New Water Jacketed Cupola Furnace.

KEIM'S NEW WATER JACKETED CUPOLA.

Produces superior castings with a saving of a laborer and four per cent. of a saving in metal and fuel. It is especially adapted for the use of stove, brass and iron foundries; also, for the treatment of phosphor-bronze, copper and bell metal. It is so constructed that it requires little if any repairs, and the bottom need not be dropped for months.

Estimates furnished for portable reduction works for the smelting of gold, silver, lead and copper ores; also, for hand-power diamond bit drills that brings up solid core.

ASSAYING AND ANALYZING

Promptly attended to by the best chemists
