

25 YEARS IN EVIDENCE

DEAR SIR,—Some twenty-five years since we introduced, largely to the medical profession, a combination which we called "**BEEF, WINE and IRON,**" giving the exact ingredients and making no claim of proprietorship. It has been very freely prescribed with most satisfactory results. Our sales have been very extensive, amounting to many million bottles, besides a large quantity in bulk for dispensing in prescriptions. The claims we advanced as to its value have been fully verified, and its advantages have been highly appreciated by thousands of the leading practitioners all over the world.

We have no hesitation in stating that as a Tonic, Stimulant and Roborant **BEEF, IRON and WINE,** properly prepared, has proven more uniformly beneficial than any combination we have ever known.

IT IS A VALUABLE RESTORATIVE IN CONVALESCENCE

As a nutritive tonic it would be indicated in the treatment of Impaired Nutrition, Impoverishment of the Blood and in all the various forms of General Debility.

Prompt results will follow its use for Pallor, Palpitation of the Heart, and cases of Sudden Exhaustion, arising from either acute or chronic diseases. Doctors, and members of other professions, find it very effectual in restoring strength and tone to the system after exhaustion produced by over-mental exercise.

AN IMPORTANT POSTSCRIPT

WYETH'S BEEF, IRON AND WINE has made its great reputation because it contains what it claims.

In each tablespoonful of this preparation there is the essence of one ounce of Beef and two grains of Iron, in solution in Sherry Wine. It is, therefore, a refreshing stimulant, the effect of which is not merely to quicken the circulation and impart a temporary benefit, but also to supply actual strength.

Physicians and patients have been much disappointed in the benefit anticipated, and often ill effects have been experienced from the use of the many imitations claiming to be the same, or as good as Wyeth's. In purchasing or prescribing please ask for "Wyeth's," and do not be persuaded to take any other.
