

powers and great achievements belonged to this English Statesman: his wonderful capacity for affairs, his foresight, his management of men, his control of policies have rarely been equalled. This biography will fill no mean place inasmuch as it is in style interesting and thoughtful and at once real and readable. It is indeed, like the other volumes, a model biography, giving a clear and true picture of the man, his times and his work.

Good Living. A Practical Cookery Book for town and country. By Sarah Van Buren Brugière. (New York: G. P. Putnam's Sons.) \$2.25. Taste and skill in more than one line are displayed in "Good Living," which is one of the best cookery books we have seen. The recipes are numerous and evidently gathered from the lore of different nations. Each recipe is preceded by a table of materials and there are other tables given, notably one as to the time required for meats, vegetables, etc., to cook properly. The book abounds in useful hints and suggestions and is altogether an admirable one.
