YOUR BUSINESS IS HELPED BY ...

.. ADVERTISING ..

... IN ...

CANADA LUMBERMAN

.. .. WRITE FOR PARTICULARS

Dauntless Shingle and Heading Machine

.. WILL make more Shingles per day than any self-acting machine with vertical saw in existence, and more Shingles from the same quantity of timber.

THE FRAME

... Is of Iron throughout, very heavy and rigid, strongly bolted and braced.

THE CARRIAGE

... Is very light and strong, made of forged Cast Steel Plate, running on steel ways or tracks. Will take in a block 18 inches wide and 19 inches long, adjustable for 16-inch or 18-inch shingles.

—CAPACITY FROM 25,000 TO 50,000 PER DAY—

[COPY.]

LINDSAY, May 16th, 1893.

Mr. F. J. DRAKE, Belleville.

Dear Sir, The shingle machine we bought of you over a year ago is doing well. Last year we averaged over 37,000 shingles per day all through the season. We did not lose 15 minutes' time from all stoppages, and all repairs so far have not cost you. We expect to make a still higher average cut this year.

All our other machinery purchased from you is as good as the shingle machine. Your drag saw, with friction drive, cannot be beaten. We run ours 180 strokes per minute; with 6½ ft. saw it would easily make blocks for two shingle machines. The splitter, with balance wheel 4 feet diameter, weighing 1,000 lbs., is perfect and runs without the least jar. The iron frame shingle jointer with 40-inch saw is the only good jointer we ever saw. In fact, all your machinery, line shaft, pulleys, etc., give us the best satisfaction.

We expect to require another mill in a few days, and, if we do, will send you the order for complete outfit.

Truly yours,

M. DOWE.

P.S.—If any one wants to see a good working shingle mill send them to me.—M. D.
