

A BIG BEAVER DAM.

The biggest beaver dam ever seen in Maine is now attracting hundreds of people in Caribou, on the Aroostook river. Two miles from the village the beavers have built a dam of logs and mud 250 feet long, turning the river back upon the lowlands for a distance of three miles, and thus creating a great lake.

Trees a foot in diameter have been cut down by the beavers, the branches trimmed off and the trunks, in some mysterious manner, brought to the dam and submerged. The dam is better than many on the river that have been built by men. Over 1,000 beavers have worked hard on this job for several months, and they will be allowed to remain in possession all winter.

Stackpole Patent Improved Street Sweeping Machine Is the Standard of Perfection.

Because no sweeper so effectively does the work for which it is designed as "The Studebaker." It Sweeps Clean. No sweeper is constructed with the same degree of care and mechanical precision. It Wears Well. "The Studebaker" has the smallest possible number of working parts, and has less wearing than any other sweeper made. It is free from unnecessary complications. With reasonable care it will not get out of order. Send for complete descriptive catalogue.
