## GREAT AGRICULTURAL WORK!

THE FARMER'S GUIDE TO  
Scientific and Practical Agriculture.  
By HENRY STEPHENS F.R.S.E.,  
Author of the "Book of the Farm," Editor  
of the "Quarterly Journal of Agriculture,"  
&c., &c.

Assisted by  
JOHN P. NORTON, A. M.,  
Professor of Scientific Agriculture in Yale  
College, New Haven, Author of Agricultural  
Prize Essays, &c., &c.

This highly valuable work will comprise two large royal octavo volumes, containing over 1400 pages, 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, sowing, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the pictorial feature of the book is unique, and will render it of incalculable value to the student of agriculture.

This great work is the joint production of two of the most talented agricultural scholars of the day; the one eminent as an author and editor in Great Britain, and the other as a Professor in Yale College. Both are eminently practical as well as scientific men, and all they say may be relied on as the result of profound research, tested and sustained by practical experiment. The contributions of Professor Norton are chiefly designed to adapt the British portion of the book to this country, and thus make it an Anglo-American work, giving to its readers all the really useful agricultural knowledge at present attainable in either country.

The work is divided into four departments, distinguished by the four seasons of the year, commencing with Winter, and Prof. Norton's notes will be published as an appendix to each part. The first chapter treats of the following subjects, under the head of

INITIATION  
On the best of the existing Methods for acquiring a thorough knowledge of Practical Husbandry.

On the Difficulties to be encountered in learning Practical Husbandry, and on the Means of overcoming them.

On the Different kinds of Farming.

On the Persons required to Conduct and Execute the Labor of the Farm.

On the Branches of Science most applicable to Agriculture.

On the Institutions of Education best suited to Agricultural Science.

On the evils attending the neglect of Landowners and others to learn practical Agriculture.

On observing the details and recording the facts of Farming by the Agricultural Student.

Terms of the Work.—The American edition, the first number of which is already issued, will be published in semi-monthlies of 64 pages with an English steel engraving in each number, of which there will be about 22 in all. PRICE, 25 CENTS PER NUMBER.

CLUBBING.

These Copies will be sent to one address for \$15: 5 copies for \$75. Cash in all cases to be remitted direct to the Publishers, and not through Agents.

In drawing attention now, at the commencement of the Spring Trade to our Large Establishment, CORNER OF KING AND CROSS STREETS, we wish briefly to enumerate the advantages which we offer to our Customers and the Public. We have always signally avoided claiming to ourselves any power of selling at thirty or forty per cent. under others in the trade, but simply rested our claims on our extensive experience—buying our Goods direct from the best Manufacturers at Cash Prices. In commencing the Clothing Business some time ago, in St. John, in addition to our large Custom Trade, we introduced a scale of prices little known previously to the respectable class of the public; this we were enabled to do, by entirely rejecting the long credit system, and supplying first rate articles at a moderate scale of Profit for cash. Our theory has invariably been, that improvements can always be introduced. This year we endeavour to do better than last.

PRICES THE LOWEST, QUALITY THE BEST, AND WORKMEN SUPERIOR. And by thus continuing to progress during the few years we have been in business, we apprehend we have now brought our business to a point surpassed by none. The superiority of our style of Cutting is well known. The newest Paris and London Styles are introduced as early as in New York or Boston, and every improvement is at once adopted. In alluding to the large Stock of Clothes in our Establishment, we may merely state that it comprises the best assortment of FRENCH and GERMAN TWILLED CLOTHS, and DOESKINS, of every shade and colour to be found. Having thus alluded to the general arrangement of our business, as far as regards the Order Department, we wish particularly to draw attention to the other very large and increasing branch of business, viz.

THE EXTENSIVE READY MADE DEPARTMENT. Of this branch, we may say that every article in our Establishment is made up as carefully as if ordered. No workman is too good to be employed by us. We make all descriptions of Garments, up to the highest priced Coats. Numbers have proved and acknowledged the value of being at once fitted. Some ideas may be formed of the system pursued, when we state that in Coats we keep thirty-six sizes, so that all shapes and heights may feel a certainty of being fitted. To enumerate the varied Stock would far exceed the limits of an advertisement, but our customers will find on visiting the

PANTECHNETHECA,  
Corner of King and Cross Streets, that all their expectations will be fully realized. A SET or MORNING at five minutes notice. St. John, May, 1850. GARRETT & SKILLEN.

## Holloway's Ointment.

EXTRAORDINARY CURE  
OF A CASE ABANDONED BY GUY'S, THE METROPOLITAN, KING'S COLLEGE, AND CHARIING CROSS HOSPITALS, LONDON.

This Agent was sworn to before the Lord Mayor of London.  
WILLIAM BROOKE, of No. 2, Union Street, Southwark, London, Messenger, maketh Oath and swears that he (this deponent) was afflicted with FIFTEEN YEARS' Ulcers on his left Arm and Ulcerated Sores and Wounds on both Legs, for which the deponent was admitted an out-patient at the METROPOLITAN HOSPITAL in April 1841, which he continued nearly Four Weeks—Unable to receive a cure there.

THE DEPONENT sought relief at the three following Hospitals—KING'S COLLEGE HOSPITAL, in May, for five weeks; at GUY'S HOSPITAL, in July, for six weeks, and at CHARIING CROSS HOSPITAL, at the end of August, for some weeks more; which the deponent left in a far worse condition than that in which he had quitted GUY'S when Sir BARNARDY CORRIE, and other medical Officers of the Establishment had told the deponent, "that the only chance of saving his life was to lose his Arm."

THE DEPONENT, thereupon, called on Dr. BAKER, chief Physician of Guy's, who, on viewing deponent's condition, kindly and liberally said, "I am utterly at a loss what to do for you, but here is a half sovereign, go to Mr. Holloway, and try what effect his Pills and Ointment will have, as I have frequently witnessed the wonderful Effects the have in Desperate Cases! You can't, me see young again."

THIS UNPREJUDICED advice was followed by the deponent, and a RECOVERY Ourselves. RECOVERY IN THREE WEEKS by the use of Holloway's Pills and Ointment, after THREE HOSPITALS had failed! When Dr. BAKER was shown, by the deponent, the result of his advice and charity, he said,—"I am both surprised and delighted! for I thought, that if ever I saw you again it would be without your Arm—I can only compare this cure to a charm!"  
Sworn at the Mansion House of the City of London this 21st day of March, 1852  
WM. BROOKE  
Effor me, J. PIRIE, Mayor

This extraordinary Ointment will cure all most Dangerous Wounds and Ulcers, Bad Legs, Bad Breasts, Sore Nipples, Sore Throats, Chiefoot, Yaws and Cocoa-Bay, or African Kings EYIL, Stoney and Ulcerated Cancri, Piles, Tumours, Swellings, Contracted and Stiff Joints, Gonorrhea, Ringworms, Burns, Scalds, Chapped Hands, Chills, Gout, Rheumatism, and almost every other External Disease—The Bite of the Mosquitoes, and Sand Flies—Sold at the Proprietor's Establishment, 244, STRAND, LONDON, and by almost all respectable Vendors of Medicines throughout the Civilized World.
