

STEAM BOILER & PLATE GLASS INSURANCE CO.

OF CANADA

Head Office, - - - LONDON, Ontario.

THE unexpected generally happens. Have your boiler inspected and insured; it pays to know that you are right. Don't trust to luck. Will your boiler stand the pressure at its weakest point? Can you judge it?

INSPECTION makes you safe; insurance indemnifies you against loss. Have a competent inspector determine what pressure is safe, and the benefit of his advice and inspection.

Subscribed Capital \$200,000. Full Government Deposit.

OILS, PAINTS AND GLASS.—There has been much cutting in the prices of white lead, ground in oil, as nominally quoted for some time past, and a meeting of the grinders was held some few days ago, when it was agreed that they should all stand by the prices as amended below. No papers were signed, or penalty mentioned, but a general verbal agreement entered into. It is much to be feared that, when an apparently cast-iron combination, such as was formed a year or so ago, with signed articles, bonds by each member, &c., could only hold for a few months, the chances for the present understanding lasting any time are very poor. Dry white lead is easier. Turpentine is advanced, as we anticipated last week it might be; single brls. are firmly held at 44c.; cost laid down is now calculated at 41 1/2 c. Castor oil is easier, owing to low rate of Eastern exchange; other oils as before. We quote:—Turpentine, 44c. per gallon for single barrels; two to four barrels, 43c. Linseed oil, raw, 57c. per gallon; boiled, 60c.; 5-barrel lots,
