CONDITIONS OF THE MARKET.

No marked improvement in the demand for building
supplies has taken place, although the country trade is
said to be slowly improving, and favorable reports are
being received from the rural lumbering sections. It is
expected that building operations in Toronto this season
will not be remarkably brisk. There have been few
features in the cement market, only a fair movement in
small lots being noted, and no large transactions having
taken place. Prices consequently remain the same.
Paints and oils are unsettled, and keen competition is
going on between dealers. Business in glass shows some
disposition to improve, but notwithstanding this fact,
jobbers find it difficult to supply the demand, owing
to the depleted condition of stocks, and very few new
supplies being received.
