

Adresser la correspondance  
à M. le Directeur de l'École

Grenoble, le the 13<sup>th</sup> May 1924.

The Rector

McGill University  
Montreal (2. Q)

Dear Sir,

I beg to apply respectfully to be employed in the Forests Products  
Laboratories of your University - which I have heard from  
a Canadian student, are to be transferred to Ottawa -  
Obviously, Professor of Chemistry (three years 13-16) at the Ecole des  
Hautes Etudes - Montreal - analytical chemist of the Canadian  
Government - Ottawa - (Food & Drugs Laboratory, Queen Street)  
I came back to France on duty during <sup>the war</sup> the war and since  
the end of the war. I was teaching Chemistry in Rouen (Institut  
Chimique as Director) - and now I am teaching Cellulose  
& Paper Chemistry as well as manufacture of Chemical Pulp  
here in Geneva University - <sup>and I am always</sup>  
During the last five years. I was in the same time <sup>conducting</sup>  
Chemist of the Papeteries de France - which are manufacturing  
Sulphite Pulp (Sulphite pulp - Soda pulp and Straw  
pulp by the De Vaino Process -  
The Director, I am taking in the Research Laboratories (Papeteries de  
France - Le Papier, pp. 24 in fine, and La Papeterie 29 Novemb. 23  
pp. 1102) - and my <sup>practical</sup> knowledge of languages and documentation  
are titles which allow me to bring any research in the
