Poultry raising pays.
People who tell you that there is no money in raising chicks may have tried to make money in the business by using selling hens as hatchers. This was the business of a hen 10-15 by eggs. As a hatcher and brooder she is out-classed. That's the business of the Chatham Incubator and Brooder, and they do it perfectly and successfully.
The poultry business, properly conducted, pays far better than any other business for the amount of time and money invested.
The business of poultry-raising—men and women all over Canada and the United States—have proved to their satisfaction that it is profitable to raise chicks with the

CHATHAM INCUBATOR AND BROODER.

"Yours is the first incubator I have used, and I wish to state I had 20 first lot, truly a lot per cent. hatch. I can well recommend it to any hatcher and brooder. Trus. McCAIGROD, Halifax, N.S."

"My first hatch came off. I got 170 chicks from 19 eggs, who can beat that for the first trial, and on early in the spring. I can well recommend it to any hatcher and brooder. I could not get another money could not buy it from me. Every farmer should have a No. 3 Chatham Incubator—F. W. HANNEY, Dunnville, Ont."

"The incubator you furnished me works splendidly well. It is easily operated, and only needs about 10 cents worth of electricity every day. E. McGUFFIN, MOOSE JAW, ASSA."

The Chatham Incubator and Brooder is honestly constructed. There is no humbug about it. Every inch of material is thoroughly tested, the machine is built on right principles, the insulation is perfect, thermometer reliable, and the workmanship the best.
The Chatham Incubator and Brooder is simple as well as scientific in construction—a woman or girl can operate the machine in their leisure moments.
