advocate of Irish home rule, with a brand-new panacea for Irish discontent.

Lord Lorne's panacea for Irish discontent is a brand-new panacea for Irish discontent. He has elaborated it in a long article just published in the April number of the Contemporary Review.

SIR CHARLES DISPOSED OF

THE WHEEWASHING REPORT AD- OPTED BY THE COMMONS.

Condolence With Her Majesty.—The Govern- ment of Great Britain—A Rebate for Prince Edward Island Merchants.

OTTAWA, April 3.—In the house of com- mons to-day the report of the privileges and elections committee on Sir Charles Tupper's case was adopted by 107 to 55.

The address of condolence to her ma- jesty on the occasion of the death of Prince Leopold was passed after appropriate speeches by Sir John Macdonald and Mr. Blake.

Bills respecting enquiries into ship- wrecks, weights and measures and adul- teration of food were read a third time and passed.

The house then went into committee of supply and passed the estimates for steamship subsidies and miscellaneous ser- vices.

On item of \$5000 for expenses of govern- ment in the district of Keewatin, Mr. Mills called attention to the fact that dis- trict were now incorporated either with Ontario or Manitoba.

A long discussion took place on the item to repay certain Prince Edward Island merchants \$50,000 collected from them by the United States customs authorities on fish and fish oils previous to 1871.

Mr. Davies argued that it was unjust to exclude merchants, who were American subjects, from the benefit of this vote.

Mr. Leonard Tilley said it was only intended to reimburse British subjects for losses sustained by them owing to breach of faith on the part of the United States government.

Mr. Davies pointed out that on the list of persons to whom money was to be paid were American citizens. Chas. Hall and Myrick had done more to develop the fisheries of Prince Edward island than all others put together.

Mr. Blake said that the claim should be considered on its merits. He noticed that among the claimants for this money were two senators, friends and supporters of the government. The claim was certainly an invalid one, otherwise it would have been considered by the Halifax commission.

THIRTEEN PEOPLE PERISH.

A Steamboat Burst on the Chathamooche River.

COLUMBUS, Ga., April 3.—The steam- boat Rebecca Everingham was morning at the water's edge early this morning at Fitzgerald Landing on the Chathamooche River. The passengers saved escaped in their night clothes.

As the jury, reporters and others in- terested filed through the gate leading to the door of the dead house far distant in the grounds showed the place where Valeria McKinlay, the maniac murderer of Rachel Stephens lay dead, a bare room and a plain basement of the building and at the head of a long table sat Coroner Duncan, who had summoned the jury to inquire into the cause of her death.

After the jury had been sworn, Coroner Duncan briefly addressed them. He sketched the history of the recent asylum crime, alluded to the insinuations made regarding the conduct of the officials of the institution, warned them that this was an important case and required their close attention and then plotted them to the morgue where they viewed the body of the deceased. Her face looked wonderfully intelligent and she had the features of a woman far above the average line of beauty.

The jury returned to their room and Mary Curran was the first witness called. She is the supervisor of the reformatory ward. She is a big, muscular, black haired, athletic and stern looking Irish woman of about 22 years. The gist of her evidence was that after deceased committed the deed she was very much excited and was removed from the scene of the murder to the hot air room, to a smaller room next to it where she was locked up. Witness detailed the patient's state from that time until her death, the facts of which have already been fully given in this paper. The evidence went to show that the patient had been a paroxysm of madness passed off as withdrawal was due to a private dis- pute between herself and Mr. Lowell.

Mr. Lowell's evidence was that he had been in the room at the time of the murder. He saw the patient in a state of excitement and saw her strike the witness on the head with a brick. He saw her strike the witness on the head with a brick. He saw her strike the witness on the head with a brick.

There are already more horses nomi- nated for the May meeting of the Ontario jockey club than ever before appeared on any list of Canadian entries.
