

Mrs. Alfred Watt      - 2 -

is very limited.

I am sorry I did not see more of you when you were in Canada, but it so happened I was very busy when you were in Montreal. One's life seems to become more involved as the years go by and very often one's programme is laid out for weeks ahead. We see something of Robin and his wife and I think they are getting some commissions. My wife is, I know, arranging a tea early in January, when Robin will give an exhibition.

We are having delightful winter weather - plenty of snow but mild.

With all kind wishes to Sholto  
and you, I am,

Yours faithfully,
