ZAM-BUK AND OUTDOOR LIFE.

Every tennis or ball player, every swimmer, every canoeist, every man or woman who loves outdoor life and exercise, should keep a box of Zam-Buk handy.

Zam-Buk is a purely herbal preparation, which, as soon as applied to cuts, bruises, burns, sprains, blisters, etc., sets up highly beneficial operations. First, its antiseptic properties render the wound free from all danger from blood poisoning. Next, its soothing properties relieve and ease the pain. Then its rich, herbal balms penetrate the tissue, and set up the wonderful process of healing. Barbed wire scratches, insect stings, skin diseases, such as eczema, heat rashes, ringworm, babies' heat sores, chafed places, sore feet—are all quickly cured by Zam-Buk. It also eases and cures piles. All druggists and stores. Use Zam-Buk Soap also; 25c. per tablet.

Price of Cement is Again Reduced

LATEST DROP OF TEN CENTS PER BARREL IS EFFECTIVE THROUGHOUT WESTERN TERRITORY.

For the second time, within a period of six months, a reduction of ten cents per barrel in the price of Portland Cement has been announced by the Canada Cement Company.

This latest decrease is effective, according to the company's announcement, at all points in Canada, west of the Lakes. A previous reduction of ten cents per barrel was made last November, so that the total drop in the last six months is twenty cents a barrel, west of the Lakes; and ten cents east—representing an enormous saving to the cement consumers in Western Provinces.

SOUR RISINGS FROM STOMACH

Those Who Experience Fullness and Pain After Meals, Stomach Disorders, and Indigestion, Should Read Below.

"When I was working around the farm last winter I had an attack of inflammation," writes Mr. E. P. Dawkins, of Port Richmond. "I was weak for a long time, but well enough to work until spring. But something went wrong with my bowels, for I had to use salts or physic all the time. My stomach kept sour, and always after eating there was pain and fullness, and all the symptoms of intestinal indigestion. Nothing helped me until I used Dr. Hamilton's Pills. Instead of hurting, like other pills, they acted very mildly, and seemed to heal the bowels. I did not require large doses to get results with Dr. Hamilton's Pills, and feel so glad that I have found a mild yet certain remedy. Today I am well—no pain, no sour stomach, a good appetite, able to digest anything. This is a whole lot of good for one medicine to do, and I can say Dr. Hamilton's Pills are the best pills, and my letter, I am sure, proves it."

Refuse a substitute for Dr. Hamilton's Pills of Mandrake and Butter-nut sold in yellow boxes, 25c. All dealers, or The Catarthozone Co., Kingston, Ont.

A LUCKY SHOT.

It Helped the Captain Out of an Embarrassing Situation.

In the good old days the revenue cutters carried small rifled cannon, but they were only used to fire salutes with and now and then break up a derelict. The gunners were never expected to hit anything. When they used the guns on floating wrecks the cutter would be alongside, and the master gunner would hang away until he'd smashed the wreck or used up his ammunition. No one ever thought of keeping tab.

Captain E. P. Berthoff told a story the other day which illustrates the conditions which formerly prevailed on the "treasure fleet." When it is a matter of running down smugglers or putting an end to poaching or mapping a bad channel or destroying derelicts the cutters average 100 per cent of efficiency.

"Few gunners could hit a target," he said. "Really there was little need. They didn't use a loaded shell once in a lifetime. But now and then the board of inspectors came on board, and then every one was worried and nervous until the ordeal was over. The inspectors visited the cutter commanded by a friend of mine. He ordered out the firing squad.

"Bang! went the rifle. The projectile hit the target squarely in the center.

"Cease firing," ordered the captain happily. And he turned to the inspectors, pleased as Punch. "There's no use wasting ammunition," he said. "Our gunners can do that every time."—Herbert Corey in Cincinnati Times-Star.

OLD BAVARIAN TOWNS.

Many of the Smaller Ones Merely Walled Farm Villages.

In old Bavarian districts many of the smaller towns are merely walled farm villages. These settlements of agriculturists reproduce the ancient laager for all. Each is built in the form of a parallelogram, the shorter sides having each a gateway, with double gates, over which rise central square watch-towers capped with conical red roofs. A narrow road or street runs from gate to gate, with old half timber houses set back close to the inclosing wall. The ground floor of these houses affords stabling for cattle, and from these stables the cows are driven out through the town gates in the morning and brought in at night. Townships like this are merely clusters of houses intimately connected with the farm lands that lie beyond their gates. The peasantry, whether peasant proprietors or allotment leaseholders, go in and out to their work.

In eastern Bavaria, toward the Danube, where the better class farms are to be seen, one finds farmhouses of wood, a great shingled roof covering—as in Holland—not only the large living apartment, with many bedrooms, but also the stables for the horses and cattle. On such farms much of the farm work is done by girls, who usually wear short petticoats, tight bodices and kerchiefs on their heads. Most of the men are either in the army, or working at trades.
