| List of Tables .....   | iv   |
| List of Figures .....  | v    |
| Abstract .....   | vi   |
| Résumé .....   | vi   |
| Preface .....  | vii  |
| Acknowledgements .....   | vii  |
| List of Abbreviations .....  | viii |
| <br>   |      |
| Chapter 1: Introduction .....  | 1    |
| <br>   |      |
| <b>PART I: SATELLITE OPERATIONS</b>                                  |      |
| <br>   |      |
| Chapter 2: Satellite Operations, Current and Planned .....           | 3    |
| Chapter 3: Ambiguous Space Operations .....                          | 7    |
| Chapter 4: Removal of Ambiguities .....                              | 11   |
| <br>   |      |
| <b>PART II: SATELLITE HARM ANALYSIS</b>                              |      |
| <br>   |      |
| Chapter 5: Modes of Harm .....                                       | 14   |
| Chapter 6: Analysis of Intersatellite Harm .....                     | 20   |
| Chapter 7: Verification .....  | 24   |
| Chapter 8: Quantitative Indices of Harm .....                        | 28   |
| Chapter 9: Automated Harm Calculation:<br>The HARMDEX Software ..... | 30   |
| <br>   |      |
| <b>PART III: CONFIDENCE-BUILDING MEASURES</b>                        |      |
| <br>   |      |
| Chapter 10: Range of Harm .....                                      | 33   |
| Chapter 11: Keep-Out Zones .....                                     | 37   |
| Chapter 12: Autonomous Monitoring, Verification Beacons .....        | 41   |
| Chapter 13: Regulating Space Weapons .....                           | 44   |
| Chapter 14: Concluding Remarks .....                                 | 48   |
| <br>   |      |
| NOTES .....  | 50   |
