

- (d) migration routes of fur seals and their wintering areas;
- (e) numbers of seals from each herd found on the migration routes and in wintering areas and their ages and sexes;
- (f) extent to which the food habits of fur seals affect commercial fish catches and the damage fur seals inflict on fishing gear; and
- (g) other subjects involved in achieving the objectives of the Convention, as determined by the Commission established under Article V, paragraph 1.

3. In furtherance of the research referred to in this Article, each of the Parties agrees to carry out, each year after the entry into force of the Convention, the programs set forth in the Schedule annexed to the Convention with any modifications thereof made pursuant to Article V, paragraph 3. The said Schedule, together with any such modifications, shall be considered an integral part of this Convention.

4. Each Party agrees to provide the Commission annually with information on:

- (a) number of black pups tagged for each breeding area;
 - (b) number of fur seals, by sex and estimated age, taken at sea and on each breeding area; and
 - (c) tagged seals recovered on land and at sea;
- and, so far as is practicable, other information pertinent to scientific research which the Commission may request.

5. The Parties further agree to provide for the exchange of scientific personnel; each such exchange shall be subject to mutual consent of the Parties directly concerned.

6. The Parties agree to use for the scientific pelagic research provided for in this Article only government-owned or government-chartered vessels operating under strict control of their respective authorities. Each Party shall communicate to the other Parties the names and descriptions of vessels which are to be used for pelagic research.

ARTICLE III

In order to realize the purposes of the Convention, including the carrying out of the coordinated and cooperative research, each Party agrees to prohibit pelagic sealing, except as provided in Article II, paragraph 3 and the Schedule, in the Pacific Ocean north of the 30th parallel of north latitude including the seas of Bering, Okhotsk, and Japan by any person or vessel subject to its jurisdiction.

ARTICLE IV

1. Each Party shall bear the expense of its own research. Title to sealskins taken during the research shall vest in the Party conducting such research.

2. If the total number of seals of the Commander Islands breeding grounds decreases and falls below 50,000 head, according to data in official records, then commercial killing of seals and apportionment of skins may be suspended by the Union of Soviet Socialist Republics until the number of seals exceeds 50,000 head. This provision also applies to the fur seal herd of Robben Island, if the population of that herd becomes less than 50,000 head.
