

three hundred and fifty receive Bible instruction every Sunday. At the request of some of these workers, a Sunday School teachers' normal class has been established. The daily lessons in the Acts of the Apostles will, I hope, be particularly helpful to these, not only in keeping constantly before them the true motives for Christian work, but in leading them to place themselves in contrast with the early Christian workers instead of with each other.

The interest in our Wednesday meetings is well sustained, the monthly missionary meeting being, perhaps, the most interesting of all. Several of the girls have sent to friends full notes of the meetings.

The King's Daughters' school has had an average attendance of twenty-two. In connection with it a mothers' meeting is held every Sunday evening.

That the spiritual tone of the school keeps pace with the practical, we have many interesting proofs. One is that such books as "Christians Secret of a Happy Life," and the works of Frances Ridley Havergal are read and enjoyed.

With a heart overflowing with gratitude to God, I submit the above.

J. K. M.

*Evangelistic.*—Five Bible-women have been employed. One, Mrs. Inomata, was laid aside during February, and has not been able to do more than half work since. Mrs. Hasegawa has only been able to do half work since the first of February. These two will continue to do half work until the end of the present quarter.

Six hundred and four visits have been paid, eighty-one new homes entered, five persons have asked for baptism.

Weekly meetings have been held in Ushigomi, Kakigaracho, Kobikicho, Azabu, Shitaya, Negishi; a bi-weekly meeting at Koishikawa, and a tri-weekly meeting at Komagomi. These meetings have been conducted by Misses Cartmell and L. Hart, with an average of six.

Yoshida O Yu san, a graduate of our school, has had charge of the mothers' meeting in the King's Daughters' school building, on Sunday evening, with an average of thirty-five; she has besides, a meeting on Thursday afternoon in a private house, with an average of twenty-eight; another on Wednesday, with an average of three. So far the weather has been unfavorable to a large attendance at this last.
