

In cases where candidates request placements in institutions which are outside the responsibility of the respective host agencies, such notification will be given within three months of the date specified for receipt of nominations from the sending country.

Final notification of decisions on all questions concerning the placement of exchange participants will be made by May 20. The notification of acceptance must state:

- 1) the article under which the candidate is accepted;
- 2) the university or institution at which the candidate has been placed;
- 3) the name, address and telephone number of the person in charge of reception;
- 4) the date upon which the candidate is expected in the receiving country;
- 5) that appropriate steps will be taken for granting a visa to the candidate before his agreed date of arrival;
- 6) the archives, research institutes, libraries and laboratories to which the candidate is granted access and any to which such access cannot be granted.

On receipt of the consent of the receiving side, the sending side will advise the receiving side of the definite date of arrival of the exchange participants.
