Fluctuations in the Chicago grain and produce markets, as received by Drummond & Brown, are as follows:

ock Brokers, Estate and Financial Agents

The following was received from McCormack & Co., Chicago: The wheat market for the week winds up inactive and weak with bulls discouraged and bears aggressive. The present situation is singular. Foreign reports are unanimous as to damage to European growing crops, and several private cables from our correspondents at Paris, Antwerp and Buda-Pest convince us that the crops of France, Belgum, Austria-Hungary and possibly Russia have suffered severe injury from the extreme cold of the winter. Foreign markets are strong and advancing, thereby showing their belief in crop damage. Our American supplies will be needed, especially if we have a continuation of the strength abroad and yet our home traders are bearist, continue to hammer the market and will not allow our prices to be dragged up by the foreign outlook. We consider the situation bullish for the present in spite of the favorable condition of our grown crop at home. The market to-day was lower for corn, the trading being chiefly of a liquidation character, many buyers of the early part of the week preferring to close their trades over Sunday. Provisions were quiet and strong, although prices receded slightly before, the close of the session.

THE AGONY WILL SOON BE OVER, when the ballot will return patriotic men to the belm of affairs, so that the country can go on and prosper. Canada is too big to be tossed about like a billiard ball to please the selfish ambition of a few disappointed, jealous and spiteful men, whose recent movements have shown their recreant hand and the dishonorable card they would play against the country to advance their own selfish ends. Thursday's ballot will show how the people would rather stick to the old ship than be lured to Uncle Sam's back door in a traitor's boat.
