

# MAKE SHORT WORK OF MONEY BY-LAWS IN WESTERN ONTARIO

### Electors of Owen Sound Reject Two Out of Three "Industrial" Sarnia Votes Against Acquiring Street Railway At \$190,000

### W. J. CHRISTIE IS NEW MAYOR OF OWEN SOUND

### Ald. J. A. Willard Defeats Mayor McIrvine At Galt; Four New Aldermen Elected To Kitchener Council

### MAYORS ELECTED

GALT—J. A. Willard.  
OWEN SOUND—W. J. Christie.  
PETERBORO—J. J. Turner.  
SARNIA—G. A. Andrew.  
WATERLOO—William Henderson.

The unfavorable reception accorded money by-laws at the municipal elections was a feature of polling which took place in four Western Ontario cities and two towns yesterday.

Owen Sound pronounced upon three industrial by-laws. The Malleable Iron Company was granted a 10-year extension of fixed assessment, concurrent with rearrangement of its debt to the city, but the ratepayers voted down a proposal to grant 10 years' fixed assessment to one of its big industries, the North American Bent Chair Company. On a by-law to loan the Cereal Mills \$10,000, the voters decided evenly, 925 each way, which, of course, failed of the necessary two-thirds.

### WON'T BUY RAILWAY

Three money by-laws were submitted at Sarnia, where the electors approved purchase of incinerator furnaces, but decided against acquiring the holdings of the street railway, at \$190,000, and also voted down a proposed outlay of \$10,000 for a public lavatory. Sarnians, voting on referenda, also rejected the two-year term for aldermen, but approved earlier municipal elections.

Point Edward was almost unanimous for fixed assessment privileges to the elevator company.

Kitchener and Waterloo both approved creation of a commission to conduct the K.-W. Hospital, and Waterloo approved installation of a garbage collection system. Galt voted against free textbooks at the schools.

Ald. W. J. Christie defeated Ald. Wallace E. Dickinson for Mayor of Owen Sound. G. A. Andrew polled the highest vote in the field of four for mayor of Sarnia. Mayor J. A. McIrvine failed of re-election at Galt, being defeated by A. E. J. A. Willard on the assessment issue. Kitchener's mayor, J. J. Brethaupt, was elected by acclamation last month, but four new aldermen entered the Council as result of yesterday's voting. One, Charles E. Greb, an ex-mayor of the city, and another,

### THREE MORE DEATHS FROM LIQUOR IN N. Y.

NEW YORK, Jan. 1.—Taking toll of the events that make the aftermath of every New Year's celebration New York found today that four persons had lost their lives, eight had been wounded by pistol bullets fired by overzealous celebrators, and innumerable persons were made ill by bad liquor.

And yet the advent of 1924 was celebrated with fewer casualties than has been the case in the past.

Three deaths resulted from drinking bad liquor, bringing the total over the Christmas and New Year's holidays to 15.

"Nick" Amussen, a former M. L. A. for North Waterloo, William Henderson, reeve of Waterloo in 1922, defeated A. H. Cochrane by a big majority for the mayoralty.

GALT, Jan. 1.—While it has been customary in Galt to give the mayor two years in office, he generally receives the second by acclamation, the practice was departed from to-day and Mayor J. A. McIrvine, seeking re-election, was given a bad beating by Ald. A. E. Willard, who had a majority of 820.

The reason for this exception was the assessment question, Ald. Willard having entered general appeals against increases in the assessment all over the city in the past two years, and on both occasions was successful before the court of revision in having the assessment put back to that of the previous year. He made his stand on these two occasions his main platform, promising to reorganize the assessment department if elected.

While Mr. McIrvine came out of retirement a year ago to run for mayor, being successful against Dr. W. S. McKay, a member of the Council for several years and re-elected to-day as an alderman, the fact that there was a general increase made in the assessment this year went against him despite his good record otherwise in forcing a policy of economy. The electors to-day gave evidence that taxation is the big question of the day. Mr. McIrvine took his defeat good-naturedly, while his victor was quite happy, attaining the mayor's chair after serving two years as an alderman.

Of the three aldermen of last year's Council seeking re-election Dr. W. Burnet was the only one to be returned, which means that including acclamations, only five members of last year's Council, including the mayor-elect, will be found in the 1924 body.

The electorate emphatically disapproved a proposal to introduce free textbooks and supplies in the public schools, voting it down by 295 votes.

Results of the voting:  
For mayor—J. Irvine, 1,721; A. E. Willard, 2,241.  
For aldermen: Ward 1—Dr. W. S. McKay, 783; J. A. Purdy, 546 (elected);

J. S. Webster, 414; Ward 2—Dr. W. Burnet, 603; R. P. Macdonald, 510 (elected); G. Burgess, 444; Ward 3—A. Gandy, 482; G. Hutchison, 335 (elected); J. A. Head, 221; R. K. Zerviss, 190; E. M. Griffith, 152; C. Westervelt, 152.

For utilities commissioner: G. Hancock, 2,404; A. E. Buchanan, 2,980 (elected); H. G. Hannam, 1,485. Plebiscite on free textbooks: Yes, 1,732; no, 2,087.

KITCHENER, Jan. 1.—Four new aldermen, one a former M. L. A., and another an ex-Mayor of Kitchener, were elected here to-day. The new faces in the Council will be "Dick" Amussen, former M. L. A. for North Waterloo and a former alderman; Charles E. Greb, who was mayor in 1921 and 1922, but who was defeated last year by Mayor L. O. Brethaupt; Jester Bailey and Hen Sturm, the latter a well-known sporting enthusiast.

The defeated aldermen are R. G. Goffin, J. L. Holtz, R. Shantz and G. Vogelsang.

The aldermanic successful candidates were elected in the following order named: the leading candidate being the representative of labor: C. J. Massel, O. W. Thompson, L. Hagedorn, N. Amussen, C. J. Baetz, Charles E. Greb, C. C. Hahn, E. P. Clement, Fred Ahrens, George Bucher, W. O. Knechtel, Jack Bailey, E. E. Ratz, A. Armbrust and H. W. Sturm.

In the school board elections E. Emmerich defeated A. F. Kaufman in north ward, while in center ward S. U. Bean and J. E. Bilger were elected over S. Haliford, J. M. Hoelscher, defeated J. Reitz for the trusteeship of the south ward.

The proposal to have the Kitchener and Waterloo Hospital run by a commission was approved, 1,751 to 1,322. The \$68,000 by-law for equipping of the new city hall was passed, 1,422 to 570. There being no majority fight.

### OWEN SOUND.

OWEN SOUND, Jan. 1.—Ald. William James Christie will be chief magistrate of Owen Sound for 1924 by virtue of his victory to-day over Ald. Wallace Dickinson by a majority of 150 votes, polling a total of 1,560. It was a straight fight between two men, who both had years of experience on the Council and who are both highly esteemed in the city. The victory of Mayor-Elect Christie is attributed to the superior organization which he had built up for the campaign.

Of the three industrial by-laws two were turned down by the ratepayers. The concessions sought by the Malleable Iron Company, a 10-year extension of their fixed assessment and a rearrangement of the debt due the city by the company, were accepted by the ratepayers, with the necessary two-thirds majority. The vote on the by-law was: For, 1,788; against, 524. The fixed assessment for 10 years sought by the North American Bent Chair Company was turned down. The vote: For, 1,054; against, 815. The request of the Cereal Mills Company for a loan of \$10,000 was approved by 287 to 422 votes. It is the third time that Mr. Cochrane has gone down to defeat.

In the reeve's race, Louis F. Dietrich, last year chairman of the board of works, easily defeated Simon Kieffer, who was beaten for the third time in favor of the vote being 786 to 416 votes.

Both questions submitted to the ratepayers were favorably received, the Waterloo Hospital operated by a commission getting 776 votes, while 440 opposed it. The ratepayers were overwhelmingly in favor of establishing weekly garbage collection, the vote being 976 for and 251 against.

The vote was a very light one, considering the fact that the ladies voted for the first time. The led by a commission for the Council and the cold weather were causes.

and Richard Corbet. William Hoston was the only other candidate.

### POINT EDWARD.

POINT EDWARD, Jan. 1.—William Barrett was to-day elected reeve of Point Edward, defeating William Darbyshire, the respective totals being 296 to 177.

Point Edward school board—George Houser, 300; Norman Kirkland, 150; Howard Scarow, 122 (elected); Harry Manning, William Huggins, James C. Cross and Mrs. Mary Hamilton were defeated.

A by-law to grant fixed assessment at \$2,500 for 10 years to Point Edward Elevator Company, independent of school taxes, carried by a vote of 184 to 10.

### SARNIA.

SARNIA, Jan. 1.—G. A. Andrew succeeds Thomas H. Cook as mayor of Sarnia, winning to-day in a contest with Ald. George Lambert, Herbert Sanders and Harry Steel. Mayor-elect Andrew was chairman of last year's Finance Committee and has had a number of years' municipal service. The vote was: Andrew, 1,428; Lambert, 1,011; Steel, 699; Sanders, 115.

Twenty candidates contested the 14 Council seats, Joseph Dagan heading the poll. The vote was as follows: Dagan, 1,835; Robert Kerr, 1,687; George Gallaway, 1,549; J. C. Barr, 1,546; J. Donahue, 1,459; C. O. Peterson, 1,159; J. Scott, 1,107; G. C. Richards, 1,022; H. D. Turnbull, 1,227; John C. Hampton, 1,029; Robert Shirrett, 845; Walter Duffin, 835; Robert Kerr, 1,687; J. H. Sitterly, 823; C. A. McArthur, 694; Walter London, 594; W. T. Cook, 442; C. H. Cook, 319.

Four seats on the Board of Education were filled by acclamation at the nominations on December 22.

The four seats on the hydro commission were filled as follows: J. R. Henderson, 1,815; W. J. Barrie, 1,489; W. H. Knox, 1,432; O. P. Lewis, 1,042 (elected). John Knowles, polling 1,622 votes, and Robert Shaw, 941, were defeated.

There were also three referenda. Installation of an electric fire alarm siren was disapproved on a vote of 1,130 to 375. Adoption of the first Monday in December as date for municipal elections was approved, 1,603 to 894. The electors decided against election of aldermen for two-year terms, 212 to 135.

### WATERLOO.

WATERLOO, Jan. 1.—William Henderson, reeve of Waterloo in 1923, was to-day elected Mayor of Waterloo over Ald. A. H. Cochrane by 287 to 422 votes. It is the third time that Mr. Cochrane has gone down to defeat.

In the reeve's race, Louis F. Dietrich, last year chairman of the board of works, easily defeated Simon Kieffer, who was beaten for the third time in favor of the vote being 976 for and 251 against.

The vote was a very light one, considering the fact that the ladies voted for the first time. The led by a commission for the Council and the cold weather were causes.

## HILTZ DEFEATS TOMMY CHURCH

### Becomes Mayor of Toronto By Large Majority.

### SINGLE TAX IS DEFEATED

### Daylight Saving Wins At Toronto, Loses At Hamilton.

TORONTO, Jan. 1.—(Canadian Press Dispatch).—William Wesley Hiltz was elected Mayor of Toronto to-day by a decisive margin over the combined votes of Former Mayor T. L. Church, M. P., and Col. John A. Currie, M. L. A., the vote standing:

Hiltz ..... 44,059  
Church ..... 33,972  
Currie ..... 4,270

Majority for Hiltz over Church, 10,116.

There were no controversial issues. The fight turned largely upon the question of the right of promotion. Mr. Hiltz urging his claim on the ground of nine years' service in the City Council, he having been six years an alderman and three years a controller. He made economy in civic expenditures one of the chief planks of his platform.

Match was made by Mr. Church's opponents of the fact that he had already served seven consecutive years as mayor (1916 to 1921 inclusive) and that his duties as a Member of Parliament and in two years a controller, Catholic and a Labor man, though Toronto has never been partial to Labor candidates and is some times credited with being strong for the Orange state, he had the support of all the newspapers. His strength is said to be due to his ability to forget about vote-getting when dealing with public matters.

### HAMILTON.

HAMILTON, Jan. 1.—Sweeping the city Controller Freeman F. Trevelyan again headed the polls in Hamilton for the Board of Control to-day and Controllers Calvin Davis and John Tope were returned with overwhelming majorities. Controller E. J. Etherington was the only member of last year's board to go down to defeat. Ald. Wm. Morrison being voted into fourth position with a majority of over 1,000.

The daylight saving by-law was voted down by two to one. The by-law providing for a change in the election date resulted in a close division, with a small majority favoring the change. The by-law authorizing the construction of the Birch avenue sewer at a cost of \$260,000 was approved by a three-to-one vote.

Interest in the contest this year was not as keen. A small vote was polled in the majority of divisions, which was probably due to the fact that there was no majority contest. Mayor Utten was unopposed for the second term of office and Willoughby Ellis was endorsed for the hydro commission without opposition. Few surprises resulted from the balloting.

### ECHO OF PROBE.

The election has a rather significant bearing on the recent judicial probe into the department finances launched by Controller Etherington. The controller was defeated, while Alderman Morrison, who fought the case in the interests of those accused, was elected. Ald. Thompson, against whom charges

the vote was: For, 6,317; against, 37,072.

### THE ALDERMEN.

The following aldermen were elected: Ward 1—W. A. Sommerville, Robert Lutton and George Smith.

Ward 2—John Winton, Major B. S. Wemp and C. A. Risk.

Ward 3—Frank Denton, H. W. Hunt and A. W. Carlick.

Ward 4—S. J. McBride, Nathan Phillips and Claude Pearce.

Ward 5—C. E. Blackburne, W. J. Stewart and R. J. Miller.

Ward 6—Brook Sykes, S. Wright and John Laxton.

Ward 7—Samuel Hyking, F. G. J. Whetter and H. M. Davy.

Ward 8—E. M. Baker, Robert Dibble and Joseph Turner.

The only alderman seeking re-election who met defeat was W. A. Baird in ward 7.

### SCHOOL TRUSTEES.

Ward 1—Rev. F. E. Powell, P. M. Douglas.

Ward 2—H. L. Kerr, Dr. J. E. Forfar.

Ward 3—John Wantless, William Houston.

Ward 4—John McClelland, Samuel Factor.

Ward 5—Acclamation, Dr. Caroline Brown and W. O. McTaggart.

Ward 6—W. C. McBrien, Dr. John Hunter.

Ward 7—K. E. Edmunds, Mrs. E. L. Groves.

Ward 8—Dr. E. C. Beer, O. L. Burns.

Mayor-elect Hiltz is a real estate dealer and builder and has been alderman and controller in turn. He was formerly a farm worker and later a school teacher. The feature of the election was the defeat of Mr. Church, who has been a member of the City Council for 24 years of public life never resigning but a favorable verdict from Toronto voters.

Joseph Gibbons, who headed the Board of Control list, is a Roman Catholic and a Labor man, though Toronto has never been partial to Labor candidates and is some times credited with being strong for the Orange state, he had the support of all the newspapers. His strength is said to be due to his ability to forget about vote-getting when dealing with public matters.

### MOSCOW.

MOSCOW, Jan. 1.—The Bolshevik persecution of the Russian church has been resumed in earnest. Fearing that Patriarch Tikhon has made himself too popular in Moscow and has gone farther than they had intended, the Reds have completely closed down and put under seal the patriarchal chancery.

Some time ago they arrested Bishop Hilarion, Patriarch Tikhon's right-hand man, and now they have sent him to the Solovetski Monastery, thus paralyzing for the moment what they call contemptuously the "Tikhonist church," for, owing to the helplessness of his health, Tikhon is powerless without Hilarion.

### MODERATES ANNOYED.

Toticherin, Litvinoff and Krasin are annoyed over this inopportune outbreak of Bolshevik fanaticism, but they do not dare oppose it, and it seems that just as at the moment when the Moderates Reds had a good chance to get all-around recognition for the Government, the Extreme Reds will spoil the whole game.

During the last few years the Soviet has saved from utter ruin by the mistakes of its enemies. The blunders of Kolchak, Denikin and Yudenich and the lack of harmony between the British and the French governments saved Bolshevism more than once when it was about to throw up the sponge, but the by-law authorizing the construction of the Birch avenue sewer at a cost of \$260,000 was approved by a three-to-one vote.

Interest in the contest this year was not as keen. A small vote was polled in the majority of divisions, which was probably due to the fact that there was no majority contest. Mayor Utten was unopposed for the second term of office and Willoughby Ellis was endorsed for the hydro commission without opposition. Few surprises resulted from the balloting.

### TO FORM JAP CABINET

TOKIO, Jan. 1.—(Associated Press Cable).—Viscount Kiego Kiyoura, president of the Privy Council, to-day was summoned by Prince Regent Hirohito to form a cabinet to succeed that of Premier Yamamoto, which resulted following the attempt last week to assassinate the prince regent.

## SAYS WEST TO BE WORLD'S GRANARY

### J. B. Craig, Former Grain Exchange Head, Prophesies.

BY G. C. PORTER.  
Free Press Special Correspondent.

WINNIPEG, Jan. 1.—J. B. Craig, ex-president of the Winnipeg Grain Exchange, one of the big factors in the marketing process of the industry on the prairies, makes this optimistic observation on the conditions of the trade on the new year's opening:

"The year 1923 is no more, and in reviewing it we find many reasons why the people of Western Canada should be thankful. The most important reason for thankfulness is the bountiful crop of all kinds of grain and the conditions of the trade on the new year's opening.

"The year 1923 is no more, and in reviewing it we find many reasons why the people of Western Canada should be thankful. The most important reason for thankfulness is the bountiful crop of all kinds of grain and the conditions of the trade on the new year's opening.
