

7.

8. The Journal of Agriculture and Horticulture of
the Province of Quebec.

65. 1922 - Dickson, B.T. - Sommon weeds and their control
(English)

This organ of the Quebec Department of Agriculture,
66. 1922 - McTaggart, A. - Alfalfa Growing in Quebec
designed to promote better agriculture (English)
diffusion of
knowledge amongst farmers and horticulturists, is published
in two editions - English and French - each issued monthly.
A certain portion of the material is common to the two editions
but in the main the two are different. The English edition
has been edited at Macdonald College from 1908 to the present
and a large proportion of the matter contained in it has been
contributed by the members of the staff of the Schools of Agri-
culture and Household Science.

9. Contributions to the Agricultural Press

Members of the staff have made frequent contributions to
other farm papers, such as the Family Herald and Weekly Star,
the Ottawa Valley Journal, the Farmers' Advocate, Farm and Dairy,
Grain Growers' Guide, etc..
