PLUMS—PLUMS

This season, commission men, store-keepers and canners found the crop of Plums short and as a result what fruit was harvested brought very good prices in all markets. For several years back, the planting of plum trees has been greatly curtailed, mostly on account of the low prices that prevailed some few seasons back, so now is the time for far-sighted fruit growers to plant more Plums. We have the finest lot of Plum trees ever offered in Canada.   Write for prices.
